Subject: RE: Meeting with Administrator Pruitt June 28th

My name is Cheryl Woodward and I will assist you in the logistics for your meeting at EPA on Wednesday, June 28th at 10:30 am. The instructions/directions to EPA is below and if you have any questions please contact me. Look forward to seeing you all.

Directions: If you come by Metro, the Federal Triangle metro stop is directly below the building entrances. You would leave the metro station and go up all three sets of escalators from the train otherwise two escalators then do a small U-Turn to the left heading toward 12th street, the South Lobby entrance is directly and immediately to your right (Glass Doors -EPA Signified on Glass).

EPA address is 1200 Pennsylvania Avenue, NW. If you are coming by taxi/vehicle, you want to be dropped off on 12th NW, **which is between Pennsylvania and Constitution Avenue**. It is almost exactly half way between the two avenues on with Federal Triangle Metro sign and Trump Hotel Towers side entrance can be used as a landmark. From 12th Street, facing the building with the EPA and American flags, walk toward the building (under the flags) and take the glass door on your left hand side with the escalators going down to the metro on your left. This again will be the **South Lobby of the William Jefferson Clinton building**.

Once inside the building, security will prompt you to scan all items such as bags, coats etc., and then let the guards know that you were instructed to call Cheryl Woodward at 564-1274 or Michelle Hale at 564-1430 to escort you to the meeting with the Administrator. Security will make temporary cards for everyone. Allow for 15 minutes to get through the process

Subject: Meeting with Administrator Pruitt June 28th

Ryan and Mandy,

Hope all is well. I'm sure things are busy over there given yesterday's announcement.

We were hoping Administrator Pruitt might have some time to meet Honeywell's Performance Materials and Technologies CEO, Rajeev

Gautam, and Honeywell's General Counsel, Kate Adams, on June 28th? We are eager to give him an overview on our business and specifically talk about the Significant New Alternatives Policy (SNAP) program and SNAP rules, Montreal Protocol and greenhouse gas emissions and fuel economy standards for light-duty vehicles.

Please let me know if timing works and if you need anything more from my end.

Best,

Amy

Theater style might be the most pragmatic, but I'm open to other options as well.

I think the way you outlined it with him speaking for a bit, then taking questions would be great. We're very interested to hear his priorities for the agency, and specifically his plan for timely implementation of TSCA.

Does that help?

Thanks,

Autumn

Excellent, appreciate you getting back. I know it seems like ages away, but our invitations must be sent pretty soon, so we're getting down to the wire. And, thanks for connecting me with Sydney!

Sydney, below are some logistical details that your team may need to make a decision. Feel free to email me or call with further questions—happy to discuss at 202-331-2765.

We are flexible and willing to do almost anything to accommodate Mr. Pruitt. We very much hope that he accepts our invitation. Thanks so much!

Annie

CEI Annual Dinner and Reception Keynote Details:

- VIP Reception at 6:00 p.m. – optional but recommended for keynote speaker
- Dinner begins at 7:15 p.m. (lasts approx. 2 hours)
- We can be flexible on the arrival time, but we recommend the speaker arrives no later than 6:45pm
- Speaker is welcome to bring guest(s) – the number of guests is open to discussion
- Remarks are approximately 20 mins, and begin about halfway through dinner
- Remarks are on-the-record given some reporters will be in the room, but there is no Q&A time
- Aside from the remarks, media availability after the dinner is optional
- We're happy to arrange transportation or any other logistical needs

Hello Ms. Hale,

I'm following up on the invitation Competitive Enterprise Institute President Kent Lassman sent Mr. Pruitt to keynote our annual dinner in June. Do you know if Mr. Pruitt is still considering the invite?

I received a call from a Ms. Hupp last week requesting some details, but I have returned the call a few times, and have not been able to reach her. Unfortunately, we're running up against a deadline for selecting a speaker. Would you be able to let us know by Friday, March 17, if Mr. Pruitt is able to accept our invitation?

I'm happy to provide any details to help with this decision. CEI would love to have Mr. Pruitt as our speaker. CEI and our supporters care deeply about energy and environment issues and given Mr. Pruitt's legal and intellectual background, we are looking forward to hearing more about his goals as the new EPA administrator. We believe the annual dinner would provide Mr. Pruitt a prominent platform to speak to an influential audience.

I've reattached the invitation. As you may know, the CEI dinner hosts nearly 1,000 of CEI's strongest supporters, including senior level policy professionals, distinguished scholars, business executives, agency officials, members of Congress and their staff. More details about the dinner can be found [here](#). Previous dinner speakers include Steve Forbes, Carly Fiorina, and Paul Ryan.

I'm sure things are very busy right now, but if you could provide any information, we'd really appreciate it. Thank you!

Subject: Invitation to Keynote CEI Annual Dinner June 7, 2017 in Washington, D.C.

Ms. Hale,

Thank you for making time to visit this morning and to make sure the attached invitation doesn't slip through the cracks of what must be a very busy week.

Details of the invitation to speak are included in the attached letter which were previously shared with Ms. Samantha Dravis.

We are excited about the legal discipline and intellectual rigor Mr. Pruitt will bring to the EPA and I believe that our annual dinner, host to upwards of 1,000 people, provides a powerful platform for him to speak.

Please let me know if there is anything we can do to help advance the decision-making process.

Very best regards,

Kent

My name is Cheryl Woodward and I will assist you in the logistics for your meeting at EPA on Friday, April 28 at 2:30 pm. The instructions/directions to EPA is below and if you have any questions please contact me. Confirm the attendee's for the meeting to prepare your passes with security. Look forward to seeing you all.

Directions

Directions: If you come by Metro, the Federal Triangle metro stop is directly below the building entrances. You would leave the metro station and go up all three sets of escalators and then do a small U-Turn to the right heading toward 12th street, the North Lobby entrance is directly and immediately to your left (Glass Doors -EPA Signified on Glass).

EPA address is 1200 Pennsylvania Avenue, NW. If you are coming by taxi/vehicle, you want to be dropped off on 12th NW, which is between 12th and Constitution Avenues. It is almost exactly half way between the two avenues on 12th street and the Federal Triangle Metro sign can be used as a landmark. From 12th Street, facing the building with the EPA and American flags, walk toward the building (under the flags) and take the glass door on your left hand side with the escalators going down to the metro on your left. This again will be the **South Lobby of the William Jefferson Clinton building**.

Once inside the building, security will prompt you to scan all items such as bags, coats etc., and then let the guards know that you were instructed to call Cheryl Woodward at 564-1274 or Michelle Hale at 564-1430 to escort you to the meeting with the Administrator. Security will make temporary cards for everyone. Allow for 15 minutes to get through the process.

Done. Let me know location, length of meeting.

It would also help to have some guidance on what climate-related topics would be useful to cover. A "red team" exercise would be high on my list.

Dear Ryan,

Very glad to meet you with Administrator Pruitt today. With this email, introducing you to Steve Koonin, now at NYU, formerly Undersecretary of Energy in DOE and Provost of Caltech. He's an MIT Ph.D. in astrophysics. I've attached his article on

climate science not being settled from the Wall Street Journal.

He's based in New York City but will be down for a meeting of the top physicists on April 28, and could come a day early. Or they could meet in New York City. I think the Administrator would find an 1 ½ to 2 hours very useful for deepening the texture on the climate change discussion. As I mentioned, Steve will have a new article coming up in the WSJ later this month.

Kind regards,

Dan

Subject: Following up, invitation to Keynote CEI Annual Dinner on June 7 in Washington

Hello Ms. Hale,

I'm following up on the invitation Competitive Enterprise Institute President Kent Lassman sent Mr. Pruitt to keynote our annual dinner in June. Do you know if Mr. Pruitt is still considering the invite?

I received a call from a Ms. Hupp last week requesting some details, but I have returned the call a few times, and have not been able to reach her. Unfortunately, we're running up against a deadline for selecting a speaker. Would you be able to let us know by Friday, March 17, if Mr. Pruitt is able to accept our invitation?

I'm happy to provide any details to help with this decision. CEI would love to have Mr. Pruitt as our speaker. CEI and our supporters care deeply about energy and environment issues and given

Mr. Pruitt's legal and intellectual background, we are looking forward to hearing more about his goals as the new EPA administrator. We believe the annual dinner would provide Mr. Pruitt a prominent platform to speak to an influential audience.

I've reattached the invitation. As you may know, the CEI dinner hosts nearly 1,000 of CEI's strongest supporters, including senior level policy professionals, distinguished scholars, business executives, agency officials, members of Congress and their staff. More details about the dinner can be found [here](#). Previous dinner speakers include Steve Forbes, Carly Fiorina, and Paul Ryan.

I'm sure things are very busy right now, but if you could provide any information, we'd really appreciate it. Thank you!

Annie

Subject: Invitation to Keynote CEI Annual Dinner June 7, 2017 in Washington, D.C.

Ms. Hale,

Thank you for making time to visit this morning and to make sure the attached invitation doesn't slip through the cracks of what must be a very busy week.

Details of the invitation to speak are included in the attached letter which were previously shared with Ms. Samantha Dravis.

We are excited about the legal discipline and intellectual rigor Mr. Pruitt will bring to the EPA and I believe that our annual dinner, host to upwards of 1,000 people, provides a powerful platform for him to speak.

Please let me know if there is anything we can do to help advance the decision-making process.

Very best regards,

Kent

Ryan

Hope you are well.

I wanted to email you to request a meeting with Administrator Pruitt with the CEO of Republic Services, Dan Slager. As you know Republic Services is the second largest waste company in the country.

Purpose of the meeting will be to update Mr. Pruitt on the issues we are dealing with at Republic and the issues surrounding the West Lake Landfill in Missouri.

I am happy to work with your staff to set up a meeting in the coming weeks or month.

Thanks and let me know what else you need from us.

Hi Sydney,

Thank you for the update. I believe we will lose some members of the group at that time, but will quickly check and confirm. Either way, do I understand that 11am will not work for Administrator Pruitt? I just want to be clear with the group that we need to make 12noon work if possible if that is the case.

Thank you!

We aren't certain what his day and evening will be like on the 15th-- he will be traveling with the President. (Cool, huh?!) As soon as we have more details we will try to line this up. Pls contact me at hale.michelle@epa.gov later next week and hopefully I will know more!
On Fri, Mar 3, 2017 at 11:39 AM Cohen, Walter <walter.cohen@obermayer.com> wrote:

When I was with Scott Sunday evening at the RAGA Dinner event, he suggested I contact you to set up a dinner I am proposing with him. This would include myself (whom Scott knows as a former PA AG), DC AG Karl Racine, Ben Wilson (a DC attorney who is a close friend of Karl's and Scott might enjoy knowing as the Uncle and current father figure of Seattle Seahawks Quarterback Russell Wilson), Rick Smotkin again from Comcast, myself and my son-in-law Russ LaMotte (who just succeeded Ben Wilson as managing partner of the law firm Beveridge & Diamond).

Any possibility that Scott might be available in DC the evening of Wednesday, March 15? We could also do Thursday, March 16, but Ben would not be available then, and I would need to check further with Karl. Thanks for checking this out for us.

Subject: Re: PUC Coordination Meeting

Well. The meeting involved the travel of a half-dozen commissioners from across the U.S., so I am not sure how to coordinate a new set of dates and times.

If the EPA does want to pursue this effort, perhaps we could begin with a conference call at your convenience. To be perfectly candid, I had commissioners fly to Dallas in April for a face-to-face that didn't happen. And I am now faced with telling them this meeting isn't going to happen either - that has a significant impact on relationships.

So, let's think about two things: One, would the EPA like to pursue this effort? And if so, can you provide a couple date/time options for a conference call with constructive PUC commissioners?

Thanks for your thoughtful consideration. I will await your response.

Ken,

Great talking to you today. Looks like we are all on the same page.

Here's the proposed agenda for the first meeting.

We are all available in the second half of June.

As far as agenda items for the first call, we identified several points to consider.

-

1. The economic impact of the regulation proposed under the Obama administration and what the changes would be under the new version of the regulations current being proposed by EPA.

2. Discuss ways to increase the involvement of state commissions and state environmental and energy offices in the rule making process and ensure that it happens early in process.

3. What does the EPA Administrator wish to accomplish by establishing this group? What would be process for adding new topics as issues arise?

4. What does the framework look like going forward?

5. What are the EPA's current thinking or plans for dealing with Coal Ash?

To: Jackson, Ryan <jackson.ryan@epa.gov>; Hale, Michelle <hale.michelle@epa.gov>
Subject: Request for meeting for the Dairy Industry

Good morning, Ryan and Michelle. I am reaching out on behalf of the dairy industry to request a meeting with Administrator Pruitt to bring in Newtrient and top dairy industry leaders, including the dairy industry associations to discuss how they can work with EPA to advance their private/public solutions to these environmental issues.

My client, Newtrient is the entity set up by the dairy industry and the dairy check-off program to address their environmental waste issues by advancing manure management, the marketplace, and advancing the adoption of environmental asset markets for voluntary pollution prevention services. Newtrient has been a supporter and significant influencer in EPA's Nutrient Recycling Challenge. Leaders of the dairy industry all serve on his board and direct activities. Newtrient's board represents 50+% of the country's milk supply (20,000 dairy farms). The board includes Dairy Farmers of America, Land O'Lakes, Select Milk, United Dairy Men, Darigold, Agri-Mark and more. It represents farms of all sizes. Plus, the DMI, the dairy checkoff and the industry trade association. National Milk Producers Association also serve.

I have attached a brief one-pager for your review.

I look forward to working with you and Scott in this new critical role.

Best,
Denise

Thanks Sydney, I appreciate your efforts. Do you any sense of how we can list him on the invitation, assuming everything goes through? We had asked you before if "The Honorable" was appropriate, and I wanted to double check on that.

Additionally, would we be allowed to send out the invitation with him listed as "invited" in the interim? I am just getting slightly anxious because we are about 3 months out and I would like to promote it to our alumni network.

Thanks again!
Libby

Hey Libby,

Hope you're well too! I am trying to get it nailed down. I have a hold on the calendar and I am working to get it cleared through Ethics. I'm sorry it has been a process! They are always hesitant about him receiving awards. Will keep you updated.

Thanks!

Hi Sydney,
I hope you're doing well. I know you're overwhelmed with requests, but I wanted to check in again on the ACYPL event in September. We are eager to share the event with our alumni and so I wanted to see if there were any updates.

Thanks so much!

Libby

Subject: San Joaquin Valley Air Pollution Control District Meeting Request with Administrator Pruitt March 21 and 22
To: "Dickerson, Aaron" <dickerson.aaron@epa.gov>

Good evening Aaron,

I would also like to request a meeting on behalf of the San Joaquin Valley Air Pollution Control District of California with Administrator Pruitt for when they are testifying as a majority witness of the House Energy and Commerce Committee's Subcommittee on Energy and Power. The hearing will be held on the 22nd in the morning but would be willing to meet on the 21st or the afternoon of the 22nd.

As you may know, the Valley Air District is one of two areas in the Country that is in extreme non-attainment for Ozone and has high levels of particulate matter as well. Valley Air believes that the Clean Air Act should be reformed and modernized to help with implementation challenges faced by agencies like Valley Air that are trying to clean the air and support economic development at the same time.

Below is the list of attendees and attached is a copy of a concept paper that we sent to the Administration late last year. The list includes County Supervisors and a City Councilman from this region, as well as Valley Air staff.

Councilmember Oliver Baines (Fresno)
Supervisor Steve Worthley (Tulare)
Supervisor Buddy Mendes (Fresno)
Supervisor Craig Pedersen (Kings)
Supervisor Bob Elliott (San Joaquin)
Sayed Sadredin, Executive Director/APCO
Samir Sheikh, Deputy APCO
Morgan Lambert, Deputy APCO
Dave Warner, Deputy APCO
Tom Jordan, Senior Policy Advisor

Please let me know if you have any questions and I would be happy to answer them.

Sincerely,

Andrew Lund

PRESIDENTIAL TRANSITION WHITE PAPER

NOVEMBER 2016

Contacts: Councilmember Oliver Baines, Governing Board Chairman
Sayed Sadredin, Executive Director/Air Pollution Control Officer
(559) 230-6036

Since its adoption, the Clean Air Act has led to significant improvements in air quality and public health benefits throughout the nation. However, after more than 25 years since the last amendments to the Clean Air Act in 1990, our experience shows that many well-intentioned provisions are leading to unintended adverse consequences.

In addressing challenges related to implementing mandates under the federal Clean Air Act through the United States Environmental Protection Agency (U.S. EPA), it is important to hear from regions throughout the nation that have worked over the last four decades to comply with these mandates.

Through decades of implementing effective air quality strategies, air pollution from San Joaquin Valley businesses has been reduced by over 80% through an investment of over \$40 billion. The pollution released by industrial facilities, agricultural operations, and cars and trucks are at historical lows for all pollutants. San Joaquin Valley residents' exposure to high smog levels has been reduced by over 90%. Unfortunately, after all this investment and sacrifice, we have reached a point where **we cannot attain the federal standards even if we eliminated all Valley businesses**, agricultural operations, or trucks traveling through the San Joaquin Valley.

Without administrative and legislative action at the federal level to bring about a commonsense approach that ensures effective and reasonable implementation of the federal clean air mandates, residents in the San Joaquin Valley and other regions in the near future face federal sanctions which will lead to economic devastation. The San Joaquin Valley Air Pollution Control District recommends the following actions which are designed to retain the core elements of the Clean Air Act that serve to protect public health while streamlining the administrative requirements and ensuring expeditious air quality improvement considering technological and economic feasibility:

- A. Eliminate duplicative requirements, confusion, and costly bureaucratic red tape by synchronizing progress milestones when a new standard is published by EPA.**
- B. In establishing deadlines and milestones, require control measures that lead to the most expeditious attainment while considering technological achievability and economic feasibility.**

Presidential Transition White Paper
November 2016

- C. Allow states to focus efforts on meeting new standards in the most expeditious fashion through deployment of scarce resources in a manner that provides the utmost benefit to public health (e.g. greater weight for NO_x reductions).**
- D. Eliminate the requirement for contingency measures in areas classified as “extreme” non-attainment.**
- E. Allow states to take credit for all transportation control measures and strategies and not punish areas that have implemented transportation control measures and strategies that have achieved early reductions in emissions.**
- F. Local regions should not be subjected to federal sanctions when their inability to attain federal standards is due to pollution sources outside their regulatory authority:**
 - 1. Direct EPA to work closely with local air quality agencies to develop incentive-based control measures that are federally approvable.**
 - 2. Provide federal funding for voluntary incentive-based control measures that expedite emissions reductions while investing in the national and local economy.**
 - 3. Adopt new national standards for on-road heavy-duty trucks and locomotives under federal jurisdiction.**
 - 4. Direct EPA to further streamline the process for considering Exceptional Events and to allow for reasonable inclusion of exceptional drought conditions as Exceptional Events.**
- G. Support adequate resources and policies to reduce the impact of wildfires and their attendant public health impact.**

Detailed Supporting Information

A. Eliminate duplicative requirements, confusion, and costly bureaucratic red tape by synchronizing progress milestones when a new standard is published by EPA.

Since the 1970's, EPA has established numerous ambient air quality standards for individual pollutants. We have now reached a point where various regions throughout the nation are subject to multiple iterations of standards for a single pollutant. For instance, there are currently 4 pending standards for ozone and 4 pending standards for PM_{2.5}. Each of these standards requires a separate attainment plan which leads to multiple overlapping requirements and deadlines.

B. In establishing deadlines and milestones, require control measures that lead to the most expeditious attainment while considering technological achievability and economic feasibility.

Mobile and stationary sources of air pollution throughout the nation have now been subjected to multiple generations of technology forcing regulations that have achieved significant air quality benefits. Meeting the new standards that approach background concentrations calls for transformative measures that require time to develop and implement. These transformative measures require new technologies that in many cases are not yet commercially available or even conceived. The formula-based deadlines and milestones that were prescribed in the Clean Air Act 25 years ago now lead to mandates that are impossible to meet. For instance, Figures 1 and 2 below demonstrate the enormous reductions that are still needed to attain the new standard.

C. Allow states to focus efforts on meeting new standards in the most expeditious fashion through deployment of scarce resources in a manner that provides the utmost benefit to public health (e.g. greater weight for NO_x reductions).

Currently as it relates to the demonstration of Reasonable Further Progress or Rate of Progress, the EPA treats all precursors the same, regardless of their potency in harming public health or achieving attainment. Driven by a rapidly expanding body of scientific research, there is now a growing recognition within the scientific community that from an exposure perspective, the National Ambient Air Quality Standards metrics for progress are a necessary but increasingly insufficient measure of total public health risk associated with air pollutants. In particular, control strategies for sources of PM_{2.5} and ozone do not necessarily account for qualitative differences in the nature of their emissions. For PM_{2.5}, toxicity has been shown to vary depending on particle size, chemical species, and surface area; and analyses conducted by the District and California Air Resources Board have repeatedly demonstrated that ammonia is not a significant precursor to exceedances of PM_{2.5} standards in the Valley. In the case of ozone, differences in the relative potency of ozone precursors, VOCs in particular, is not captured by a strict, mass-based approach to precursor controls.

D. Eliminate the requirement for contingency measures in areas classified as “extreme” non-attainment.

Requiring contingency measures in extreme nonattainment areas is irrational and unnecessary. In fact, it can lead to delayed cleanup if measures are set aside for later implementation as a contingency. Currently, EPA requires all attainment plans to include contingency measures, defined as extra control measures that go into effect without further regulatory action, if planned emissions controls fail to reach the goals or targets specified in the attainment plan. While requiring backup measures was a well-intentioned provision, it does not make sense in areas that have been classified as “extreme” non-attainment for ozone. These areas, by definition, have already implemented all available and foreseeable measures and still need a “black box” of future measures to define and employ. The term “black box” refers to reductions that are needed to attain the standard, but technology to achieve such reductions does not yet exist. No measures are held in reserve in areas that are classified as “extreme” non-attainment for ozone. With no stones left unturned in such plans, requiring contingency measures in such areas makes no sense.

In fact, EPA recognized this issue in their proposed implementation rule for the 2008 ambient air quality standard for ozone, arguing that “If an Extreme area qualifies for the discretion authorized by section 182(e)(5), it could be argued that it is unreasonable to expect the state to provide for the contingency measures required by sections 172(c)(9) and 182(c)(9). Indeed, it is hard to know how an area whose attainment SIP can include measures that are not fully developed would be able to identify contingency measures that are more specific. And while the CAA does not limit these measures to “feasible” measures, we do not believe that such areas should be required to adopt unreasonable or draconian measures when all reasonable candidate contingency measures will already have been employed in the plan to meet the RACM and RFP requirements. In this case it could be argued that the section 182(e)(5) contingency measure provision is the only reasonable way to meet the section 172(c)(9) and 182(c)(9) contingency measure requirements.” Unfortunately, however, EPA abandoned this approach in their final rule.

Additionally, as specified in EPA’s implementation rules, EPA currently requires the equivalent of one year’s worth of Reasonable Further Progress (RFP) in order to approve an area’s contingency measure portion of the SIP. This is excessive and should be adjusted to account for areas such as the Valley that have very mature air pollution programs

E. Allow states to take credit for all transportation control measures and strategies and not punish areas that have implemented transportation control measures and strategies that have achieved early reductions in emissions.

The Clean Air Act requirements for severe and extreme ozone nonattainment areas to address vehicle-related emissions growth must be clarified. Section 182(d)(1)(A) requires such areas to develop enforceable transportation control measures (TCMs)

and transportation strategies *“to offset any growth in emissions from growth in vehicle miles traveled ... and to attain reduction in motor vehicle emissions as necessary.”* An area’s vehicle miles traveled (VMT) may increase due to increases in population (i.e., more drivers), people driving further (i.e., sprawl), or increases in pass-through traffic (i.e., goods movement).

Historically, EPA’s section 182(d)(1)(A) approach has allowed the use of vehicle turnover, tailpipe control standards, and the use of alternative fuels to offset the expected increase in VMT. This has allowed for the actual emissions reductions occurring from motor vehicles to be considered in meeting the applicable requirements. A recent Ninth Circuit Court decision, however, has called EPA’s current approach for demonstrating the offsetting of vehicle mile-related emissions growth into question, and has forced EPA to reevaluate its approach. Any change in approach that would require regions to offset vehicle growth regardless of population growth, and without recognition of emission reduction measures such as vehicle turnover and tailpipe control standards, would have a significant impact on many regions’ ability to develop an approvable attainment strategy and, under a strict interpretation, would actually render attainment impossible. Many TCMs and transportation strategies have already been implemented in nonattainment areas, and remaining opportunities are scarce and extremely expensive to implement, with relatively small amounts of emissions reductions available. A less inclusive section 182(d)(1)(A) approach would effectively penalize nonattainment areas for having population growth, and would not give credit to the significant emissions reductions being achieved from motor vehicles.

To illustrate this issue, such an interpretation applied to the District’s 1997 8-hour ozone standard attainment plan would require the elimination of 5.1 million vehicles, while the vehicle population of the Valley is projected to be only 2.6 million vehicles in 2023.

EPA recently established new guidance to address this issue that provides a potential path for reasonably addressing this Clean Air Act requirement. However, the path provided under this guidance will undoubtedly be challenged in court as it is utilized by regions like the San Joaquin Valley in the coming years.

- F. Local regions should not be subjected to federal sanctions when their inability to attain federal standards is due to pollution sources outside their regulatory authority:**
- 1. Direct EPA to work closely with local air quality agencies to develop incentive-based control measures that are federally approvable.**
 - 2. Provide federal funding for voluntary incentive-based control measures that expedite emissions reductions while investing in the national and local economy.**
 - 3. Adopt new national standards for on-road heavy-duty trucks and locomotives under federal jurisdiction.**

4. Direct EPA to further streamline the process for considering Exceptional Events and to allow for reasonable inclusion of exceptional drought conditions as Exceptional Events.

Over the next few years, the District must adopt a number of attainment plans to address the following standards:

- ☐ 1997 PM2.5 Standard (35 $\mu\text{g}/\text{m}^3$ 24-hr and 15 $\mu\text{g}/\text{m}^3$ annual)
- ☐ 2006 PM2.5 Standard (65 $\mu\text{g}/\text{m}^3$ 24-hr and 15 $\mu\text{g}/\text{m}^3$ annual)
- ☐ 2012 PM2.5 Standard (12 $\mu\text{g}/\text{m}^3$ annual)
- ☐ 2008 Ozone standard (75 ppb 8-hr)
- ☐ 2015 Ozone Standard (70 ppb 8-hr)

Despite achieving significant emissions reductions through decades of implementing the most stringent stationary and mobile source regulatory control programs in the nation, NO_x emissions (primary precursor for both ozone and PM_{2.5}) in the San Joaquin Valley must be reduced by an additional 90% in order to attain the latest federal ozone and PM_{2.5} standards that now encroach on natural background levels. This air quality challenge is unmatched by any other region in the nation.

The District has jurisdiction over stationary and area sources, which make up less than 15% of the total NO_x emissions inventory. Through a comprehensive regulatory program, the District has adopted over 600 rules and amendments that have reduced emissions of ozone and PM_{2.5} precursors by nearly 90% control from these stationary and area-wide emissions sources.

With over 85% of the Valley's remaining ozone and PM_{2.5} precursor emissions now coming from mobile sources under federal jurisdiction, the Valley cannot reach attainment even if all stationary sources were to be shut down (see Figure 1). While the District will leave no stone unturned in reviewing all existing stationary source categories and regulations for additional emission reduction opportunities, attaining the federal standards is not possible without significant reductions in emissions from mobile source categories.

Unlike attainment plans for federal ozone standards, attainment plans for PM_{2.5} standards are not able to rely on "black box" reductions from yet-to-be identified technologies and measures. Based on recent air quality modeling conducted by California Air Resource Board, precursor emissions in the San Joaquin Valley will need to be reduced by an additional 90% from current emissions to meet the latest PM_{2.5} standards. In order to develop a federally approvable attainment plan, this massive amount of emissions reductions must be achieved through clearly identified and legally enforceable control measures by 2019, much sooner than the 2031 attainment deadline for the federal 8-hour ozone standard of 75 ppb (see Figure 2).

Figure 1 – San Joaquin Valley NO_x Emissions and Federal Air Quality Standards

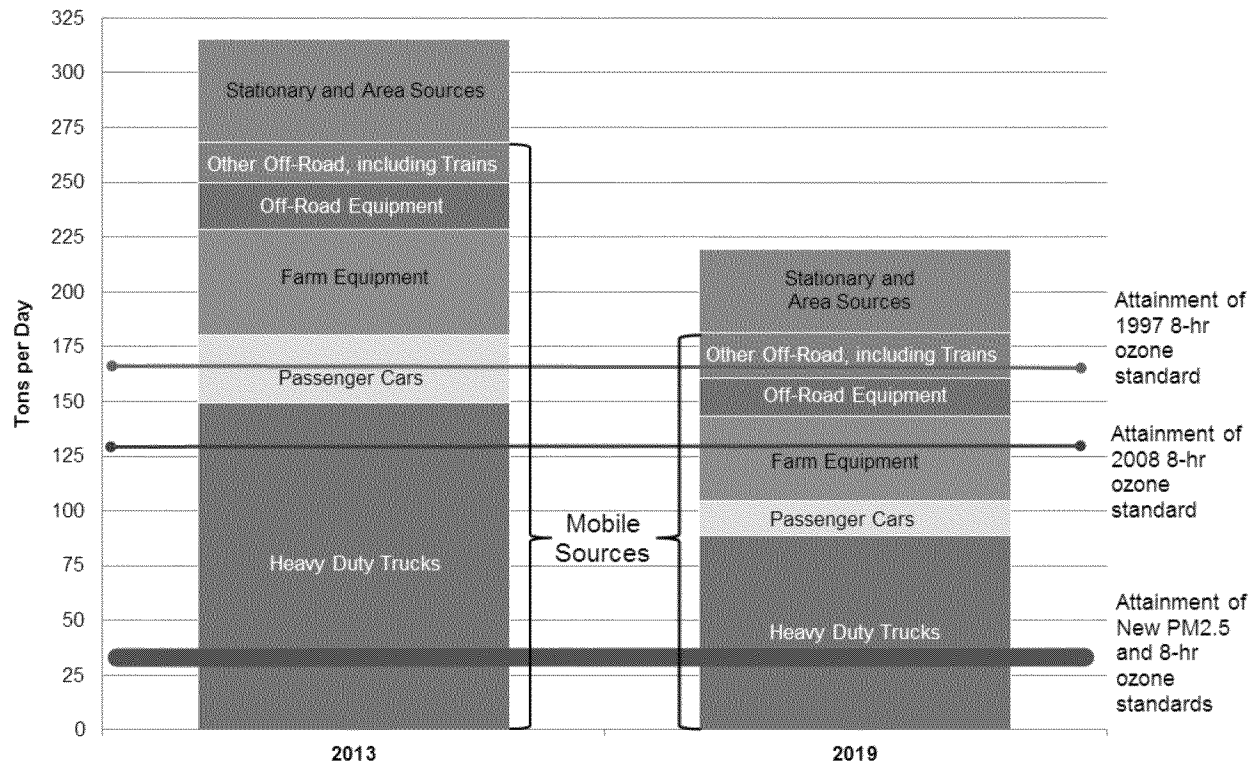

Figure 2 – San Joaquin Valley NOx Emissions Inventory and Targets for Attainment of Federal Air Quality Standards

While the bulk of the Valley's remaining emissions come from mobile sources outside of the District's regulatory authority, under the federal Clean Air Act, the responsibility to bring the region into attainment with the federal standards rests with the local air district, and the region will be subject to sanctions that would be devastating to the Valley's economy if mobile sources under federal regulatory authority are not adequately controlled. These federal sanctions include:

- ☐ De facto ban on new and expanding businesses (2:1 offset requirement)
- ☐ Loss of federal highway funds (\$2.5 billion and numerous jobs lost in the San Joaquin Valley)
- ☐ Federal takeover and loss of local control
- ☐ Expensive federal nonattainment penalties

Given the enormity of the reductions needed for attainment, mobile sources, particularly in the goods movement sector, must transition to near-zero emission levels through the implementation of transformative measures. The District does not have the authority to implement regulations requiring ultra-low tailpipe emissions standards on mobile sources. New state and federal regulations coupled with a robust incentive-based emission reduction strategy are necessary to have any chance to achieve the enormous reductions that are necessary to attain the federal standards.

In addition to the above-described need for incentive-based emission reduction strategies, much-needed reforms are needed to the process under which EPA determines “exceptional events” under the Clean Air Act by requiring those determinations to be based upon established criteria and evidence, allowing for judicial appeals of decisions, and instituting timelines to provide regulatory certainty for states. Furthermore, under current EPA policy the extreme drought conditions experienced in 2013 and 2014 in the San Joaquin Valley and other regions in California are not eligible to be declared “exceptional events” since stagnation and lack of precipitation are not considered eligible events and we recommend that EPA allow for reasonable inclusion of exceptional drought conditions as Exceptional Events.

G. Support adequate resources and policies to reduce the impact of wildfires and their attendant public health impact.

Wildfires result in significant loss of life and property. Air pollution generated from wildfires is enormous and well exceeds the total industrial and mobile source emissions in the San Joaquin Valley. These emissions result in significant adverse public health impacts in the San Joaquin Valley and in many regions throughout California. In the summer of 2008, California experienced a record number of wildfires, and the resulting emissions caused serious public health impacts and unprecedented levels of PM2.5 and ozone in the San Joaquin Valley and other regions throughout the state. Historically clean rural areas throughout the state and in the San Joaquin Valley experienced their worst air quality in decades, and pollutant levels and the number of daily exceedances of the health-based standards were significantly higher than ever before in recorded history. California experienced record setting drought conditions during the past four years. Due to these conditions, there is a tremendous amount of dead trees and materials that dramatically increase the risk of catastrophic wildfire.

Given the devastating public health impact that the Valley suffers from wildfires, the District recommends the support of measures that can help reduce the intensity and frequency of wildfires including those that promote effective and expanded use of prescribed burns and mechanical treatment to reduce fuel build-up, including the following:

1. Additional financial and staffing resources for public and private land managers to conduct prescribed burning as an effective means for reducing fuel supplies that lead to large and uncontrollable wildfires.
2. When wildfires occur, fighting wildfires should be funded as other natural disasters are funded. Funding should not be diverted from forest management and fuel reduction activities to fight wildfires.

Presidential Transition White Paper
November 2016

3. Lessening or removal of contradictory environmental protection policies that prohibit the use of mechanized methods, or prescribed burning to reduce fuels when those are the only feasible methods available.
4. Changes in the federal policies that better incorporate air quality concerns by shifting focus to prescribed burning and employing fire management techniques that reduce air quality impact when wildfires occur.

Hi Amy,

Thank you so much for following up! My apologies for the delay, I somehow missed Ryan's email about this. So it looks like the 11:30 time slot you suggested on June 28th we actually have a meeting over at the White House that we can't reschedule. Could we potentially look at the afternoon? Maybe around 3PM?

Thank you!

Sydney Hupp

Good morning Sydney,

Hope all is well. Ryan had noted this was confirmed and to check in with you on timing. We are available any time in the morning, preferably around 11:30am so they can fly in that morning for the meeting. Would that work for Administrator Pruitt? If not, just let us know what works.

Thank you so much for all your help!!

Best,

Amy

Ryan and Mandy,

Hope all is well. I'm sure things are busy over there given yesterday's announcement.

We were hoping Administrator Pruitt might have some time to meet Honeywell's Performance Materials and Technologies CEO, Rajeev Gautam, and Honeywell's General Counsel, Kate Adams, on June 28th? We are eager to give him an overview on our business and specifically talk about the Significant New Alternatives Policy (SNAP) program and SNAP rules, Montreal Protocol and greenhouse gas emissions and fuel economy standards for light-duty vehicles.

Please let me know if timing works and if you need anything more from my end.

Best,

Amy

Honeywell (www.honeywell.com) is a Fortune 100 diversified technology and manufacturing leader, serving customers worldwide with aerospace products and services; control technologies for buildings, homes, and industry; turbochargers; and performance materials. For more news and information on Honeywell, please visit www.honeywell.com/newsroom.

Honeywell Performance Materials and Technologies (PMT) is a global leader in helping industrial customers become more connected in order to improve efficiency, reliability, optimization and security. PMT's Advanced Materials business manufactures a wide variety of high-performance products, including Solstice® an environmentally preferable refrigerant, and Spectra®, a lightweight but incredibly strong fiber used in bullet-resistant armor, helmets and other performance fabrics. Honeywell UOP (www.uop.com) helped create the modern refining industry, and its process technologies and catalysts form the foundation for most of the world's refineries, petrochemical manufacturers and natural gas processors. Honeywell Process Solutions (www.honeywellprocess.com) is a pioneer in automation control, instrumentation and services for industries such as oil and gas, refining, pulp and paper, industrial power generation, chemicals and petrochemicals, biofuels, life sciences, and metals, minerals and mining.

No problem and that would be amazing! We just can't send out invites without a keynote, so if Mr. Pruitt isn't available then we'll really have to hustle.

I can only imagine how busy you guys are right now. Speaking of, what's your new role at EPA? The CEI team is very happy for you!

Hi Annie. I'm so sorry for the delay. I'll put this in front of him tomorrow.

Sent from my iPhone

On Mar 7, 2017, at 8:11 PM, Annie Dwyer <Annie.Dwyer@cei.org> wrote:

Hi Samantha,

First off, congratulations! I heard you landed over at the EPA, is that right?

I wanted to follow-up on an invitation (attached) that CEI President Kent Lassman extended a few weeks ago for Mr. Pruitt to be our keynote speaker at CEI's Annual Dinner and Reception in June. We're running up against a deadline as we need to send

out invitations for this event as soon as possible. Do you know when we might hear back on Mr. Pruitt's availability? Feel free to let me know if there is someone else we should touch base with on this. We really want to make this work!

As Kent said previously, we would love to have Mr. Pruitt as our speaker—he is our top choice. As you probably know, the CEI dinner hosts nearly 1,000 of CEI's strongest supporters, including senior level policy professionals, distinguished scholars, business executives, agency officials, members of Congress and their staff. CEI and our supporters care deeply about energy and environment issues and given Mr. Pruitt's legal and intellectual background, we are looking forward to helping him reach his goals as the new EPA administrator. We believe this event would provide Mr. Pruitt a powerful platform in a friendly environment.

More details about the dinner can be found [here](#). Previous dinner speakers include Steve Forbes, Carly Fiorina, and Paul Ryan.

I'm sure things are crazy right now, but if you have any guidance on this, we'd really appreciate it. Thank you!

Annie

Ken,

Great talking to you today. Looks like we are all on the same page.

Here's the proposed agenda for the first meeting.

We are all available in the second half of June.

As far as agenda items for the first call, we identified several points to consider.

-

1. The economic impact of the regulation proposed under the Obama administration and what the changes would be under the new version of the regulations current being proposed by EPA.

2. Discuss ways to increase the involvement of state commissions and state environmental and energy offices in the rule making process and ensure that it happens early in process.

3. What does the EPA Administrator wish to accomplish by establishing this group? What would be process for adding new topics as issues arise?

4. What does the framework look like going forward?

5. What are the EPA's current thinking or plans for dealing with Coal Ash?

Thanks so much for your reply Sydney. We certainly understand. As an alternative, would it be possible for 3 to 5 grower leaders in at some point to meet the Administrator over that period? These would be the people responsible for some of the largest egg producing operations in the country with multiple farm sites and more than 50 million laying hens under production.

Best!

Subject: Invitation to Administrator Pruitt to Offer a Keynote Address to the Nation's Egg Producers in DC on May 17, 18 or 19, 2017

Dear Ms. Hupp,

I hope you are well and settling in nicely at EPA.

Please see attached a letter inviting the Administrator to offer a keynote address to the nation's egg producers at a meeting being held by United Egg Producers (UEP) here in Washington, D.C. on May 17, 18 or 19, 2017. Details are included in the letter.

UEP's farmer members raise hens that produce about 95% of the nation's eggs, and most of that egg production will be accounted for by the 150 or so egg producers in the audience listening to Administrator Pruitt's address should he decide to do this. These producers and UEP have been at the forefront of several US EPA rulemakings and policies that are central to how farmers operate today; Clean Water Act matters involving the Concentrated Animal Feeding Operations (CAFO) rule, WOTUS rule and the Chesapeake Bay TMDL as well as Clean Air Act and CERCLA/EPRCA matters as they relate to ammonia and other air emissions. These are tremendously important issues that relate directly to how egg producers can continue to proudly meet their environmental responsibilities and the growing demand for eggs, and in general make their contribution to the nation's safe, wholesome and abundant food supply.

These farmers would appreciate hearing about Administrator Pruitt's plans for US EPA's environmental programs so they can better understand how they could contribute to the success of his efforts and what these plans might mean for their farms and businesses.

Please let me know if you have any questions or if the Administrator can accept this invitation.
Thank you in advance for your consideration of this request.

Best!

Sydney-

Thank you for reaching out to schedule a conversation between Dan and Administrator Pruitt. Would an initial telephone call be sufficient? I know that he and Dan had an opportunity to visit during the Administrator's tenure in Oklahoma. Please also let me know of any background or advance information on the visit in case Dan would like to invite another member of our team to join.

Also, it was a pleasure to visit with members of your staff, Lincoln Ferguson and Sarah

Greenwalt, while we recently visited DC. They were enjoying a lunch break at a local CFA Restaurant. Two great staff members.

Look forward to coordinating with you further.

Good afternoon Mr. Cathy,

Hopeful this email finds you well! Administrator Pruitt asked me to reach out to you and see if you might be willing to get a time set up for the two of you to have a meeting. If there is someone I can work with to help get that facilitated, I would greatly appreciate it.

Have a wonderful day!

Hello All,

The new date of 4/11 at 8:30 a.m. works for Artex. We estimate the installation of only the two NPG portraits will take two hours.

Molly, kindly confirm if this date and time works for the NPG staff.

Thank you,

Emilia

Hello SeVera,

We are able to start at 8 a.m. on 4/6.

If we install only the two portraits from the NPG, the estimated time to install is 2-3 hours. We would need to confirm that the NPG staff can also meet us at 8 a.m.

If we also need to install the other 4-5 works already on site, the estimated time to install is 4 hours.

Should you wish to proceed with either option, please let me know as soon as possible. We will also need you to return the signed estimate.

Thank you,

Hello SeVera,

I am checking on our availability for a 7 am start on 4/5 or 4/6. As mentioned in my previous email, labor before 8 am is subject to overtime rates.

Please note that the site visit today will give us a better idea of how long the installation will take. The installation time is also dependent on how much time is needed by the NPG staff to condition check the works.

Thank you,

Emilia

Hello Molly,

SeVera Wilson has been in touch regarding the collection, delivery, and installation of the two portraits being lent by the NPG to the EPA.

I understand that NPG staff will send staff to condition check the works at delivery and oversee the installation at the EPA. SeVera has inquired about scheduling the installation for this Saturday, 4/1. Would your staff be available on this date? We would plan to collect the works from Apollo on Friday, 3/31.

Many thanks,

Emilia

Sent: Thur 6/8/2017 2:35:51 PM
Subject: RE: UPA Meeting Request

Hi Sydney, hope you're well. Wanted to follow up on the below request on behalf of UPA. We understand the Administrator could have a heavy travel schedule this summer, so we'd also like to offer him an opportunity to visit a uranium mining site in lieu of a meeting in DC if that will make the scheduling process easier. There are sites in South Texas, Wyoming, Utah, and Nebraska that are available for a visit as his travel allows.

Thanks again for your consideration, and please let me know if you have any questions or need more information.

Kelli

From: Kelli Ripp
Sent: Thursday, May 25, 2017 5:16 PM
To: Hupp, Sydney <hupp.sydney@epa.gov>
Subject: UPA Meeting Request

Hi Sydney,

Really appreciate your quick response to our earlier exchange. Wanted to follow up on the UPA meeting request after talking with the Office of Policy. One of the UPA member companies was in just this week and met with Samantha Dravis and had a really good discussion about the state of the domestic uranium industry and the impact that regulations like Part 192 are having on jobs and production levels.

Given that productive discussion, we'd like to bring the rest of the UPA CEO's out to discuss the issue directly with Administrator Pruitt as a follow up. The viability of the domestic uranium industry has implications for both jobs and national and economic security, as we are now dependent on foreign sources for 94% of the uranium needed to power our nuclear reactors. While some of the headwinds the industry faces are market-related, regulations like Part 192 are

having a devastating impact.

Would love to work with you to get a meeting on the books for the UPA CEO's and Administrator Pruitt anytime during the month of June. I attached our original meeting request, and included a list of UPA member companies below.

Please let me know if we can provide any further information, and thank you for your consideration.

Kelli

Bill, I have to be out of town thurs and fri but I would like you and the Administrator to speak this week on the topics we discussed. Because I'll be out Mandy and Byron will accompany Pruitt in the meeting. I've CC'd Syd our scheduler on this to see when would be a convenient time for an hour meeting wed, thurs, or Friday. Big thanks.

Good morning Sydney,

Hope all is well. Ryan had noted this was confirmed and to check in with you on timing. We are available any time in the morning, preferably around 11:30am so they can fly in that morning for the meeting. Would that work for Administrator Pruitt? If not, just let us know what works.

Thank you so much for all your help!!

Best,
Amy

Subject: Meeting with Administrator Pruitt June 28th

Ryan and Mandy,

Hope all is well. I'm sure things are busy over there given yesterday's announcement.

We were hoping Administrator Pruitt might have some time to meet Honeywell's Performance Materials and Technologies CEO, Rajeev Gautam, and Honeywell's General Counsel, Kate Adams, on June 28th? We are eager to give him an overview on our business and specifically talk about the Significant New Alternatives Policy (SNAP) program and SNAP rules, Montreal Protocol and greenhouse gas emissions and fuel economy standards for light-duty vehicles.

Please let me know if timing works and if you need anything more from my end.

Best,

Amy

Honeywell (www.honeywell.com) is a Fortune 100 diversified technology and manufacturing leader, serving customers worldwide with aerospace products and services; control technologies for buildings, homes, and industry; turbochargers; and performance materials. For more news and information on Honeywell, please visit www.honeywell.com/newsroom.

Honeywell Performance Materials and Technologies (PMT) is a global leader in helping industrial customers become more connected in order to improve efficiency, reliability, optimization and security. PMT's Advanced Materials business manufactures a wide variety of high-performance products, including Solstice® an environmentally preferable refrigerant, and Spectra®, a lightweight but incredibly strong fiber used in bullet-resistant armor, helmets and other performance fabrics. Honeywell UOP (www.uop.com) helped create the modern refining industry, and its process technologies and catalysts form the foundation for most of the world's refineries, petrochemical manufacturers and natural gas processors. Honeywell Process Solutions (www.honeywellprocess.com) is a pioneer in automation control, instrumentation and services for industries such as oil and gas, refining, pulp and paper, industrial power generation, chemicals and petrochemicals, biofuels, life sciences, and metals, minerals and mining.

External Meeting Request Form for Administrator E. Scott Pruitt

U.S. Environmental Protection Agency

To request the Administrator to attend and/or speak at your event, please complete and submit the following form.

Today's Date: 4.4.17

Meeting Date: Either May 9th between 3:30pm and 5:30pm or May 10th at approximately 9:00am

Meeting Time: Either May 9th between 3:30pm and 5:30pm or May 10th at approximately 9:00am

Requested Location (if offsite, please list address, parking instructions, etc.): We can be flexible based on your space for a meeting at the agency. We can come to the Administrators office, or he can come to meet us at the Grand Hyatt on 11th and H, NW. We anticipate a group of approximately 35-45 participants.

Requestor: Autumn Moore of the Toy Association

Purpose of the Meeting: Introductory meeting to brief the Administrator on toy industry issues at the Agency, primarily TSCA/LCSA implementation and regulatory reform. Toy Association attendees will include Association Board members, company CEOs and representatives of toy companies.

Background on the Meeting: The Toy Association recently began working with EPA on TSCA/LCSA implementation, which was an industry priority while being considered by Congress. We would greatly appreciate an opportunity to brief the Administrator on our priority implementation issues and to discuss the Agency's next steps on implementation.

Role of the Administrator: Our Association members greatly respect Administrator Pruitt and are eager to meet with him to have a shared discussion around EPA issues and to hear the Administrator's priorities going forward.

Attendees: See attached spreadsheet

Dear Sydney and Michelle,

On behalf of Roy Bailey I am writing to you to reschedule the meeting with Administrator Pruitt for this week. The Administrator and Mr. Bailey spoke recently and discussed this request. Mr. Kirk just happens to be in the East this week and wondered if the Administrator would be open to meet with Mr. Kirk and Mr. Bailey on the morning of the 17th or 18th. Mr. Kirk needs to be in New York City the afternoon of the 17th. That is why we choose those dates. Please let us know if either Wednesday or Thursday morning will work or what you might have to offer.

I look forward to hearing from you soon so, we may make plans.

Sincerely,

Gay

Hi Sydney:

Michelle Hale asked me to shoot you an email regarding setting up a meeting with Administrator Pruitt.

I worked for the Administrator as a legal intern and Assistant Attorney General while he was Oklahoma's Attorney General. While I was at the AG's Office, Administrator Pruitt and I discussed my political plans and he asked that I keep him updated. There have been some recent developments that I would like to share with him and discuss. As it turns out, I will be in Washington on June 19-20 for a meeting. Would it be possible to have a few minutes to visit with Administrator Pruitt?

Thank you for your assistance. I look forward to hearing from you soon.

Sincerely,

Erick Harris

Hi Sydney,

Thanks for your patience – we actually have two options for the November Annual Conference in Chicago, IL. Hopefully one of these works for his schedule!

The two dates/times we have for our Annual Conference are:

Wednesday, November 8, 2017

Opening General Session

3.00pm – 4.30 pm (*presentation time roughly 3.20pm – we start the session with some associate business*)

OR

Friday, November 10, 2017

Business Meeting and General Session

9.00am – Noon (*presentation time approximately 10.30/10.45am depending on how quickly the session flows*)

Please let me know if something is unclear. If I need to redo the speaker form, just let me know. Always feel free to call me if you have questions. 703.375.0483.

Thank you!

Best,

Liz.

Subject: **Meeting with Administrator Scott Pruitt**

Good afternoon Mr. Cathy,

Hopeful this email finds you well! Administrator Pruitt asked me to reach out to you and see if you might be willing to get a time set up for the two of you to have a meeting. If there is someone I can work with to help get that facilitated, I would greatly appreciate it.

Have a wonderful day!

Sydney Hupp

Biocides Panel and ACC and External Meeting Request.pdf

Sydney,

I apologize that it has taken a bit of time to return the attached meeting request form. Coordination among the attendees and finding available dates to propose to you and Administrator Pruitt was a little tricky. We are suggesting May 9, May 11 or May 12 (times specified in the form). If Administrator Pruitt is not free during those times, please let me know as soon as possible, and we will revisit calendars.

Thanks again.

Best,

Komal

It was great talking with you as well! The form I referenced is attached. I'll take a peek at the end of April and come up with some dates for you all.

Thanks!

Sydney

Dear Sydney,

It was nice chatting with you regarding scheduling a meeting with Administrator Pruitt. I greatly appreciate the follow up to our Letter of February 27. I will look for the meeting request form you referenced and will look towards a late April date.

Feel free to call me at any of the numbers below.

Best,

Komal

External Meeting Request Form for Administrator E. Scott Pruitt

U.S. Environmental Protection Agency

To request the Administrator to attend and/or speak at your event, please complete and submit the following form.

Today's Date: April 4, 2017

Meeting Date: Requesting May 9 between 9 am-1 pm or 3:30 pm-5:30 pm; afternoon of May 11 or May 12.

Meeting Time: See above, and a meeting of 30-45 minutes would be appreciated.

Requested Location (if offsite, please list address, parking instructions, etc.): EPA Administrator's Office.

Requestor: Komal K. Jain of the American Chemistry Council's Biocides Panel; Cal Dooley, President and CEO, American Chemistry Council

Purpose of the Meeting: Discuss the importance of EPA to the antimicrobial and chemical industry and the need for greater transparency and opportunities for stakeholder engagement.

Background on the Meeting: We would like to discuss:

- The need for continued staff and financial resources within the Office of Pesticide Programs (OPP) and its Antimicrobials Division (AD) and, thus, the importance of the reauthorization of the Pesticide Registration Improvement Act (PRIA), which would continue the fee for service program and increase funding for OPP. Please see the attached letter to Administrator Pruitt from the ACC Biocides Panel, dated February 27, 2017.
- Implementation of the Lautenberg Chemical Safety Act (the 2016 amendments to the Toxic Substances Control Act), particularly section 5 of TSCA (related to new chemicals). ACC has submitted extensive comments to a number of active dockets related to EPA's implementation efforts.

Role of the Administrator: Administrator Pruitt has a significant role in overseeing EPA's ongoing efforts under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA) and the Toxic Substances Control Act (TSCA). Both statutes provide EPA with the authority to restrict or deny access to the market for new pesticides and chemicals unless the Agency has an appropriate opportunity to review the potential health and environmental impacts of those substances, and in the case of pesticides, find that the product will not cause unreasonable adverse effects on the environment. ACC has a particular interest in assuring the availability of the financial and human resources necessary to ensure that these regulatory regimes not only fulfill their mandate to protect health and the environment, but that they support the innovation and globally competitive position of an essential manufacturing sector.

Attendees:
Cal Dooley, President, American Chemistry Council;

Komal K. Jain, Sr. Director, American Chemistry Council;
William Goodwine, Director WW Regulatory Affairs & Risk Assessment, Janssen PMP and Chairman
of the ACC Biocides Panel; and
Julie Timberman, Associate Research Fellow at The Clorox Company and Vice-Chair of the ACC
Biocides Panel

Point of Contact: Komal K. Jain at 202-249-6212 or komal_jain@americanchemistry.com

February 27, 2017

The Honorable Scott Pruitt
Administrator, US Environmental Protection Agency
1200 Pennsylvania Avenue, NW
Washington, DC 20460

Dear Administrator Pruitt:

Congratulations on your confirmation as the new administrator for the United States Environmental Protection Agency (US EPA). The American Chemistry Council's (ACC) Biocides Panel (the Panel) looks forward to working with you.

Established in 1986, the Biocides Panel is a leading trade organization comprised of more than 50 companies that are active antimicrobial ingredient producers, end-use manufacturers of antimicrobial products (also known as "biocides") in industrial and/or consumer applications, and service providers with expertise in addressing antimicrobial issues. Antimicrobials are essential to a vast array of industries: They protect public health and food safety by controlling the spread of harmful microbes, preserve a vast array of products from pharmaceuticals to building materials, and ensure countless manufacturing and industrial processes are not compromised by microorganism growth.

In an industry that continuously evolves and innovates, the ability to obtain and maintain antimicrobial registrations is critically important. It is for this reason that we write to stress the important role that the US EPA plays in our industry and the need for continued staff and financial resources within the Office of Pesticide Programs (OPP) and its Antimicrobials Division (AD). Thus, the reauthorization of the Pesticide Registration Improvement Act (PRIA), which would continue the fee for service program and increase funding for OPP for needed resources is a priority, and we ask for your support. Significantly, AD is partly funded through the industry fees collected under PRIA. Thus, the reauthorization of PRIA provides some assurance that the resources required by EPA to administer the pesticide program will continue.

Other issues of importance to the industry, which we would like to discuss with you in greater detail should your schedule permit include:

- Early and frequent engagement with the pesticide registration community on registration decisions, guidance material, and regulation;
- Clear and transparent implementation of EPA's data requirements for the registration of antimicrobial pesticides under 40 CFR Part 158W (Antimicrobial Pesticide Data Requirements); and

The Honorable Scott Pruitt
February 27, 2017
Page 2

- Assurance that assessments under FIFRA are based on good science and accurate representations of the biocide product's conditions of use.

Thank you for your consideration of the Biocides Panel's concerns. We would appreciate the opportunity to meet with you.

Respectfully yours,

Komal K. Jain

Subject: Meeting with Administrator Pruitt

I would like to arrange a meeting with Administrator Pruitt to introduce him to NSSGA. NSSGA represents the aggregates industry, which provides the raw material in asphalt, concrete and cement used in nearly every construction or infrastructure project and employs over 100,000 in the U.S. We are very encouraged about the direction of EPA under Administrator Pruitt and would like to discuss our industry's unique issues, including air and water issues such as WOTUS and Conductivity. Please let me know if I can provide any additional information. We would like an in person meeting with our President and CEO, Michael Johnson, Senior Vice President, Government and Regulatory Affairs Laura O'Neill-Kaumo, myself and Administrator Pruitt. We realize this is a very busy time for the Administrator, but would greatly appreciate a short meeting to discuss our industry's issues.

Michelle-- thanks very much for taking my call. See below the email I sent to Byron Brown seeking are response to my May 2, 2017 letter to the Administrator. So, far, I have had no response. I am desperately seeking a contact in the DC office to see if a meeting with the Administrator or one of his staff can be scheduled.

The issue is dispute over fee collection which EPA Region 10 has initiated. We have had no luck settling this issue in the Region. So we are seeking a meeting in the DC office. Please help me contract the appropriate person to see if this meeting can be scheduled.

Thanks very much

Dear Administrator Pruitt.

This office represents SANLLC, a small limited liability corporation in Anchorage, Alaska. AS the attached letter will explain, SANLLC has been trying to settle an EPA Region 10 demand for reimbursement of costs for a voluntary cleanup which it conducted at a site in Anchorage.

SANLLC has been unable to reach a settlement over the past two years of attempting to do so. This letter is written to ask for a meeting with you or one of your senior staff to see if an agreement can be reached on this issue. My clients are prepared to come to Washington, D C at any time to meet with you or any other EPA Headquarters staff of your choosing.

This has been a long, drawn out process. SASNLLC wants to settle this matter and seeks your assistance to do sol.

Please review this letter and please let SANLLC know if a meeting can be scheduled.

Thanks for you leadership in EPA and please let SANLLC know if a meting in Washington DC can be scheduled.

Please use me as point of contact. Thank you for you consideration of this request.

Respectfully,

Steve Silver

Honorable Scott Pruitt
Administrator
Environmental Protection Agency
1200 Pennsylvania Avenue, NW
Washington, DC 20460

May 1, 2017

Dear Administrator Pruitt:

This letter requests a review of a matter now in dispute with Region 10 in Seattle, Washington regarding a six year old cleanup of "minor" importance according to EPA located in Anchorage, Alaska at the Post Road site.

Background Information

The Post Road site is owned by the Alaska Railroad Corporation, (ARRC) a nonprofit Agency of the State of Alaska. Post Rd is an industrial storage site of approximately 4 acres which was leased by San LLC (SAN) from the ARRC. This lease was executed in 2007 and continues through the present and includes an indemnification clauses for environmental matters between SAN and ARRC.

In 2010 SAN subleased 8,000sf of fenced and graveled yard area of the Post Rd. site (of 4 acres) to a William Vizzera dba PPMI (Precision Paving Maintenance, Inc.), a third party company of which there is no legal or other connection with SAN or ARRC. PPMI was a minority business owned and operated by Mr. Vizzera and his wife. They leased the property to securely store a computer operated highway painting vehicle. Additionally, in violation of their sublease they brought and stored drums on the site of highway paint and paint byproducts. Their primary customer was the State of Alaska Department of Transportation to paint highway markings on the roads. The State inspectors failed to oversee nor document the paint waste Mr. Vizzera had left over from the highway painting projects so he brought them to the leased Post Road yard space for storage. At no time was any material spilled or released from the storage drums at the site but the waste product was illegal as it contained highway paint and Tolulene (the spray equipment cleaning fluid).

Following an EPA investigation by the EPA Criminal Division in December of 2010, Mr. Vizzera was convicted in 2011 of criminal violations of federal statutes and was sentenced to _____ years in jail and to pay over \$400,000 in restitution to SAN of which only \$15, 617 has been paid. Mr. Vizzerra has been released from prison and his whereabouts are unknown to SAN which has no expectation of further payment from Mr. Vizzerra, who lacks sufficient assets from which to collect.

San was never implicated in the EPA criminal investigation and was issued a "victim" letter stating that SAN was a victim of Vizzerra/PPMI in this matter. See attached Exhibit A.

SAN is anxious to explain the mismanagement by EPA Region 10 of this site, WHICH SURELY LED TO EXPENSIVE and unnecessary costs which are not consistent with the National Contingency Plan (NCP). A very disjointed investigation occurred involving two back to back

criminal investigations, first by the U.S. Marshall Service/Department of Justice and then by EPA Criminal Division. This was followed by a separate civil investigation by Region 10. Despite numerous attempts and requests by SAN for an accounting of the costs for which EPA has demanded payment, EPA Region 10 refuses to give any serious accounting.

Only recently has EPA Region 10 provided some time sheets which are as close to backup documents as it has provided up to now. However these timesheets provide only dates and numbers of hours. No descriptions of work nor any facts which can verify that this claimed work was related to the civil investigation and cleanup which was carried out completely by SAN.

This mismanagement described above undoubtedly led to expenses which were not consistent with the NCP. For example, following the EPA criminal investigation, the area was returned to Mr. Vizerra/PPMI before he was indicted and convicted. During the criminal investigation, SAN was prohibited from access to the area since the area was under the control of the operator PPMI.

Subsequent to the criminal investigation (6 months later---5/31/11) EPA Region 10 issued the Unilateral Administrative Order, UAO, which required cleanup by SAN of the Post Road site even though all the cleanup was a result of the actions of Vizzerra/PPMI. See attached Exhibit B --UAO, dated May 30, 2011.

Nevertheless, EPA civil decided to issue the UAO demanding cleanup by SAN even though it was neither owner nor operator. This misguided and disjointed management mix-up not only contributed to confusion, but also increased the costs of cleanup which SAN was forced to undertake by the terms of the UAO

Without any admission of liability or responsibility as a potentially responsible party, SAN agreed to undertake the cleanup under the supervision of Mr. EARL Livermore of EPA Region 10 who described the clean up as a minor matter involving a few drums. Furthermore, he stated "I have no idea why such a simple drum removal required an UAO order". Mr. Livermore spent 2 days at the site and returned to Boise, Idaho.

SAN engaged an EPA approved third party company (Emerald Environmental) which developed and executed a cleanup plan approved by Mr. Livermore. That cleanup plan was accomplished in June-August 2011. There have been no further issues on this site or between SAN and EPA before or since the completion of the cleanup. At the conclusion of the cleanup EPA Region 10 issued no demand for any reimbursement of its alleged costs.

Nearly six years later, EPA demanded a reimbursement of \$231,458.61 for costs it alleges it incurred for a civil investigation either concurrent or subsequent to the completion of the criminal investigation of which SAN was a victim. Note: EPA's actual cost invoices indicate 90% of the reimbursement is for costs incurred 12/10-3/10, which was 3-6 months PRIOR to the EPA issuance of the UAO order

SAN objects to this demand for cost reimbursement on a number of legal and factual grounds. Nevertheless, SAN has attempted to settle this EPA demand without success. At this point, EPA Region 10 and SAN have signed 4 Tolling Agreements, the latest of which expires

June 30, 2017. The ARRC has signed identical Tolling Agreements including one expiring June 30, 2017 and also the prior Agreements.

SAN seeks your assistance in settling this matter before this current Tolling Agreement expires.

Dispute Over Cost Reimbursement

As stated above, SAN does not think it is legally required to pay any demand for cost reimbursement on legal grounds

As a matter of law, SAN does not believe that it is a Potentially Responsible Party because it neither owned nor operated the site when the criminal and/or civil violations occurred. As a mere lessee of the site, it is not at all clear that SAN is responsible. See cited cases which state that as a general rule application of title rules for PRP follow the rules of title in each individual state. In Alaska, it is clear that a lessee such as SAN, LLC is neither Operator Nor Owner under CERCLA

In Alaska, it is clear that a mere lessee is not a potentially responsible party. See *Maddox v. Hardy* 187 P. 3d 486 , 491-2 (AK. 2011). SAN as a mere lessee of the property owned neither the underlying property nor this hazardous substance on which Region 10 grounds it claim for reimbursement of its alleged costs. Citing Alaska Statutes, AS46.03. 822, the Alaska Supreme Court found that the statute requires two elements:

"Unpermitted release of a hazardous substance that caused damages. The party sued must own the hazardous substance at the time of the release." *Id.*, 491.

SANLLC satisfies neither requirement. The underlying property was owned by a third party and the hazardous substance was owned by a different third party, Mr. Vizzerra who was subsequently prosecuted and convicted in Alaska Federal District Court for which Mr. Vizzerra served time in a federal facility and is still required to make over \$400,000 dollars in restitution.

Further, the U.S. 9th Circuit Court of Appeals has found reliance on State law in the issue of ownership in cases such as SANLLC.

"Because the definitions Congress provides in CERCLA for "owners and operators" are mere tautologies , this Court has looked to the common law--the state law of the property's location in cases when applying CERCLA for guidance in other cases when imposing CERCLA liability on possessors and owners of various property interests. See *Burlington Northern and Santa Fe Ry. Co. v United States* ---- U.S.----, 129 S.Ct. 1881, 173 L.Ed. 2d 81w (2009). "Congress intended the scope of liability to be determined from traditional and evolving principles of common law) (quoting *United States v Chem- Dye Corp*, 572 F. Supp. 802, 808 (S.D.Ohio 1983) *Long Beach Unified School District v B. Goodwin Cal. Living Trust*, 32 F. 3D 1364, 1368 (9th Cir. 1994) (looking to the common law,...to determine whether an easement holder is an "owner" under CERCLA).

" Given this common law distinction between ownership interests and possessory interests, and the juxtaposition of "owner " and " operator" in CERCLA... we conclude that Congress intended to give common law meaning ...that ...does not extend to mere possessory interests in land such as permittees, easement holders, or licensees whose possessory interests have been conveyed to them by the owners of real property."

For a full discussion of the above 9th Circuit analysis, see *City of Los Angeles v. San Pedro Boat Works* 635 F 3d 3140, 3143-50 which includes an exhaustive review other Circuits' law and the 9th Circuit concludes:

" we follow our Court's methodology in *Long Beach* looking to common law...that the holder of a permit for specific use of "real property" is not the owner where... the fee title owner retained power to control the permittee's use of the real property...such z possessory interest may be a leasehold interest. See *City of Los Angeles*, 635 F.3D 449.

Finally, in this part of the discussion, the 9th circuit restates its basic test for liability by citing *Long Beach* 32 F 3d at 1369. "However in enacting CERCLA, Congress did not intend to impose liability on everyone else who has any interest at all in land containing a toxic waste facility."

Conclusion: under Alaska common law and the application of this by the 9th Circuit as to distinction between owner or operator, SAN is neither and is not liable for the Region 10 demand of \$231,458.61 for reimbursement of its claimed costs.

SAN is not liable for Reimbursement of EPA costs because it was found to be a Victim by Dept. of Justice.

On or about December, 2010, the U..S. Department of Justice undertook an extensive investigation of the status of the Post Road site. At the time of the investigation, DOJ took possession of the site and prevented SAN from having any access to the site. The investigation lasted six weeks. Following the investigation in which SAN cooperated fully, the Justice Department exonerated SAN from any possibility of responsibility for any release of any prohibited substance.

In fact, the DOJ found SAN to be a "victim" of the responsible "operator," William Vizzerra who as stated previously was indicted, convicted of criminal violations in the Post Road Matter. See attached victim letter issued date.

Additionally, the criminal division of the EPA previously, simultaneously or subsequently conducted its own investigation of the Post Road matter and also exonerated SANLLC. Like the DOJ, the criminal division of EPA found the responsible party to be William Vizzerra.

So the rhetorical question to be asked, is how can DOJ's victim finding lead to EPA's demand for SAN for reimbursement of EPA's alleged cleanup costs?

Even though SAN performed the Post Road Cleanup, it still contests EPA's reimbursement Demand as a matter of law.

SAN voluntarily undertook Cleanup of the Post Road site since Mr. Vizzerra refused to do his duty. At the time, this seemed the best solution to a then difficult problem and avoided costly judicial and administrative action by EPA. The cleanup was costly to SAN \$442,934.04. Having undertaken the cleanup voluntarily, it now sees EPA Region 10 demand as inappropriate and overreaching.

Since the new demand for costs presents a new, final agency action, SAN believes, it can still contest the EPA decision that SANLLC is a Potentially Responsible Party under CERCLA as provided by *Sackett v. EPA* ----- U.S. ----, 132 S. Ct. 1367, 1374 182 L. Ed. 2d 367 (2012). As stated in *Sackett*, EP'A's compliance orders (including reimbursement demands) are appealable as final agency action, which can be asserted by SANLLC in any subsequent litigation between EPA and SANLLC.

EPA's Cleanup costs are almost entirely for work performed 3-6 months before the issuance of the UAO and cannot be proven or verified and should not be charged to SAN

As stated previously, EPA Region 10 has demanded a reimbursement of \$231, 458.16 for what it claims EPA is owed for its costs during the Post Road cleanup matter. SANLLC has repeatedly requested verification of these costs. Region 10 has been very uncooperative in providing this verification. Most of the amount is stated to reimburse costs paid to EPA contractor Ecology and Environment whose work was ALL performed prior to the issuance of the UAO order.

Despite numerous requests, the Region has provided very little in backup documentation. For example, EPA Region 10 states that it was billed and paid \$80,000 for 450 hours (56- 8 hour man days at \$177.77 per hour for the contractor's work done). There is no adequate verification. SAN closely monitored the Ecology and Environment contractor's work as conducted in December 2010. Ecology and Environment billed EPA over \$200,000 but as SAN's own consulting environmental company reported E & E was on the site for just a few hours over a 2-3 day period. The AUO order was issued May 30, 2011. Six months after the work was performed.

Additionally, after many requests, EPA Region 10 finally provided a little more explanation to SAN on November 22, 2016. SAN,LLC responded quickly in December 14, 2016 with a detailed letter by our attorney Steve Silver asking explanation for how individual contractor employees such as Lynn Marcus and Lynn Martin could charge multiples of an 8 hour day on Dec.11, 2010- Marcus and 38 hours on December 18 and Martin 20 hours on Dec. 11, 2011 and 40 on DEC. 18. These are not the only examples. See Mr. Silver's letter which details many multiple 8 hour days for a number of contractor employees and also travel charged to EPA on Christmas day 2010 by EPA employee Nuchin and other travel charged on New Year's day. the multiple 8 hour days and holiday travel strain credulity even though EPA Region 10states that these are for weekly and not daily charges.

What has been forthcoming is yet another Tolling Agreement, the 4th since this dispute began. What SAN has been seeking is a resolution/settlement of this issue. The Tolling Agreement expires on June30, 2017 SAN does not believe further discussions with Region 10 can be productive or lead to a settlement.

SAN offered to settle this matter early on for \$22,500. This offer was rejected by Region 10. This settlement offer is not on the table at this point since detailed examination of the law and Region 10 backup has diminished Region 10's case for collection.

However, SAN still wants to settle. That is why this letter requests a meeting with you or key staff in your office to seek a rapid settlement and avoid a continuation of fruitless Tolling Agreements which simply push this issue down the road.

Thank you for your consideration of this request.

SINCERELY,

Hello All,

The new date of 4/11 at 8:30 a.m. works for Artex. We estimate the installation of only the two NPG portraits will take two hours.

Molly, kindly confirm if this date and time works for the NPG staff.

Thank you,

Emilia

Hello SeVera,

We are able to start at 8 a.m. on 4/6.

If we install only the two portraits from the NPG, the estimated time to install is 2-3 hours. We would need to confirm that the NPG staff can also meet us at 8 a.m.

If we also need to install the other 4-5 works already on site, the estimated time to install is 4 hours.

Should you wish to proceed with either option, please let me know as soon as possible. We will also need you to return the signed estimate.

Thank you,

Emilia

Hello SeVera,

I am checking on our availability for a 7 am start on 4/5 or 4/6. As mentioned in my previous email, labor before 8 am is subject to overtime rates.

Please note that the site visit today will give us a better idea of how long the installation will take. The installation time is also dependent on how much time is needed by the NPG staff to condition check the works.

Thank you,

Emilia

Subject: RE: Administrator Pruitt Meeting schedule request

My name is Cheryl Woodward and I will assist you in the logistics for your meeting at EPA on Wednesday, June 28 at 9:30 am. The instructions/directions to EPA is below and if you have any questions please contact me. Send me the attendee's list Wednesday, June 21st if possible. If you have edits you can send me later. Look forward to seeing you all.

Directions: If you come by Metro, the Federal Triangle metro stop is directly below the building entrances. You would leave the metro station and go up all three sets of escalators from the train otherwise two escalators then do a small U-Turn to the left heading toward 12th street, the South Lobby entrance is directly and immediately to your right (Glass Doors -EPA Signified on Glass).

EPA address is 1200 Pennsylvania Avenue, NW. If you are coming by taxi/vehicle, you want to be dropped off on 12th NW, **which is between Pennsylvania and Constitution Avenue**. It is almost exactly half way between the two avenues on with Federal Triangle Metro sign and Trump Hotel Towers side entrance can be used as a landmark. From 12th Street, facing the building with the EPA and American flags, walk toward the building (under the flags) and take the glass door on your left hand side with the escalators going down to the metro on your left. This again will be the **South Lobby of the William Jefferson Clinton building**.

Once inside the building, security will prompt you to scan all items such as bags, coats etc., and then let the guards know that you were instructed to call Cheryl Woodward at 564-1274 or Michelle Hale at 564-1430 to escort you to the meeting with the Administrator. Security will make temporary cards for everyone. Allow for 15 minutes to get through the process.

Subject: Meeting request from Sorghum Producers

Hi Sydney,

The good folks over at EPW suggested that I reach out to you.

The CEO and board president of the National Sorghum Producers will be in town the last week of April and would greatly appreciate the opportunity to meet with Administrator Pruitt. We'd like to express our appreciation on some recent actions by EPA, specifically on WOTUS and Chlorpyrifos. In addition, we would like to discuss the Grain Sorghum Oil Biodiesel Pathway Petition, originally submitted to EPA in July, 2016 and some specific crop protection concerns.

We're hopeful that a meeting could be possible on Thursday (April 27th) or Friday (April 28th). However, they are willing to adjust their arrival times if Wednesday (26th) offers the only opportunity.

Thank you,
Joe

Cc: Laine Evans <levans@GPS-50.com>
Subject: RE: Administrator Pruitt Meeting schedule request

My name is Cheryl Woodward and I will assist you in the logistics for your meeting at EPA on

Wednesday, June 28 at 9:30 am. The instructions/directions to EPA is below and if you have any questions please contact me. Send me the attendee's list Wednesday, June 21st if possible. If you have edits you can send me later. Look forward to seeing you all.

Directions: If you come by Metro, the Federal Triangle metro stop is directly below the building entrances. You would leave the metro station and go up all three sets of escalators from the train otherwise two escalators then do a small U-Turn to the left heading toward 12th street, the South Lobby entrance is directly and immediately to your right (Glass Doors -EPA Signified on Glass).

EPA address is 1200 Pennsylvania Avenue, NW. If you are coming by taxi/vehicle, you want to be dropped off on 12th NW, **which is between Pennsylvania and Constitution Avenue**. It is almost exactly half way between the two avenues on with Federal Triangle Metro sign and Trump Hotel Towers side entrance can be used as a landmark. From 12th Street, facing the building with the EPA and American flags, walk toward the building (under the flags) and take the glass door on your left hand side with the escalators going down to the metro on your left. This again will be the **South Lobby of the William Jefferson Clinton building**.

Once inside the building, security will prompt you to scan all items such as bags, coats etc., and then let the guards know that you were instructed to call Cheryl Woodward at 564-1274 or Michelle Hale at 564-1430 to escort you to the meeting with the Administrator. Security will make temporary cards for everyone. Allow for 15 minutes to get through the process.

Subject: RE: Administrator Pruitt Meeting schedule request

Sydney,

Jack is out of town part of the week of the 19th but here is what does work for him as of now:

6/19: 11:00am – 2:30pm, 5:00pm on

6/20: open until 2:00pm & after 4:30pm

Let me know if any of these work or if you'd prefer me to send add'l times/dates.

Laine cc'ed here will get you the form shortly.

Thank you so much!
Larissa

Sydney,

That's great – let me check with Jack's assistant and get back to you shortly.
We'll also fill out the form.

Thank you!
Larissa

Sydney,

Hope all is well!

I just wanted to flag the below note from API about a meeting with API's President, Jack Gerard and Administrator Pruitt. Please let me know if I can provide any additional information for your team to review this request, Jack is based in DC so he's fairly flexible on dates/times.

Thank you!
Larissa

Subject: Administrator Pruitt Meeting schedule request

Ryan/Millan: Good morning, hope that all is well with you. My President and CEO Jack Gerard would like to schedule a meeting with Administrator Pruitt to follow up on several items the Administrator touched on in his remarks to API's Board meeting in March as well as ongoing regulatory activities. Our hope is to schedule this 40 minute meeting at the Administrator's earliest in town availability.

I have copied Susan Tackish, Mr. Gerard's Executive Assistant on this email. She manages his schedule/calendar and can facilitate scheduling the meeting.

Thanks in advance for your assistance.

Subject: Meeting Request to Administrator Pruitt

Date: March 29, 2017 at 11:28:05 PM EDT

To: Jenkins.donna@epa.gov

Dear Ms. Jenkins

Attached is a letter requesting a meeting with Administrator Pruitt regarding the Hudson River Superfund Site. This letter was sent by Federal Express for delivery Thursday, March 30th.

I will be in Washington D.C. April 6th and 7th and would ideally meet with him at that time if his schedule permits. I will be attending Administrator Pruitt's address at the Environmental Commissioners of the States (ECOS) Friday the 7th -- one potential opportunity for a meeting. I will make myself available to accommodate Mr. Pruitt's schedule during this or a future trip.

With thanks,

Ned Sullivan

The Honorable Scott Pruitt
U.S. Environmental Protection Agency
1200 Pennsylvania Ave., NW
Office of the Administrator, 1101A
Washington, D.C. 20460

Dear Administrator Pruitt:

On behalf of Scenic Hudson, I congratulate you on your appointment as Administrator of the U.S. Environmental Protection Agency. I am writing to request a meeting to explore innovative ways to optimize the effectiveness and efficiency of ongoing efforts to clean up the Hudson River.

Scenic Hudson is the largest non-profit conservation organization working to protect and restore the Hudson River Valley while encouraging smart economic growth in cities and towns in the region. I serve on the Mid-Hudson Regional Economic Development Council to help create jobs while protecting the natural assets of our area. Scenic Hudson utilizes land acquisition and sophisticated planning tools to create jobs and prosperous communities and enhance public access to the river while preserving the valley's inspiring beauty and natural resources. To date Scenic Hudson has created or enhanced more than 65 parks, conserved almost 40,000 acres and permanently protected over 100 working farms.

The priority issue I would like to discuss with you is the clean-up of the Hudson River Superfund site. We are encouraged by your public statements indicating you would like to find opportunities to create jobs and achieve environmental gains and that you believe EPA can help fix the pollution in the Hudson. The Obama Administration made a series of missteps that can be remedied to achieve these goals. To that end, I would greatly appreciate an opportunity to meet prior to EPA's release of any draft of the ongoing Five-Year Review of the Hudson clean up.

I will be in Washington D.C. April 6th and 7th and would be pleased if your schedule permitted a meeting one of these days. If these dates are not possible, I welcome your suggestion of other dates.

Thank you in advance for your consideration of this request. Please don't hesitate to contact me at (914) 489-4630 or nsullivan@scenichudson.org if you or your staff have any questions or a need for additional information.

Sincerely,

Ned Sullivan

Subject: Re: ETHICS QUESTIONS for EPA Administrator's Attendance at Boys & Girls Club Event

Hi Jennie,

Looping in the CEO of the Boys & Girls Clubs, Gabrielle Webster. Gabrielle is new this week, and she is fabulous!

Baker Hostetler is donating the suite and all food to the Boys & Girls Clubs, and the invitation is solely from the former CEO, Jim Almond, and the organization. The clubs have chosen to use the suite in this manner without influence from any lobbying interests, BakerHostetler, or any of the event donors. Generally the Boys and Girls Clubs have used the suite in the past for Board retreats, but given a precarious financial situation, the clubs determined a fundraising event would be a better use of the suite this year.

The Boys & Girls Clubs of Greater Washington is raising funds by reaching out to potential sponsors to donate between \$5,000 to \$10,000 to the clubs. At the moment we are attempting to recruit donors and we will be happy to provide a copy of the donor letter if that would be helpful. There will be a program listing the key donors and the run of show.

We are also having 6-8 kids from the Clubs in attendance (it's a school night, so that's why we have a range). Gabrielle will also attend, along with board members of the organization and 1-2 staff members from the clubs. We plan to have an opportunity for the kids to speak with Mr. Pruitt and have their photo taken with him.

The Administrator is not required to give a speech, but we hope he will. Generally when we conduct these types of fundraising events, the CEO thanks all of the donors for coming and explains about the missions of the clubs and the role they play in keep kids in DC safe. The Clubs focus on a mission to enable all young people, especially those who need us most, become productive, caring, responsible citizens. The secondary goal is to help Gabrielle begin to meet donors who care about our organization and to meet officials who do as well. We have employed a similar fundraising mode at our Tim Russert Congressional dinner for years, and we have had wonderful success. Then Gabrielle would introduce Mr. Pruitt, and he would then say a few words about the Clubs and the club kids.

Please let me know if you need anything else, and I am happy to put you on the phone with Gabrielle.

Sincerely,

Trevor Stanley

Hi Ryan,

Please see the attached meeting request from the Toy Association, seeking a meeting with Administrator Pruitt and several members of our association, including several members from our Board of Directors, at our 9th Annual DC Fly-in. The dates and times we are looking to meet are **May 9th at 3:30pm or 4:00pm or May 10th at 9:00am or 2:00pm**. Happy to discuss on the phone if that's easier.

Don't hesitate to reach out to me if you have any questions.

Thanks,

Autumn

Subject: ETHICS QUESTIONS for EPA Administrator's Attendance at Boys & Girls Club Event
[20170509135208998.pdf](#)

Hi Mark,

I provide ethics advice to EPA Administrator Pruitt, and I have a few nosy questions I need to ask before his Scheduling Office can get back to you.

You mention that this is a fundraiser. Is the Boys and Girls Club selling “tickets” to the event? If so, what are the ticket prices/scheme? If there is no pricing, how is the host raising funds?

Are there any obligations of the host’s special guests? Does the host expect them to have any active or visible role in the promotion, production, or presentation of the event such as standing in a reception line, speaking (e.g., mc’ing)?

If there is no ticketing for the event, would you please provide a cost estimate/person of the expenses your firm incurred to sponsor the event? Please follow the [guidelines](#) in this advisory from the Office of Government Ethics (see first full paragraph on page 3).

I need confirmation that you are authorized by the Boys & Girls Club to extend this invitation upon its behalf and that the invitation is indeed from the host of the event. The invitation attachment appears that way; however, because you are a federally registered lobbyist (the law firm) and the President’s Ethics Pledge prohibits political appointees from receiving gifts from lobbyists, I need to be sure that the host of the organization is actually issuing the invitation, not the underwriter of the event.

Thank you for entertaining my questions!

Sincerely,

Jennie for EPA Ethics

Subject: Boys & Girls Club Event

Dear Sydney,

I hope all is well. I have attached an invitation from the Boys & Girls Club inviting Administrator Pruitt to attend a fundraiser at the Washington Nationals' game on May 24 as an honored guest. Our law firm is a long-time supporter of the Boys & Girls Club, which does great work for the children of the Washington area. Please let me know if Mr. Pruitt will be able to attend or if you need additional information.

Best regards,

Mark

Cc: Laine Evans[levans@GPS-50.com]
From: Woodward, Cheryl
Sent: Wed 6/7/2017 1:21:44 PM
Subject: RE: Administrator Pruitt Meeting schedule request

My name is Cheryl Woodward and I will assist you in the logistics for your meeting at EPA on Wednesday, June 28 at 9:30 am. The instructions/directions to EPA is below and if you have any questions please contact me. Send me the attendee's list Wednesday, June 21st if possible. If you have edits you can send me later. Look forward to seeing you all.

Directions: If you come by Metro, the Federal Triangle metro stop is directly below the building entrances. You would leave the metro station and go up all three sets of escalators from the train otherwise two escalators then do a small U-Turn to the left heading toward 12th street, the South Lobby entrance is directly and immediately to your right (Glass Doors -EPA Signified on Glass).

EPA address is 1200 Pennsylvania Avenue, NW. If you are coming by taxi/vehicle, you want to be dropped off on 12th NW, **which is between Pennsylvania and Constitution Avenue**. It is almost exactly half way between the two avenues on with Federal Triangle Metro sign and Trump Hotel Towers side entrance can be used as a landmark. From 12th Street, facing the building with the EPA and American flags, walk toward the building (under the flags) and take the glass door on your left hand side with the escalators going down to the metro on your left. This again will be the **South Lobby of the William Jefferson Clinton building**.

Once inside the building, security will prompt you to scan all items such as bags, coats etc., and then let the guards know that you were instructed to call Cheryl Woodward at 564-1274 or Michelle Hale at 564-1430 to escort you to the meeting with the Administrator. Security will make temporary cards for everyone. Allow for 15 minutes to get through the process.

Sydney,

Great news! Right now, our schedule on Wednesday, July 12 and Thursday, July 13 is flexible. I've sent speaking requests to all the Kentucky delegation offices and to Secretary Chao. I'm waiting to hear back from them.

We have space reserved in the Capitol Visitors Center for both days from 9:00 am to 3:00 pm.

Is there a time that you think would be better for Mr. Pruitt? Would he be traveling to us in the CVC or would you prefer our group hear from him at EPA?

Rusty,

Ethan Witt mentioned that you are interested in requesting a meeting with Administrator Pruitt when the Bluegrass Region Policy Group visits DC in July. I wanted to connect you with Sydney Hupp, who handles scheduling requests for the Administrator. She's your best contact for facilitating this request.

Please let our office know if you need anything else while you're in town. Hope all is well!

Best,

Katelyn

Cc: Susan Tackish
Subject: Administrator Pruitt Meeting schedule request

Ryan/Millan: Good morning, hope that all is well with you. My President and CEO Jack Gerard would like to schedule a meeting with Administrator Pruitt to follow up on several items the Administrator touched on in his remarks to API's Board meeting in March as well as ongoing regulatory activities. Our hope is to schedule this 40 minute meeting at the Administrator's earliest in town availability.

I have copied Susan Tackish, Mr. Gerard's Executive Assistant on this email.

She manages his schedule/calendar and can facilitate scheduling the meeting.

Thanks in advance for your assistance.

Hello SeVera,

We are able to start at 8 a.m. on 4/6.

If we install only the two portraits from the NPG, the estimated time to install is 2-3 hours. We would need to confirm that the NPG staff can also meet us at 8 a.m.

If we also need to install the other 4-5 works already on site, the estimated time to install is 4 hours.

Should you wish to proceed with either option, please let me know as soon as possible. We will also need you to return the signed estimate.

Thank you,

Hello SeVera,

I am checking on our availability for a 7 am start on 4/5 or 4/6. As mentioned in my previous email, labor before 8 am is subject to overtime rates.

Please note that the site visit today will give us a better idea of how long the installation will take. The installation time is also dependent on how much time is needed by the NPG staff to condition check the works.

Thank you,

From: Woodward, Cheryl
Sent: Tue 4/4/2017 3:02:06 PM
Subject: RE: Kentucky Association of Electric Cooperatives- Administrator Pruitt

My name is Cheryl Woodward and I will assist you in the logistics for your meeting at EPA on Tuesday, April 25. The instructions/directions to EPA is below and if you have any questions please contact me. Look forward to seeing you all.

Directions

Directions: If you come by Metro, the Federal Triangle metro stop is directly below the building entrances. You would leave the metro station and go up all three sets of escalators and then do a small U-Turn to the right heading toward 12th street, the North Lobby entrance is directly and immediately to your left (Glass Doors -EPA Signified on Glass).

If you are coming by taxi/vehicle, you want to be dropped off on 12th NW, between Constitution Ave and Pennsylvania Ave. It is almost exactly half way between the two avenues on 12th street and the Federal Triangle Metro sign can be used as a landmark. From 12th Street, facing the building with the EPA and American flags, walk toward the building (under the flags) and take the glass door on your left hand side with the escalators going down to the metro on your left. This again will be the **South Lobby of the William Jefferson Clinton building.**

Once inside the building, security will prompt you to scan all items such as bags, coats etc., and then let the guards know that you were instructed to call Cheryl Woodward at 564-1274 or Michelle Hale at 564-1430 to escort you to the meeting with the Administrator. Security will make temporary cards for everyone. Allow for 15 minutes to get through the process.

Subject: Commissioner Martin's request to have a meet and greet with Administrator Pruitt

Hello Michele

Commissioner Bob Martin from New Jersey Department of Environmental Protection would like to request a brief meet and greet with Administrator Scott Pruitt. Commissioner Martin will be in DC on May 11th and would like to know if the Administrator has time for a brief 15-30 minute meet and greet? If May 11th is not good for the Administrator then our Commissioner would be available on May 10th in the afternoon or anytime on May 12th. Please let me know if Administrator Pruitt can meet Commissioner Martin on one of these dates. I look forward to hearing from you.

Thank you

Monica Gaines, Assistant to:

Chief of Staff, Magdalena Padilla, Esq.

Hello All,

The new date of 4/11 at 8:30 a.m. works for Artex. We estimate the installation of only the two NPG portraits will take two hours.

Molly, kindly confirm if this date and time works for the NPG staff.

Thank you,

Emilia

Hello SeVera,

We are able to start at 8 a.m. on 4/6.

If we install only the two portraits from the NPG, the estimated time to install is 2-3 hours. We would need to confirm that the NPG staff can also meet us at 8 a.m.

If we also need to install the other 4-5 works already on site, the estimated time to install is 4 hours.

Should you wish to proceed with either option, please let me know as soon as possible. We will also need you to return the signed estimate.

Thank you,

Emilia

Subject: Schedule Request

Hi Sydney:

Michelle Hale asked me to shoot you an email regarding setting up a meeting with Administrator Pruitt.

I worked for the Administrator as a legal intern and Assistant Attorney General while he was Oklahoma's Attorney General. While I was at the AG's Office, Administrator Pruitt and I discussed my political plans and he asked that I keep him updated. There have been some recent developments that I would like to share with him and discuss. As it turns out, I will be in Washington on June 19-20 for a meeting. Would it be possible to have a few minutes to visit with Administrator Pruitt?

Thank you for your assistance. I look forward to hearing from you soon.

Sincerely,

Erick Harris

Hi there Mr. Foutch,

Thanks for your time on the phone just now! How quickly are you needing to connect with the Administrator? If you were able to be flexible in the late morning tomorrow he could most likely connect with you then but if you are needing a hard start time I might have to push to later in the week. Please let me know your preference and we will get it set up!

Thank you!

To: jackson.ryan@epa.gov; Hupp, Millan (hupp.millan@epa.gov); Hilary Moffett
Cc: Susan Tackish
Subject: Administrator Pruitt Meeting schedule request

Ryan/Millan: Good morning, hope that all is well with you. My President and CEO Jack Gerard would like to schedule a meeting with Administrator Pruitt to follow up on several items the Administrator touched on in his remarks to API's Board meeting in March as well as ongoing regulatory activities. Our hope is to schedule this 40 minute meeting at the Administrator's earliest in town availability.

I have copied Susan Tackish, Mr. Gerard's Executive Assistant on this email. She manages his schedule/calendar and can facilitate scheduling the meeting.

Thanks in advance for your assistance.

Sydney,

Unfortunately they can't make the 19th work but would the following week work on these dates/times ? June 28th (open all day until 5:30pm) and June 29th (open-but best from 11:00am on if possible).

Thanks!

Hello Millan,

My name is Amy Cooke. I am the executive vice president and director of the energy policy center for the Independence Institute, a Colorado based free market think tank. We are similar to OCPA in Oklahoma. Jennifer Butler of SPN forwarded your contact information to me. As way of additional connections, I was on the EPA transition team under Myron Ebell and Patrick Davis is a friend. Hopefully that alleviates concerns that this is just a random request!

I'm writing today on behalf of a group with whom I've worked in the past -- the National Coal Transportation Association headquartered in Littleton, Colorado (just south of Denver). NCTA has some of the best people and companies as members. I'm sure you all are familiar with many of them. Attached is Executive Director Tom Canter's request for Administrator Pruitt to be the keynote speaker at their 43rd Annual Business Meeting in September. If Administrator Pruitt can make it to Colorado for the annual meeting and it works within his schedule, the Independence Institute would like to host a private VIP reception in the Administrator's honor so he can meet some of the top energy developers in our state.

If you have additional questions, don't hesitate to contact me or Tom (copied on this email). We look forward to hearing from you.

Thank you in advance for your consideration,

Amy

Dear Ms. Hupp,

On behalf of the membership and Board of Directors of National Coal Transportation Association, I am extending an invitation to Administrator Pruitt to be our Keynote Speaker at the NCTA 43rd Annual Business Meeting and Conference in Denver, Colorado on September 19, 2017. The conference is September 19th (full day plenary session) and September 20th (one-half day).

The coal industry has endured many years of unrelenting attacks and vilification. It would be an honor to have Administrator Pruitt speak as an advocate for a balanced environmental and energy policy for the United States. We believe that the government should not pick winners and losers, but should allow all energy sources to compete, creating the best outcome for consumers.

We expect 200 attendees representing a broad spectrum of electric utilities, coal producers, rail and waterborne carriers, including ports and terminals. Attendees represent energy consumers from Florida to Oregon and coal producers and transporters from all regions of the country.

The NCTA is a nonprofit association of electric utilities, coal producers, and rail industry product and service suppliers. Our stated purpose is to provide education regarding coal transportation, energy supply and demand, and environmental issues to our membership and the general public, and to resolve technical and operating issues between coal shippers, coal producers, and the coal transportation entities. Although coal carriers are not members of NCTA, they participate as standing members of our several working committees and we enjoy a good working relationship. Our working committee system assures our purpose of lawfully assisting all modes of transportation through mutual cooperation and the exchange of ideas and knowledge to assure that adequate transportation facilities and equipment will be available for the transportation of coal.

It would be a great honor to our organization to have the Administrator speak at our well-known conclave. It is with the highest of expectations that we submit this request.

Very respectfully,

Tom Canter
Executive Director

Jack is out of town part of the week of the 19th but here is what does work for him as of now:

6/19: 11:00am – 2:30pm, 5:00pm on

6/20: open until 2:00pm & after 4:30pm

Let me know if any of these work or if you'd prefer me to send add'l times/dates.

Laine cc'ed here will get you the form shortly.

Thank you so much!
Larissa

Ryan/Millan: Good morning, hope that all is well with you. My President and CEO Jack Gerard would like to schedule a meeting with Administrator Pruitt to follow up on several items the Administrator touched on in his remarks to API's Board meeting in March as well as ongoing regulatory activities. Our hope is to schedule this 40 minute meeting at the Administrator's earliest in town availability.

I have copied Susan Tackish, Mr. Gerard's Executive Assistant on this email. She manages his schedule/calendar and can facilitate scheduling the meeting.

Thanks in advance for your assistance.

Hi Sydney,

I hope this email finds you well! Apologies for the multiple emails regarding Mr. Pruitt's participation at the 2017 Oil & Gas Environmental Conference. Our advisory board, exhibitors and attendees have requested his thought leadership specifically, hence the numerous requests.

As a reminder, this event takes place November 28- 29 in Houston, Texas.

In all honesty, if Mr. Pruitt is unable to participate, we need to let our constituents know and move on to others who have requested a speaking time at the conference.

As said, it would be an honor and privilege to have Administrator Pruitt address environmental professionals.

Thank you for considering our invitation. I look forward to hearing from you very soon.

Dear Mr. Pruitt,

We request the honor of your presence at the 3rd Biennial Oil & Gas Environmental Conference as a keynote speaker. The conference will be held on November 28-29, 2017, at the Royal Sonesta Houston Galleria, 2222 West Loop South, Houston, Texas 77027 with expected attendance of 450.

The Oil & Gas Environmental Conference is focused on new and emerging issues related to environmental performance in the oil and gas industry. This event is intended to bring together recognized experts from relevant and diverse disciplines to provide a broad range of perspectives. The conference will feature a variety of panel discussions and breakout sessions designed to inform attendees of the latest environmental trends, and issues related to the oil & gas industry.

It would be an honor and privilege to have you address environmental professionals in the oil and gas industry at the 2017 Conference.

Please let us know if we can answer any questions you may have about the invitation.

Sincerely,

Cassandra Smith

Hey RJ,

I am writing to request a meeting between Administrator Pruitt and the membership of Fuels America (expected list below) on Sep 21 and 22. We're happy to be flexible on a specific time during either day—and likely/hopeful attendees are listed below.

The Fuels America coalition would like to discuss the renewable fuels standard and volume obligation. If the meeting can be arranged with the Administrator's schedule, my colleague Jordan Bernstein and I would accompany members of the Fuels America coalition.

Thanks very much for considering the request. If you need additional information, please call me at 202-585-2479 at your convenience.

V/R

Charles

Expected Attendees:

Jon Doggett, Executive Vice President, National Corn Growers Association,

Emily Skor, CEO, Growth Energy

Adam Monroe, President of the Americas, Novozymes,

Brooke Coleman, Advanced Biofuels Business Council

Craig Willis, President of Ethanol, ADM,

Charles Brittingham, II

Pruitt Invite - SNPS 17.pdf

Hi Sydney –

So sorry for any confusion! I got my days out of order as I was working on follow-ups. Our hope is that Administrator Pruitt can speak at our Thursday Lunch Session on **December 7, 2017**. The attached invitation states the correct information.

Again, so sorry for any confusion! Please let me know if I can help answer any questions.

Best,

Courtney

Hi Sydney –

Hope you are doing well! My name is Courtney Cook and I am the Director of Events at ALEC. Amy Anderson on our policy team gave me your contact information and thought you might be the best person to touch base with about our invitation to Administrator Pruitt.

We are hoping he is available to speak at our Opening Luncheon as part of our States & Nation Policy Summit on **December 6, 2017** in Nashville, TN. I have attached the original invitation that was sent and I am happy to answer any questions you may have about our event. Fingers crossed he is able to join us as I know our attendees would love to hear from him!

Look forward to hearing from you!

Best,

Courtney

Subject: Meeting Request

Hey RJ,

I am writing to request a meeting between Administrator Pruitt and the membership of Fuels America (expected list below) on Sep 21 and 22. We're happy to be flexible on a specific time during either day—and likely/hopeful attendees are listed below.

The Fuels America coalition would like to discuss the renewable fuels standard and volume obligation. If the meeting can be arranged with the Administrator's schedule, my colleague Jordan Bernstein and I would accompany members of the Fuels America coalition.

Thanks very much for considering the request. If you need additional information, please call me at 202-585-2479 at your convenience.

V/R

Charles

Expected Attendees:

Jon Doggett, Executive Vice President, National Corn Growers Association,

Emily Skor, CEO, Growth Energy

Adam Monroe, President of the Americas, Novozymes,

Brooke Coleman, Advanced Biofuels Business Council

Craig Willis, President of Ethanol, ADM,

Charles Brittingham, II

Subject: Call with EPA Administrator Pruitt

Hi Doug,

Hope all is well!

Gov. Hogan was hoping to schedule a call in early June with EPA Administrator Scott Pruitt to discuss the Chesapeake Bay and other issues facing Maryland. (Tuesday, June 6 before 2 PM would be ideal, if possible.) Please let me know if you need any other information to put in this request. We appreciate your assistance!

Thanks,

Ariel

Subject: RE: Meeting Request

Hi Sydney,

Sorry I forgot to follow up sooner. I know this is a little short notice, but Arch Coal's Snr. VP for Strategy & Public Policy, Deck Slone (who spoke to Administrator Pruitt several weeks ago at a National Mining Association meeting) will be in town next Wednesday. Does the administrator have any time next Wednesday to meet with Mr. Slone? At the NMA Board Meeting, Mr. Pruitt asked Deck to come in to talk about issues affecting the coal industry, and Arch Coal in particular.

Thanks,

Subject: FW: Meeting Request

Dear Sydney:

I would like to request a meeting with the Administrator for Larry Ziemba, Executive Vice President, Refining, for Phillip 66. Larry has responsibility for the company's refining operations and serves in a leadership position with the American Fuels and Petrochemical Manufacturers Association. He has been

working with other refiners and the Auto industry regarding the potential for higher octane fuels and other forward looking fuels issues. A brief bio is set forth below.

Larry is currently scheduled to be in D.C. on Friday June 2nd and Monday June 5th. If those days would not work with the Administrator's schedule, he is happy to work with other days that would be more convenient for Administrator Pruitt.

Lawrence (Larry) M. Ziemba is executive vice president, Refining, for Phillips 66, a diversified energy manufacturing and logistics company. He has 35 years of experience in the oil and gas industry. Before joining Phillips 66 in May 2012, Ziemba previously worked for ConocoPhillips as president, Global Refining, a role he took on after serving as president, U.S. Refining, since 2003. He first joined Phillips Petroleum in 2001 after its acquisition of Tosco and was in charge of handling the integration of the refining operations during the merger with Conoco. Originally from Chicago, he started his career at Unocal's Chicago refinery in 1977. In 1988, he moved to Unocal's Los Angeles corporate headquarters as manager of planning/business development for its downstream business. In 1991, he managed the acquisition of Shell's Carson refinery and subsequently integrated the asset into Los Angeles operations. In 1997, Ziemba joined Tosco as they acquired Unocal's downstream business. In 1999, he was named vice president of Tosco's three San Francisco area refineries. In 2000, he was assigned to handle the acquisition and takeover of the Wood River refinery. He has held a number of industry and community leadership positions including board positions with American Fuels and Petrochemical Manufacturers Association, WRB Refining LP and the Western States Petroleum Association. Ziemba earned a bachelor's degree in mechanical engineering from the University of Illinois-Champaign in 1977 and a Master of Business Administration degree from the University of Chicago in 1985.

Thank you for your consideration,

Joe Stanko

Hi Sydney, I tried to call you at the number below and it said it was not in service. I guess those budget cuts are extreme!!

I have visited with Ryan Bernstein from Senator Hoeven's office (copied) and we were wondering about a meeting in North Dakota per the media discussion here today on the ND Senators inviting the Secretary to ND. I have also through Blu Hulse at Continental Resources extended an invitation for the Secretary to speak at our Annual

Meeting in Grand Forks, North Dakota on Sept 27 or 28th but that's likely too far out for these discussions.

We are more than happy to visit in DC as well.

Thanks, I look forward to more discussion on a meeting date. My number if you chose to call is 701-223-6380.

Hi there,

Hope this email finds you well! Apologies for the delay, I would be happy to move forward on getting this meeting set up! What time frame were you looking at for getting this on the calendar? Additionally, would you mind filling out the attached form?

Thank you!

Subject: FW: Meeting Request

Dear Sydney:

I would like to request a meeting with the Administrator for Larry Ziemba, Executive Vice President, Refining, for Phillip 66. Larry has responsibility for the company's refining operations and serves in a leadership position with the American Fuels and Petrochemical Manufacturers Association. He has been working with other refiners and the Auto industry regarding the potential for higher octane fuels and other forward looking fuels issues. A brief bio is set forth below.

Larry is currently scheduled to be in D.C. on Friday June 2nd and Monday June 5th. If those days would not work with the Administrator's schedule, he is happy to work with other days that would be more convenient for Administrator Pruitt.

Lawrence (Larry) M. Ziemba is executive vice president, Refining, for Phillips 66, a diversified energy manufacturing and logistics company. He has 35 years of experience in the oil and gas industry. Before joining Phillips 66 in May 2012, Ziemba previously worked for ConocoPhillips as president, Global Refining, a role he took on after serving as president, U.S. Refining, since 2003. He first joined Phillips Petroleum in 2001 after its acquisition of Tosco and was in charge of handling the integration of the refining operations during the merger with Conoco. Originally from Chicago, he started his career at Unocal's Chicago refinery in 1977. In 1988, he moved to Unocal's Los Angeles corporate headquarters as manager of planning/business development for its downstream business. In 1991, he managed the acquisition of Shell's Carson refinery and subsequently integrated the asset into Los Angeles operations. In 1997, Ziemba joined Tosco as they acquired Unocal's downstream business. In 1999, he was named vice president of Tosco's three San Francisco area refineries. In 2000, he was assigned to handle the acquisition and takeover of the Wood River refinery. He has held a number of industry and community leadership positions including board positions with American Fuels and Petrochemical Manufacturers Association, WRB Refining LP and the Western States Petroleum Association. Ziemba earned a bachelor's degree in mechanical engineering from the University of Illinois-Champaign in 1977 and a Master of Business Administration degree from the University of Chicago in 1985.

Thank you for your consideration,

Joe Stanko

Sydney,

Andrew Wheeler was kind enough to share your contact information. We sent an invitation via US mail for Administrator Pruitt to keynote our annual meeting in November. After hearing him on Wednesday of this week at the Faegre Baker Daniels meeting I'm even more keen on getting him to our meeting – his comments were outstanding and a breath of fresh air from EPA.

Attached is a copy of the letter for your reference. We'd love to hear from you as soon as you're able to provide a tentative indication.

Have a great Memorial Day weekend!

The Honorable Scott Pruitt
Administrator
Environmental Protection Agency
Mail Code 1101A
1200 Pennsylvania Avenue, N.W.
Washington, DC 20460

Dear Mr. Pruitt,

The Agricultural Retailers Association (ARA) cordially invites you to keynote our 2017 annual meeting on Wednesday, November 29, in Phoenix, Arizona.

ARA members are farm supply retailers, distributors and service providers for America's farmers. They come in all shapes and sizes, private business or cooperatives, large or small, and from all corners of the continental United States. These businesses and their farmer-customers have been looking forward to the day when the EPA returns to its foundations in law and science, after efforts by the prior Administration to depart from that foundation by changing several precedents and vastly expanding the size and weight of the regulatory blanket under which our members operate.

Our members would very much appreciate hearing from you about the new direction for EPA under your leadership. Your initial decisions with respect to chlorpyrifos, WOTUS, the RMP rule and other issues have been a welcome breath of fresh air.

The ARA Conference attracts around 600 people representing the decision-makers at ag retail businesses and their key suppliers. The conference will be held at the Arizona Biltmore. The event begins Tuesday, November 28, with our golf tournament and Grand Opening tradeshow reception, and there is also an optional speakers' dinner on Tuesday evening for our guest speakers to meet each other and a few of our organizational leaders. We have a space reserved for you in our general session on Wednesday morning, November 29. I hope you will be able to accept our invitation.

Please let me know if you or your staff have questions about our event. If you can accept we would love to include your appearance in our promotional materials for the meeting, so an indication – even a tentative one – by mid-May would be most welcome.

Sincerely yours,

W. Daren Coppock

Again thanks so much. I have been going to Bville for about 26 years, which is as long as I have been with Phillips 66 – of course I was hired by Phillips Petroleum. I started out as a Federal Regulatory Manager, and am now the VP of our Government Affairs.

Tulsa has changed so much over the years it's a great city – I am staying somewhere downtown Tulsa at the end of the month and driving to Bville, so I can check out the city more.

I rang the bell for some time slots. Larry is coming in for the AFPM Executive Committee meeting, he is Chair of AFPM, and you might have some time for your boss scheduled for the trade. I would be great if our bosses could meet sometime before the AFPM session, I think Larry can come in early. I am checking, and will get you those time buckets asap.

Subject: FW: Meeting Request

Dear Sydney:

I would like to request a meeting with the Administrator for Larry Ziemba, Executive Vice President, Refining, for Phillip 66. Larry has responsibility for the company's refining operations and serves in a leadership position with the American Fuels and Petrochemical Manufacturers Association. He has been working with other refiners and the Auto industry regarding the potential for higher octane fuels and other forward looking fuels issues. A brief bio is set forth below.

Larry is currently scheduled to be in D.C. on Friday June 2nd and Monday June 5th. If those days would not work with the Administrator's schedule, he is happy to work with other days that would be more convenient for Administrator Pruitt.

Lawrence (Larry) M. Ziemba is executive vice president, Refining, for Phillips 66, a diversified energy manufacturing and logistics company. He has 35 years of experience in the oil and gas industry. Before joining Phillips 66 in May 2012, Ziemba previously worked for ConocoPhillips as president, Global Refining, a role he took on after serving as president, U.S. Refining, since 2003. He first joined Phillips Petroleum in 2001 after its acquisition of Tosco and was in charge of handling the integration of the refining operations during the merger with Conoco. Originally from Chicago, he started his career at Unocal's Chicago refinery in 1977. In 1988, he moved to Unocal's Los Angeles corporate headquarters as manager of planning/business development for its downstream business. In 1991, he managed the acquisition of Shell's Carson refinery and subsequently integrated the asset into Los Angeles operations. In 1997, Ziemba joined Tosco as they acquired Unocal's downstream business. In 1999, he was named vice president of Tosco's three San Francisco area refineries. In 2000, he was assigned to handle the acquisition and takeover of the Wood River refinery. He has held a number of industry and community leadership positions including board positions with American Fuels and Petrochemical Manufacturers Association, WRB Refining LP and the Western States Petroleum Association. Ziemba earned a bachelor's degree in mechanical engineering from the University of Illinois-Champaign in 1977 and a Master of Business Administration degree from the University of Chicago in 1985.

Thank you for your consideration,

Administrator Pruitt,

I founded a group focused on promoting technology in agriculture (www.royseagtech.com). Attached are two papers that I will be discussing with Congressmen this week in Washington.

I believe that tech can go a long way in protecting the environment and resolving conflicts with the agriculture industry. As you may recall, I am from North Dakota so I am interested in preserving the family farm while reducing environmental impact without having to resort to over-regulation.

If you or your staff have a few minutes this week, I would love to share my thoughts.

Thanks

Subject: UPA Meeting Request
UPA - Pruitt Meeting Request 5.08.17.pdf

Hi Sydney,

Really appreciate your quick response to our earlier exchange. Wanted to follow up on the UPA meeting request after talking with the Office of Policy. One of the UPA member companies was in just this week and met with Samantha Dravis and had a really good discussion about the state of the domestic uranium industry and the impact that regulations like Part 192 are having on jobs and production levels.

Given that productive discussion, we'd like to bring the rest of the UPA CEO's out to discuss the issue directly with Administrator Pruitt as a follow up. The viability of the domestic uranium industry has implications for both jobs and national and economic security, as we are now dependent on foreign sources for 94% of the uranium needed to power our nuclear reactors. While some of the headwinds the industry faces are market-related, regulations like Part 192 are having a devastating impact.

Would love to work with you to get a meeting on the books for the UPA CEO's and Administrator Pruitt anytime during the month of June. I attached our original meeting request, and included a list of UPA member companies below.

Please let me know if we can provide any further information, and thank you for your consideration.

May 8, 2017

The Honorable Scott Pruitt
Administrator, Environmental Protection Agency
1200 Pennsylvania Avenue NW
Washington, DC 20004

Dear Administrator Pruitt,

On behalf of the Uranium Producers of America (UPA), thank you for your willingness to listen to stakeholders as you review existing regulations at the Environmental Protection Agency (EPA).

The UPA is a trade association representing the domestic uranium industry, which is committed to responsible, environmentally sound production practices, both before, during, and after mining operations. However, there are several EPA regulations that should be revisited or eliminated to ensure our industry can remain productive and competitive in this global market.

We are writing to request a meeting to discuss EPA policies that have a direct impact on our industry. The leadership of the domestic uranium companies are available to be in Washington, D.C. in late May or in early June.

Thank you in advance for your consideration.

Respectfully submitted,

Sydney:

Thanks, I know the Administrator's schedule is complicated enough, but with international travel it's an additional degree of difficulty.

I'll vet this promptly from my end and respond back.

Thanks, much appreciated.

Regards,

Joe

Sidney:

Would it be possible for you to let me know if the June 2nd or June 5th would work for Administrator Pruitt? Mr. Ziemba is happy to work with other dates, but if the June 2nd and 5th are off the table, it will be helpful to know for other scheduling needs.

Thanks for all your assistance.

Subject: FW: Meeting Request

Dear Sydney:

I would like to request a meeting with the Administrator for Larry Ziemba, Executive Vice President, Refining, for Phillip 66. Larry has responsibility for the company's refining operations and serves in a leadership position with the American Fuels and Petrochemical Manufacturers Association. He has been working with other refiners and the Auto industry regarding the potential for higher octane fuels and other forward looking fuels issues. A brief bio is set forth below.

Larry is currently scheduled to be in D.C. on Friday June 2nd and Monday June 5th. If those days would not work with the Administrator's schedule, he is happy to work with other days that would be more convenient for Administrator Pruitt.

Lawrence (Larry) M. Ziemba is executive vice president, Refining, for Phillips 66, a diversified energy manufacturing and logistics company. He has 35 years of experience in the oil and gas industry. Before joining Phillips 66 in May 2012, Ziemba previously worked for ConocoPhillips as president, Global Refining, a role he took on after serving as president, U.S. Refining, since 2003. He first joined Phillips Petroleum in 2001 after its acquisition of Tosco and was in charge of handling the integration of the refining operations during the merger with Conoco. Originally from Chicago, he started his career at Unocal's Chicago refinery in 1977. In 1988, he moved to Unocal's Los Angeles corporate headquarters as manager of planning/business development for its downstream business. In 1991, he managed the acquisition of Shell's Carson refinery and subsequently integrated the asset into Los Angeles operations. In 1997, Ziemba joined Tosco as they acquired Unocal's downstream business. In 1999, he was named vice president of Tosco's three San Francisco area refineries. In 2000, he was assigned to handle the acquisition and takeover of the Wood River refinery. He has held a number of industry and community leadership positions including board positions with American Fuels and Petrochemical Manufacturers Association, WRB Refining LP and the Western States Petroleum Association. Ziemba earned a bachelor's degree in mechanical engineering from the University of Illinois-Champaign in 1977 and a Master of Business Administration degree from the University of Chicago in 1985.

Thank you for your consideration,

Joe Stanko

Subject: RE: Meeting with Administrator Scott Pruitt

My name is Cheryl Woodward and I will assist you in the logistics for your meeting at EPA on Thursday, June 1st at 1:30 pm. The instructions/directions to EPA is below and if you have any questions please contact me. Look forward to seeing you all.

Directions: If you come by Metro, the Federal Triangle metro stop is directly below

the building entrances. You would leave the metro station and go up all three sets of escalators from the train otherwise two escalators then do a small U-Turn to the left heading toward 12th street, the South Lobby entrance is directly and immediately to your right (Glass Doors -EPA Signified on Glass).

EPA address is 1200 Pennsylvania Avenue, NW. If you are coming by taxi/vehicle, you want to be dropped off on 12th NW, **which is between Pennsylvania and Constitution Avenue**. It is almost exactly half way between the two avenues on with Federal Triangle Metro sign and Trump Hotel Towers side entrance can be used as a landmark. From 12th Street, facing the building with the EPA and American flags, walk toward the building (under the flags) and take the glass door on your left hand side with the escalators going down to the metro on your left. This again will be the **South Lobby of the William Jefferson Clinton building**.

Once inside the building, security will prompt you to scan all items such as bags, coats etc., and then let the guards know that you were instructed to call Cheryl Woodward at 564-1274 or Michelle Hale at 564-1430 to escort you to the meeting with the Administrator. Security will make temporary cards for everyone. Allow for 15 minutes to get through the process.

Sydney:

Some final details from our end.

Attendees will be:

Larry Ziemba, Executive Vice President, Refining, Phillips 66

Accompanied by

Jeff Reamy, Vice President, Federal Affairs, Phillips 66

Any day-of information can be sent to Jeff at Jeffrey.M.Reamy@p66.com or by cell, 202-302-4682 . Would you let Jeff know the name/number of the contact person that security should call once they are cleared in the North entrance?

Again, thank you very much for your assistance.

Regards,

Joe

Subject: FW: Meeting Request

Dear Sydney:

I would like to request a meeting with the Administrator for Larry Ziemba, Executive Vice President, Refining, for Phillip 66. Larry has responsibility for the company's refining operations and serves in a leadership position with the American Fuels and Petrochemical Manufacturers Association. He has been working with other refiners and the Auto industry regarding the potential for higher octane fuels and other forward looking fuels issues. A brief bio is set forth below.

Larry is currently scheduled to be in D.C. on Friday June 2nd and Monday June 5th. If those days would not work with the Administrator's schedule, he is happy to work with other days that would be more convenient for Administrator Pruitt.

Lawrence (Larry) M. Ziemba is executive vice president, Refining, for Phillips 66, a diversified energy manufacturing and logistics company. He has 35 years of experience in the oil and gas industry. Before joining Phillips 66 in May 2012, Ziemba previously worked for ConocoPhillips as president, Global Refining, a role he took on after serving as president, U.S. Refining, since 2003. He first joined Phillips Petroleum in 2001 after its acquisition of Tosco and was in charge of handling the integration of the refining operations during the merger with Conoco. Originally from Chicago, he started his career at Unocal's Chicago refinery in 1977. In 1988, he moved to Unocal's Los Angeles corporate headquarters as manager of planning/business development for its downstream business. In 1991, he managed the acquisition of Shell's Carson refinery and subsequently integrated the asset into Los Angeles operations. In 1997, Ziemba joined Tosco as they acquired Unocal's downstream business. In 1999, he was named vice president of Tosco's three San Francisco area refineries. In 2000, he was assigned to handle the acquisition and takeover of the Wood River refinery. He has held a number of industry and community leadership positions including board positions with American Fuels and Petrochemical Manufacturers Association, WRB Refining LP and the Western States Petroleum Association. Ziemba earned a bachelor's degree in mechanical engineering from the University of Illinois-Champaign in 1977 and a Master of Business Administration degree from the University of Chicago in 1985.

Thank you for your consideration,

Joe Stanko

Subject: Administrator Pruitt's trip to Iowa

Hello Sydney,

I'm Tana Goertz I'm a friend of the first family as well as worked on President Donald Trump's campaign. I had the pleasure of meeting with Administrator Pruitt a couple of weeks ago.

I brought the CEO of Renewable Energy Group, Dan Oh, the largest American producer of advanced biofuel with me to discuss the importance and relevance of the biodiesel industry to our great country.

After our visit I had mentioned to Scott that President Trump asked me to plan a rally for him in Iowa. I suggested that he'd come along on that trip and perhaps could tour one of REG's state of the art biodiesel plants. He said he'd love to come to Iowa and asked that I gave him the date once I knew it.

The date is now confirmed that the President will be traveling on Thursday, June 1 to Cedar Rapids Iowa 7pm and I'd love to have Administrator Pruitt as our guest if his schedule would allow.

Thank you for your time.
I'm Fired Up!

Ma'am. Thanks for your note. Mr. Pruitt's friend (and ours) OK Lt Gov Todd Lamb was supposed to have made an introduction on Gen Franks behave a few weeks ago. Gen Franks would like Mr Pruitt to be the speaker at our 4 Star Leadership awards banquet in OKC on Thursday evening 13 July at 6:30 PM. Todd Lamb has been involved with this program for 8 years. Gen Franks hosts 70 high school leaders for a week (9-14 July). The kids are from 25 states, Jordan, Germany and Korea. This is our 10th year of hosting this Leadership Camp. Gen Franks feels strongly that Mr. Pruitt would be a great role model for our students. Asking for 25 min remarks and 10 min Q&A. Venue is on the campus of Ok Christian University. Phone call is to discuss this and answer any questions. More info on the program is at our website fourstarleader.com

Thanks.

Subject: Meeting

Administrator Pruitt:

I have been wanting to suggest a visit to offer thoughts and answer questions based on my experience at EPA. I waiting to let some time pass from the very beginning of the Administration.

I served in three different appointed positions at EPA over the last 20 years including Deputy Administrator and Acting Administrator for 6 months. I would be happy, and indeed view it as a responsibility of a former official, to offer to get together to answer questions and generally discuss EPA operations.

Let me know if you might be interested.

Thanks

Bob

Sydney,

Hope all is well!

I just wanted to flag the below note from API about a meeting with API's President, Jack Gerard and Administrator Pruitt. Please let me know if I can provide any additional information for your team to review this request, Jack is based in DC so he's fairly flexible on dates/times.

Thank you!

Subject: Administrator Pruitt Meeting schedule request

Ryan/Millan: Good morning, hope that all is well with you. My President and CEO Jack Gerard would like to schedule a meeting with Administrator Pruitt to follow up on several items the Administrator touched on in his remarks to API's Board meeting in March as well as ongoing regulatory activities. Our hope is to schedule this 40 minute meeting at the Administrator's earliest in town availability.

I have copied Susan Tackish, Mr. Gerard's Executive Assistant on this email. She manages his schedule/calendar and can facilitate scheduling the meeting.

Thanks in advance for your assistance.

Dear Administrator Pruitt:

Thank you for taking the time out of your busy schedule to meet with us. As we discussed, the business of architecture relies on EPA programming such as Energy Star, as well as access to research and data through resources such as the TSCA Chemical Substance Inventory and the Indoor Air Quality program. We hope that these worthy programs will continue to receive support from EPA leadership.

Please consider the American Institute of Architects a resource on any building-related matters. We look forward to further engagement to advance EPA's vital mission of protecting the public and preserving our environment for future generations.

Sincerely,

Subject: Confirmed Governors | Re: Invitation Letter from Governor Hutchinson, Arkansas
17.06.12 The Honorable Scott Pruitt, Administrator, EPA (57th Annual SSEB Meeting Keynote Address Invitation).pdf

Dear Ms. Hupp,

I am writing to follow up on the message below regarding an invitation from Governor Hutchinson of Arkansas to Administrator Pruitt requesting his participation in the Southern States Energy Board's Annual Meeting. The invitation letter is attached. As an update on other participants, we have confirmed Governors Hutchinson, Bevin (KY), Bryant (MS), and McMaster (SC), all of whom will participate in a gubernatorial panel preceding the placeholder time slot we are holding for the Administrator. He will be in good company with several folks from the State of Oklahoma as well, as State Representative Weldon Watson serves on the Board's Executive Committee and Mike Smith with the Interstate Oil and Gas Compact Commission based out of Oklahoma City will be present. Deputy Secretary of Energy Dan Brouillette also is confirmed as a speaker and several executives from utilities across the Southeast. There are opportunities to meet privately with these members if the Administrator is interested. I am happy to coordinate.

We are working hard with Governor Hutchinson's staff to confirm the agenda so it can be released to the public, so any guidance you can give me on the likelihood of the Administrator's participation is greatly appreciated.

Thank you very much,
Kimberly

Subject: Invitation Letter from Governor Hutchinson, Arkansas

Dear Ms. Hupp,

On behalf of Governor Asa Hutchinson, Governor of Arkansas and Chairman of the Southern States Energy Board, I am forwarding a letter the Governor sent to Administrator Pruitt inviting him to provide a keynote address during the Board's 57th Annual Meeting. The original letter was sent directly from the Governor's office last week. The event will be held at the Francis Marion hotel in Charleston, South Carolina, on September 24-26, 2017. Governor Hutchinson is requesting that Administrator Pruitt provide a keynote address on Monday morning, September 25, immediately following a gubernatorial panel focused on their perspectives on energy policy, cybersecurity, and infrastructure. Currently, this panel includes Governor Hutchinson and Governor Phil Bryant of Mississippi. Other southern governors are tentatively confirmed and will be announced soon. If the Administrator is unavailable on Monday morning, I am happy to work with you to accommodate his schedule.

Please contact me if you have any questions or if additional information is required to process Governor Hutchinson's request. Thank you for your consideration.

Kind regards,
Kimberly

[Pruit EPA Letter.pdf](#)
[EPA Administrator Pruitt Speaker Request Form \(003\).docx](#)

First, I would like to thank you and the Administrator for taking time to speak to the Commerce Lexington that visited DC earlier this summer. I have a group in Northern Kentucky that would appreciate the Administrator considering meeting with them certainly at his convenience. This is a group of builders, developers and elected officials in one of Kentucky's fastest growing communities. They would be soliciting the Administrator's advice and help in dealing with the Waters of the US and related Corps of Engineers issues.

I have attached a copy of the Speaker Request Form and a letter to Administrator Pruitt.

Let me know if you have any questions. Brian Miller will be the primary contact for this event (see speaker form) but don't hesitate to contact me if you or the Administrator have any questions.

I hope you've had an enjoyable summer. I'll bet it's been nice to be in the Administrative Branch and not the Legislative Branch this summer.

Thanks for your consideration

RE: Unsustainable Streams & Wetlands Mitigation Costs: Invitation to Visit Northern Kentucky

Dear Mr. Pruitt,

The undersigned represent the development community in Northern Kentucky, comprised of Boone, Campbell and Kenton counties as part of the Cincinnati metropolitan area. This region has grown 22% in the last 20 years, and has a current population of approximately 400,000.

Currently, our region (20% of the Cincinnati metro) is faced with an unsustainable level of cost associated with streams and wetlands mitigation. In your position, you have the ability to influence a workable balance between protection of the environment and adequate future growth and development.

As you tour the United States, we would like to invite you to visit Northern Kentucky to discover the true impacts that the rules and regulations for Waters of the US (WOTUS) has had, and continues to have, on our development community.

Please use this hyperlink to access the white paper entitled **Unsustainable Streams and Wetlands Mitigation Costs in Northern Kentucky**. During your visit, we will show you what current and future development plans have been negatively impacted by the overage that this rule has caused.

Sincerely,

William S. Cullen
President
Building Industry Association of
Northern Kentucky

Subject: RE: Meeting with Administrator Scott Pruitt

My name is Cheryl Woodward and I will assist you in the logistics for your meeting at EPA on Thursday, June 1st at 1:30 pm. The instructions/directions to EPA is below and if you have any questions please contact me. Look forward to seeing you all.

Directions: If you come by Metro, the Federal Triangle metro stop is directly below the building entrances. You would leave the metro station and go up all three sets of escalators from the train otherwise two escalators then do a small U-Turn to the left heading toward 12th street, the South Lobby entrance is directly and immediately to your right (Glass Doors - EPA Signified on Glass).

EPA address is 1200 Pennsylvania Avenue, NW. If you are coming by taxi/vehicle, you want to be dropped off on 12th NW, **which is between Pennsylvania and Constitution Avenue**. It is almost exactly half way between the two avenues on with Federal Triangle Metro sign and Trump Hotel Towers side entrance can be used as a landmark. From 12th Street, facing the building with the EPA and American flags, walk toward the building (under the flags) and take the glass door on your left hand side with the escalators going down to the metro on your left. This again will be the **South Lobby of the William Jefferson Clinton building**.

Once inside the building, security will prompt you to scan all items such as bags, coats etc.,

and then let the guards know that you were instructed to call Cheryl Woodward at 564-1274 or Michelle Hale at 564-1430 to escort you to the meeting with the Administrator. Security will make temporary cards for everyone. Allow for 15 minutes to get through the process.

Subject: Thanks and September Conference Invitation

Sydney,

Thanks again for all of your help to secure the meeting earlier this week with the Administrator. It is very much appreciated. We had a very good discussion and to that end, would like to invite the Administrator to speak to our advocacy conference here in Washington in September. A formal invitation is attached and my colleague, Samantha Frith (cc'd here), is the best point of contact. Thank you in advance for your consideration and please let us know if you have any questions.

Have a great weekend.

Chris

The Honorable Scott Pruitt
Administrator
U.S. Environmental Protection Agency
1200 Pennsylvania Ave. NW
Washington, DC 20460

Dear Administrator Pruitt,

On behalf of Growth Energy's Board of Directors, I would like to invite you to speak to the members of Growth Energy during our 2017 Advocacy Conference on September 12th, 2017. We will be hosting the conference at the Washington Court Hotel in Washington, D.C.

This is our annual Advocacy Conference where we expect more than 125 ethanol producers, ethanol supporters, and farmers to be in Washington to advocate for the continued growth and success of homegrown biofuels. Growth Energy represents nearly 90 biorefineries across 18 states, as well as more than 80 cutting edge associate members involved in the biorefinery supply chain like Novozymes and Dupont.

As Administrator for the Environmental Protection Agency (EPA), we would like to hear from you on EPA's plan and outlook for biofuels policy and deregulation of ethanol blended fuels. Specifically, our members would appreciate hearing directly from you on policies related to the Renewable Fuel Standard (RFS), the annual RFS Renewable Volume Obligations (RVO), and the Reid Vapor Pressure (RVP) regulation impacting consumer access to ethanol blends above 10 percent.

We appreciate your time and consideration and would be happy to work with you to find a time that works best for you to speak on September 12th and the early mornings of September 13th and 14th. If you have any questions or need any additional information regarding Growth Energy or our 2017 Advocacy Conference, please contact Samantha Frith on our Government Affairs team at sfrith@growthenergy.org or 202-545-4024.

I hope you can join us in September. Thank you for considering this request.

Sincerely,

Emily Skor, CEO
Growth Energy

United States Senate

August 4, 2017

The Honorable Scott Pruitt
Administrator
Environmental Protection Agency
1200 Pennsylvania Avenue, NW
Washington, DC 20460

Dear Administrator Pruitt:

I write to request an update on the status of the Environmental Protection Agency's (EPA) Methods Update Rule under the Clean Water Act.

The Methods Update Rule was signed by the previous EPA Administrator in December 2016 and it makes a number of important revisions to analytical procedures for wastewater and other environmental sampling that will provide regulatory clarity and increased flexibility for municipalities and industry. My office has been contacted by business leaders in New Hampshire that are seeking clarity on the status of the Methods Update Rule and are supportive of the revisions and the cost-savings associated with the changes.

Ensuring that all Granite Staters and Americans have access to clean water is essential to public health, to the safety of our communities, and to the overall well-being of our state. Thank you for your prompt attention to this request.

With every good wish,

Margaret Wood Hassan
United States Senator

Scott Pruitt

Administrator

Environmental Protection Agency

1200 Pennsylvania Avenue, N.W.
Washington, DC 20460

Dear Mr. Pruitt,

We request the honor of your presence at the 3rd Biennial Oil & Gas Environmental Conference as a keynote speaker. The conference will be held on November 28-29, 2017, at the Royal Sonesta Houston Galleria, 2222 West Loop South, Houston, Texas 77027 with expected attendance of 450.

The Oil & Gas Environmental Conference is focused on new and emerging issues related to environmental performance in the oil and gas industry. This event is intended to bring together recognized experts from relevant and diverse disciplines to provide a broad range of perspectives. The conference will feature a variety of panel discussions and breakout sessions

designed to inform attendees of the latest environmental trends, and issues related to the oil & gas industry.

It would be an honor and privilege to have you address environmental professionals in the oil and gas industry at the 2017 Conference.

Please let us know if we can answer any questions you may have about the invitation.

Sincerely,

A handwritten signature in black ink that reads "Cassandra Smith". The signature is written in a cursive style with a large, stylized "C" and "S".

Hi Sydney, I tried to call you at the number below and it said it was not in service. I guess those budget cuts are extreme!!

I have visited with Ryan Bernstein from Senator Hoeven's office (copied) and we were wondering about a meeting in North Dakota per the media discussion here today on the ND Senators inviting the Secretary to ND. I have also through Blu Hulsey at Continental Resources extended an invitation for the Secretary to speak at our Annual Meeting in Grand Forks, North Dakota on Sept 27 or 28th but that's likely too far out for these discussions.

We are more than happy to visit in DC as well.

Thanks, I look forward to more discussion on a meeting date. My number if you chose to call is 701-223-6380.

Subject: Telling the truth

Scott,

If you happen to turn on the television today, there's a good chance that a liberal cable news network is blaring all sorts of "fake news" out to the general public.

I saw a poll recently that said that only 16% of conservatives trust the media—and that poll was taken *before* the election, when the liberal media went ballistic about President Trump. Your distrust in the media is *absolutely justified*, considering the behavior of journalists and television news anchors in recent months.

Americans need to know what's going on. And they need news from a reliable source—one that will tell them the unbiased truth. Americans need an alternative from the mainstream media.

That's why Heritage created the Daily Signal in 2014—to clearly and directly communicate news and information, especially news around conservative policy.

The Daily Signal's mission is to give Americans the truth about what is happening in Washington and what must be done to save our country.

The good news is that millions of people read The Daily Signal each week, because truth in media is a rare thing these days...and it stands out!

Heritage's Board of Trustees recognizes the incredible work being done by The Daily Signal, and how it advances the work of our policy experts.

In fact, The Daily Signal's success is one of the reasons why members of the Board have issued a \$1 million dollar-for-dollar matching challenge to you.

If you are able to support the work of Heritage—including The Daily Signal—before August 15, then our board will match your gift.

Don't wait any longer—The Daily Signal needs your support to continue speaking the truth. Make your donation using this secure link:

<https://secured.heritage.org/boardchallenge>

Onward!

Kind regards,

Ami

If you are coming by taxi/vehicle, you want to be dropped off on 12th NW, between Constitution Ave and Pennsylvania Ave. It is almost exactly half way between the two avenues on 12th street and the Federal Triangle Metro sign can be used as a landmark. From 12th Street, facing the building with the EPA and American flags, walk toward the building (under the flags) and take the glass door on your left hand side with the escalators going down to the metro on your left. This again will be the South Lobby of the William Jefferson Clinton building.

Once inside the building, security will prompt you to scan all items such as bags, coats etc., and then let the guards know that you were instructed to call Cheryl Woodward at 564-1274 or Michelle Hale at 564-1430 to escort you to the meeting with the Administrator. Security will make temporary cards for everyone. Allow for 15 minutes to get through the process.

The Real Estate Roundtable

July 28, 2017

The Honorable Scott Pruitt
Administrator
United States Environmental Protection Agency
1200 Pennsylvania Avenue, NW
Washington, DC 20460

Dear Administrator Pruitt:

Thank you for serving our country as the nation's 14th EPA Administrator. On behalf of The Real Estate Roundtable (www.rer.org),¹ our board member, Anthony E. Malkin (Chairman and CEO, Empire State Realty Trust) and I request to meet to discuss the U.S. real estate industry's interest and role in national energy and environmental regulatory policies.

The Roundtable shares the Trump Administration's objectives to create jobs and grow GDP. U.S. buildings – and the residents, tenants and other occupants who live, work and play in them – consume about 40 percent of the nation's energy. One of The Roundtable's key policy goals is to foster greater energy efficiency across the nation's building stock. Improving energy efficiency is a win on multiple fronts. It furthers our nation's energy independence, saves families and businesses billions of dollars on utility costs, creates well-paying jobs in technology and construction, and enhances the environment.

Our Sustainability Policy Advisory Committee (SPAC), chaired by Tony, promotes the economic benefits of intelligent investments in energy efficiency. His company's landmark retrofit of the Empire State Building has spurred federal policies that encourage building efficiency projects with attractive returns on investments that create well-paying jobs. In particular, The Roundtable has long collaborated with EPA on the ENERGY STAR program for buildings and its emerging platform for leased building spaces known as "Tenant Star."

¹ The Real Estate Roundtable brings together leaders of the nation's top publicly-held and privately-owned real estate ownership, development, lending and management firms with the leaders of major national real estate trade associations to jointly address key national policy issues relating to real estate and the overall economy. Collectively, Roundtable members' portfolios contain over 12 billion square feet of office, retail and industrial properties valued at more than \$1 trillion; over 1.5 million apartment units; and in excess of 2.5 million hotel rooms. Participating trade associations represent more than 1.5 million people involved in virtually every aspect of the real estate business.

Letter to the Honorable Scott Pruitt
July 28, 2017
Page 2

The Roundtable also has positions on environmental regulatory matters within EPA's jurisdiction that affect land development and building ownership, such as the WOTUS rule and lead-based paint regulations. We'd greatly appreciate the opportunity to apprise you of our advocacy on these and related matters.

Tony and I look forward to discussing how we can best collaborate with EPA to further our shared objectives. We will be in touch with your office to see if a mutually convenient meeting date and time can be arranged in mid- to late-September.

Sincerely,

A handwritten signature in black ink, appearing to read "Jeffrey D. DeBoer". The signature is fluid and cursive, with the first name "Jeffrey" being the most prominent part.

Joint Society letter EPA Pruitt FINAL.pdf

Dear Administrator Pruitt,

Please see attached a letter from 18 scientific societies requesting an opportunity to meet with EPA Administrator Pruitt to discuss climate science. We are writing in response to reports that you are working to develop a “red team/blue team” process that challenges climate science. As organizations that represent a broad spectrum of disciplines that contribute to the science of climate change, we would welcome an opportunity to discuss EPA’s efforts in this area.

Thank you for your consideration

Regards,

Joanne Padrón Carney

Director, Office of Government Relations

American Association for the Advancement of Science

1200 New York Avenue, NW 20005

Telephone: 202/326-6798

Email: jcarney@aaas.org

July 31, 2017

The Honorable Scott Pruitt
Administrator
U.S. Environmental Protection Agency
1200 Pennsylvania Avenue, NW
Washington, D.C. 20460

Dear Administrator Pruitt:

As leaders of professional scientific societies with our collective membership of hundreds of thousands of scientists, we are writing in response to reports that you are working to develop a “red team/blue team” process that challenges climate science.

We write to remind you of the ongoing research, testing, evaluations, and debates that happen on a regular basis in every scientific discipline. The peer review process itself is a constant means of scientists putting forth research results, getting challenged, and revising them based on evidence. Indeed, science is a multi-dimensional, competitive “red team/blue team” process whereby scientists and scientific teams are constantly challenging one another’s findings for robustness. The current scientific understanding of climate change is based on decades of such work, along with overarching, carefully evaluated assessments within the United States and internationally.

As a reflection of that work, 31 scientific societies last year released a [letter](#), updated from 2009, to reflect the current scientific consensus on climate change. We urge you to give its text consideration, along with [America’s Climate Choices](#), the work of our premier United States scientific body, the [National Academy of Sciences](#).

Of course, climate science, like all sciences, is an ever-changing discipline: our knowledge is always advancing. Robust discussion about data interpretation, methodology, and findings are part of daily scientific discourse. That is how science progresses. However, the integrity of the scientific process cannot thrive when policymakers—regardless of party affiliation—use policy disagreements as a pretext to challenge scientific conclusions.

Given your interest in the state of climate science, we would welcome the opportunity to meet with you to better understand your perspective and rationale for the proposed activity; and to discuss climate science, including which areas are at the frontiers of scientific knowledge and which are well-established because of thousands of studies from multiple lines of evidence.

We look forward to hearing from you, and your office may contact Lexi Shultz (ashultz@agu.org), Kasey White (kwhite@geosociety.org), or Joanne Carney (jcarney@aaas.org) to coordinate a meeting.

Subject: Speaking Invitation - Western State Farm Bureau Governmental Affairs Directors

Dear Administrator Pruitt:

I am writing to invite you to speak at an upcoming meeting of the Directors of Governmental Affairs for the western state Farm Bureau organizations. Farm Bureau is the largest agricultural organization in the nation, and the policies of the EPA have a dramatic impact upon our members as they conduct their farming and ranching operations.

We are very encouraged by the direction that you and President Trump have been taking during the first 100 days of the administration. We are very supportive of the proposed withdrawal of the WOTUS rule, the clean power plan, and other burdensome regulations which went far beyond the legal scope of power for the EPA.

Each year the state Farm Bureau Directors of Governmental Affairs meet together to discuss issues, hear from experts and determine how best to work with the administration and Congress to remove unnecessary and overreaching regulatory burdens so our members can do what they do best, provide food, fiber and fuel for the rest of the nation and the world.

If you are available, we would love to have you join us on Wednesday, June 14 at 11:00 am at the Coeur d'Alene Resort in Coeur d'Alene Idaho. You would have up to one hour for your comments and to take Q&A. Representatives from every western state except California have registered at this point. We anticipate approximately 17 attendees, plus some spouses, so it will be an intimate setting. No press will be present, unless you would like us to invite the press for your presentation.

This will be a great opportunity to share President Trump's and your vision of the proper role of the EPA and how EPA can work more effectively with the states. We believe our organizations can have a positive influence on the Congressional delegations from the western states to help implement your goals and priorities. We see this as an opportunity to ensure we are all on the same page and moving forward in a unified manner.

We understand that you cannot always be at every event that you would like to attend. If you cannot attend personally, we would appreciate the opportunity to hear from another senior political official within EPA.

If you need any additional information from me, please don't hesitate to contact me using the information below.

Thanks for your consideration of this request, we look forward to hearing from you.

Sincerely,

Russ Hendricks

Subject: Secretary Pruitt - Speaking Opportunity with New England Council

Good Morning Michelle,

On behalf of the New England Council, please find the attached invitation for Secretary Pruitt to speak its members at a Federal Policy Briefing, as part of their Annual Spring Event in Washington, D.C., on the afternoon of Wednesday, May 3, 2017.

The briefing will be held at the Willard Intercontinental Hotel from 2:00 – 4:00 PM. There are 4-5 speakers over the course of the afternoon, each speak for approximately 10-15 minutes. There may also be a few questions as well. They are able to accommodate what works best for the Secretary's schedule.

Additional information on the event, as well as background on the New England Council, is included in the attachment. I have also attached a separate list of speakers from the Obama and Bush Administrations as well.

Thank you for your consideration and please let me know if you have any additional questions.

Best,

Laine

7-28-17 Admin Pruitt Meeting Request.pdf

Ms. Hupp:

On behalf of The Real Estate Roundtable (www.rer.org), please see the attached letter from our President and CEO Jeffrey D. DeBoer requesting a meeting with Administrator Pruitt.

Our board member Anthony (Tony) E. Malkin, the Chairman and CEO of Empire State Realty Trust and the driver of the landmark energy efficiency retrofit of the Empire State Building, would plan to join any meeting.

Please let us know how we may have the opportunity to acquaint Administrator Pruitt with The Roundtable's role and interest in environmental and energy policies – and how our organization representing the U.S. commercial real estate sector may continue to serve EPA as a key stakeholder from the business community.

Best regards,

Dear Sydney,

As a follow up to Administrator Pruitt's conversation with Mr. Meese, I wanted to provide you with the speaking invitation details for Heritage's 40th Annual Resource Bank Meeting.

Our Resource Bank Meeting brings together about 500 leaders, influencers, and donors from across the conservative movement to talk about powerful ideas, innovative strategies, and effective marketing. This year's meeting will be held May 10-12 at The Broadmoor in Colorado Spring. Our theme is "Rise to the Challenge," and we think that Commissioner Pruitt would be a very inspiring speaker during our Robert H. Kriebel Dinner on Thursday, May 11.

We are happy to cover travel and hotel costs, and I am happy to answer any questions you might have about logistics, other speakers, the topic, and our audience.

Best,

Bridgett Wagner

Event: The Heritage Foundation's 40th Annual Resource Bank Meeting
Theme: "Rise to the Challenge"
Dates: May 10-12, 2017
Location: The Broadmoor Resort - Colorado Springs, CO

Subject: Re: Request meeting with Mr. Pruitt: Regarding the environmental concerns from the Chesapeake Bay Population Stability Society

Hello Sydney,

My apologies for being persistent with my request to reach Mr. Pruitt regarding The Chesapeake Bay Population Stability Society (CBPSS) concerns over the Bays Protection. Understanding that Mr. Pruitt's schedule is very compressed, perhaps there may be a need for another approach. If you are aware of a day that Mr. Pruitt will be in his DC office, I would be happy to spend the day waiting until there is an opening and keep my interactions with him to a minimum, no more than 15 minutes. This way no specific time would be necessary to schedule an official meeting. I hope this might make things easier for you both.

Thanks,

Paul Clark

Good afternoon Tate.

Have attached the agenda for the upcoming Ag America Spring National conference May 31 – June 2 in Orlando, FL being hosted by Ag Commissioner Adam Putnam. If you have 5-10 minutes tomorrow to discuss, would be appreciated. Let me know what works best for you or feel free to call me at 571-243-6530.

Thanks.

Cheryl and Sydney,

I hope you both are doing well. As you may remember, the Administrator was not able to attend this meeting with Gary Heminger on June 20 and despite your great effort to find a replacement date we could not get the Administrators or Gary's schedule to line up. We recently learned that Mr. Heminger will be in Washington, DC on September 19 and 20. Would the Administrator be available on September 19 for a 4pm or later meeting? If that does not work, Mr. Heminger also has some availability on 20th, but preferably in the afternoon.

Thank you in advanced for your consideration and please let me know if you need additional information.

Mike

Subject: RE: [EXTERNAL] Admin. Meeting Request for MPC

My name is Cheryl Woodward and I will assist you in the logistics for your meeting at EPA on Tuesday, June 20th at 5 pm. The instructions/directions to EPA is below and if you have any questions please contact me. Look forward to seeing you all.

Directions: EPA address is 1200 Pennsylvania Avenue, NW. If you are coming by taxi/vehicle, you want to be dropped off on 12th NW, **which is between Pennsylvania and Constitution Avenue**. It is almost exactly half way between the two avenues on with Federal Triangle Metro sign and Trump Hotel Towers side entrance can be used as a landmark. From 12th Street, facing the building with the EPA and American flags, walk toward the building (under the flags) and take the glass door on your left hand side with the escalators going down to the metro on your left. This again will be the **South Lobby of the William Jefferson Clinton building**.

Once inside the building, security will prompt you to scan all items such as bags, coats etc., and then let the guards know that you were instructed to call Cheryl Woodward at 564-1274 or Michelle Hale at 564-1430 to escort you to the meeting with the Administrator. Security will make temporary cards for everyone. Allow for 15 minutes to get through the process.

Hi Sydney,

Marathon Petroleum Corp.'s CEO, Gary Heminger, will be in town June 20-21 and is looking to meet with the Administrator. I've cc'd Mike Birsic who is a good friend and is the point person for setting this up. Mr. Heminger would like to talk about RFS and air regulations, among other things.

Mike, fill in any missing details.

Sydney, let me know if you need anything else from my end in the interim.

Best,

Mandy

Subject: SIGMA Invitation to Scott Pruitt - November 2017

Hi Sydney,

I am writing to touch base on an invitation from SIGMA for Scott Pruitt to speak at the SIGMA Annual Conference in Chicago this November. Mike Thornbrugh and the senior management of the QuikTrip Corporation, as well as the Love family of the Love's Travel Stops & Country Stores, would be thrilled to have him speak to our membership at our Chicago conference this November.

We would love to have him kick off our largest meeting of the year held at The Westin Michigan Avenue Chicago. The date is:

Wednesday, November 8, 2017

Opening General Session

3.00pm – 4.30 pm (*presentation time roughly 3.20pm – we start the session with some association business*)

The National Association of Truck Stop Owners (NATSO) is also holding a leadership meeting in Chicago concurrent with the start to the SIGMA Annual Conference. There would be an opportunity for Mr. Pruitt to meet with leadership from both SIGMA and NATSO at the event.

If there is further information I can provide or any questions I can answer, please let me know. I am happy to chat about the event.

Thank you so much,

Best,

Liz.

Subject: Heritage Foundation invitation to speak at our 40th Annual Resource Bank Meeting - May 11 in Colorado Springs

Dear Sydney,

As a follow up to Administrator Pruitt's conversation with Mr. Meese, I wanted to provide you with the speaking invitation details for Heritage's 40th Annual Resource Bank Meeting.

Our Resource Bank Meeting brings together about 500 leaders, influencers, and donors from across the conservative movement to talk about powerful ideas, innovative strategies, and effective marketing. This year's meeting will be held May 10-12 at The Broadmoor in Colorado Spring. Our theme is "Rise to the Challenge," and we think that Commissioner Pruitt would be a very inspiring speaker during our Robert H. Kriebel Dinner on Thursday, May 11.

We are happy to cover travel and hotel costs, and I am happy to answer any questions you might have about logistics, other speakers, the topic, and our audience.

Best,

Bridgett Wagner

Event: The Heritage Foundation's 40th Annual Resource Bank Meeting

Theme: “Rise to the Challenge”

Dates: May 10-12, 2017

Location: The Broadmoor Resort - Colorado Springs, CO

Request: Keynote the Robert H. Kriebel Dinner – Thursday, May 11

Ms. Letendre and Ms. Hupp,

Dale Niezwaag in our office gave me your card from when you spoke with him in Grand Forks last week. He asked me to forward our invitation for the Administrator to speak at our Annual Meeting on November 8. We would definitely love to have him attend and address our members as our keynote speaker that morning. Please let us know if there is anything else you may need from us as you consider the invitation.

Thank you for your time.

EPA Administrator Pruitt Speaker Request Form.docx

Hi Sydney,

It's great to be in touch. We would actually like to request a different date for this event. We are now looking at Wednesday, November 29th.

I have attached the speaker request form with the new date. Please let me know if you have any additional questions.

We are looking forward to hearing from you!

Warmly,

Allegra

Mr. Scott Pruitt, Administrator
U.S. Environmental Protection Agency
1200 Pennsylvania Avenue, N.W.
Washington, DC 20460

Re: Recommendation -- Alex S. LaBeau

Dear Administrator Pruitt:

Please accept this letter of recommendation for Alex S. LaBeau who is seeking appointment as the Region 10 Administrator for the Environmental Protection Agency.

I have known Alex for over 20 years and so my observations include both professional contact through public service and personal connections through volunteering in our community. Alex has a diverse and extensive base of experience, having developed and promoted programs from the ground up, serving on a multitude of task forces and agency boards, providing leadership and unity to diverse interest groups.

Alex LaBeau is a qualified candidate and a valuable representative for the Pacific Northwest. He would be a valuable member of your EPA team and I recommend him to you for that position.

Please contact me if you have any questions about Mr. Alex LaBeau.

Sincerely,

A handwritten signature in black ink, appearing to read "Lawrence G. Wasden".

Subject: FW: Scott Smith Kentucky Administrator Visit Request

First, I would like to thank you and the Administrator for taking time to speak to the Commerce

Lexington that visited DC earlier this summer. I have a group in Northern Kentucky that would appreciate the Administrator considering meeting with them certainly at his convenience. This is a group of builders, developers and elected officials in one of Kentucky's fastest growing communities. They would be soliciting the Administrator's advice and help in dealing with the Waters of the US and related Corps of Engineers issues.

I have attached a copy of the Speaker Request Form and a letter to Administrator Pruitt.

Let me know if you have any questions. Brian Miller will be the primary contact for this event (see speaker form) but don't hesitate to contact me if you or the Administrator have any questions.

I hope you've had an enjoyable summer. I'll bet it's been nice to be in the Administrative Branch and not the Legislative Branch this summer.

Thanks for your consideration

Hi Tate, congratulations on the new(ish) position over there! I ran into Mark a few weeks ago and he said you're liking the job, so glad to hear it. It's good to have some Republicans in the EPA 😊

I know things are probably crazy for you, but we sent in a meeting request for Pruitt on behalf of the Uranium Producers of America (UPA) last Monday, and I wondered if you would be able to flag it for the right folks over there, or could connect me to someone I can follow up with? We sent the attached letter to the scheduling email address (Pruitt.scott@epa.gov) but wanted to also follow up with a real person if possible.

Thanks for any assistance, I know scheduling isn't your job description, but really appreciate any help you can provide!

Subject: Follow-up State Policy Network Call with Administrator Pruitt + Meeting request
5-18-17 SPN-Pruitt Call Attendees.xls

Thank you so much for making last week's call with Administrator Pruitt a reality. We had exactly 100 people on the call and attached is the attendee list. We appreciate how generous the Administrator was with his time and the frankness of his remarks.

On a different note – we have a group of state think tank leaders who focus on environmental issues coming into town for meetings with the Administration and the Hill. **We would like to set up meetings with key EPA policy officials on Wednesday June 21st (ideally the morning – but we can be flexible).**

The goals of our fly-in are as follows:

1. Gain a better understanding of the administration's plans for devolving power back to the states
2. Share intel and issues from the states
3. Develop and deepen relationships between the state think tank movement and Washington DC leaders
4. Develop a pro-active state agenda to prepare states for federal changes (we have a day-long strategy session after meetings to work on these policies then roll-them-out at our national meeting in August)

Who can help me set up the appropriate meetings at EPA? Although mostly we want to listen, some of the issues our delegates want to discuss are as follows: methane, endangerment finding, on-going agency restructuring plans, regional appointments, Paris Treaty and Renewable Fuel Standard.

We are keeping attendance small so we have a more in-depth exchange. Attendees include:

- Mike Thompson - Virginia
- Amy Oliver Cooke – Colorado

- Jason Hayes – Michigan
- David Stevenson - Delaware
- Jameson Taylor – Mississippi (tentative attendance)
- Todd Myers – Washington
- Matt Anderson – Utah
- Brent Mead – Montana
- Dan Peterson – Florida

Look forward to continuing to work with you. Thanks!

Thank you for all your help with this call. Attached is a one-page reference sheet for next week's call with Administrator Pruitt. I inserted the details below – please let me know if I need to change anything, especially the speaking and Q&A time.

Monthly State Policy Network Energy – Environmental Policy Huddle

This monthly call brings together energy and environmental experts from the network of 66 state-based free market think tanks, national think tanks, state legislators, legal experts and state governors' staff. The goal is to share state-level intelligence, resources and develop strategies on multi-state and national issues

Thursday, May 18, 2017 – 4:00 pm est

Speaker call-in number:

1-800-779-3177

Speaker code – 45324

Participant code - 7139036

Purpose of call: Environmental Protection Agency Administrator Scott Pruitt provides an update on proposed changes to EPA policy and regulations and how they will impact states. Many people on this call were leading the Clean Power Plan push-back in their state and are advocates for devolving decision making to the local level.

Agenda:

Call will start in speaker-only mode (moderated by an operator)

4:00 pm – Welcome, brief background about the monthly call and introduce EPA Administrator Scott Pruitt, Jennifer Butler, State Policy Network

4:03 pm – Administrator Pruitt's remarks (10 minutes)

4:13 pm – Q&A - operator queued -up questions (10 minutes)

4:23 pm – Administrator Pruitt departs and call wrap-up

Main contact: Jennifer Butler

(561) 352-0011

Participating organizations:

State Policy Network - State Policy Network supports 66 independent state think tanks that develop practical public policy solutions to help solve some of our country's greatest challenges at the state and national levels.

American Legislative Exchange Council - ALEC is America's largest nonpartisan, voluntary membership organization of state legislators dedicated to the principles of limited government, free markets and federalism. It is comprised of nearly one-quarter of the country's state legislators and stakeholders from across the policy spectrum.

Republican Governors Public Policy Committee - RGPPC serves as the official policy arm of the Republican Governors Association. Bringing together 33 Republican governors from statehouses across the country, the RGPPC is committed to shaping public policy debates at the state and federal levels of government.

Haven't gotten around to inviting them yet on this call because we were scheduling a few other issue related calls that will be before this one.

Still ok to include them?

It is not a problem – I am sure you all are extremely busy. I can set a call anytime that will be good for the Secretary's schedule. Because so many states are in legislative session, Thursdays and Fridays are best (in the afternoon so folks on the west coast can join us).

Looking at our network's schedule, the next few weeks are pretty open so we can be flexible if there are a few dates / times that work with his schedule.

Thank you!

Subject: State Policy Network - Speaking request

Attached is the completed form requesting Secretary Pruitt to join our monthly State Energy / Environmental Policy Call. To expand the call to other key parties in the states, I can invite ALEC and RGA to participate. Our three organizations have been on a lot of policy related calls (healthcare and tax reform) together lately.

Background on this call:

We kicked off this call in December of 2015 with the goal of getting as many states as possible to submit requests to EPA for two-year state plan extensions, but after the SCOTUS stay the call transitioned into getting as many states to stop working on a plan. During session our weekly war room calls quickly became the go-to source for state action and info sharing. We not only have state and national think tank policy experts engaged, but also private industry and attorneys

associated with state AG offices. We also deal with RPS mandates, carbon tax and messaging proactive free market solutions. The call is now on a monthly basis and would benefit greatly from receiving a first-hand update on changes we will see at the EPA, plus what support the agency needs during this transition.

Look forward to discussing this request. Thank you for your consideration.

Subject: RE: Meeting Location Question

Directions: If you come by Metro, the Federal Triangle metro stop is directly below the building entrances. You would leave the metro station and go up all three sets of escalators from the train otherwise two escalators then do a small U-Turn to the left heading toward 12th street, the South Lobby entrance is directly and immediately to your right (Glass Doors -EPA Signified on Glass).

EPA address is 1200 Pennsylvania Avenue, NW. If you are coming by taxi/vehicle, you want to be dropped off on 12th NW, **which is between Pennsylvania and Constitution Avenue**. It is almost exactly half way between the two avenues on with Federal Triangle Metro sign and Trump Hotel Towers side entrance can be used as a landmark. From 12th Street, facing the building with the EPA and American flags, walk toward the building (under the flags) and take the glass door on your left hand side with the escalators going down to the metro on your left. This again will be the **South Lobby of the William Jefferson Clinton building**.

Once inside the building, security will prompt you to scan all items such as bags, coats etc., and then let the guards know that you were instructed to call Cheryl Woodward at 564-1274 or Michelle Hale at 564-1430 to escort you to the meeting with the Administrator. Security will make temporary cards for everyone. Allow for 15 minutes to get through the process.

Michelle and Sydney,

Quick question: We want to send a formal letter to Administrator Pruitt. How is the best way to send that letter? By FedEx? US Postal Service? And it is better to address it to one of you than Mr. Pruitt, himself? He obviously gets a ton of mail daily, and we wouldn't want this invitation letter to get lost.

Best,

Jim Lakely

Michelle,

I hope you are well, and I appreciate all the work you did to see if Administrator Pruitt could speak at The Heartland Institute's climate conference in March. I hope Mr. Pruitt could speak at another Heartland event, which is why I'm sending this email.

Below my signature is an official invitation from Heartland Institute President Joseph Bast for Mr. Pruitt to be the keynote speaker at our annual benefit dinner, tentatively scheduled for September or October, depending on what's best for his schedule. We will be mailing this out in hard-copy form later this week, but I wanted to get the ball rolling immediately.

We certainly hope Administrator Pruitt will say “yes,” and let me know if you have any questions.

Warm regards,

Jim Lakely

May 23, 2017

Environmental Protection Agency

Office of the Administrator, 1101A

1200 Pennsylvania Avenue, N.W.

Washington, DC 20460

Dear Administrator Pruitt:

Thank you for everything you've been doing to advance President Trump's agenda.

I was sorry your schedule didn't allow you to speak at our Twelfth International Conference on Climate Change, held March 23-24 in Washington DC. It was a huge success!

I am writing to ask if you could come to Chicago this fall to speak at The Heartland Institute's 33rd Anniversary Benefit Dinner. The event will be on a Wednesday or Thursday evening in September or October. We can be flexible for whatever date best suits you.

The event likely will be held in the evening at The Cotillion, a fine banquet hall located in a town just down the road from our offices in Arlington Heights, Illinois. The venue is used frequently by elected officials and candidates during political seasons and can hold up to 800 people.

Each year, our anniversary dinners attract nearly 500 people – and with you as our honored keynote speaker, we'd surely sell out the hall with nearly a thousand friends and pro-Trump supporters.

I hope you or your scheduler can give me a call soon with a "yes," and any other questions you might have regarding our event. You can reach me at 312/377-4000, or by email at jbast@heartland.org.

Please know that everyone here at Heartland is pulling for you and the entire Trump administration to be a success. Nothing less than the future of liberty is riding on it.

A handwritten signature in black ink, appearing to read "J. Bast". The signature is stylized with a large, looping initial "J" and a cursive "Bast".

Sincerely,

Joseph L. Bast

President

About The Heartland Institute

The Heartland Institute is a 33-year-old national nonprofit research organization, founded in 1984, dedicated to finding and promoting ideas that empower people.

Mission: Our mission is to discover, develop, and promote free-market solutions to social and economic problems.

Staff: A full-time staff of 39, including 30 working in Arlington Heights, Illinois. Joseph Bast is president

and CEO. Dr. Herbert Walberg is chairman of the board.

Policy Advisors: 370 academics and professional economists serve as policy advisors and 250 elected officials pay dues to serve on our Legislative Forum.

Publications: Heartland sends four monthly policy newspapers – *Budget & Tax News*, *Environment & Climate News*, *Health Care News*, and *School Reform News* – to every national and state elected officials in the United States and thousands of civic and business leaders. It also produces books, policy studies, booklets, podcasts, and videos.

Communications: In 2016, we appeared in print and on television or radio 853 times with a combined print circulation of 67.7 million readers. We hosted 15 websites generating more than 1.8 million pages views.

Policy Bot: Heartland hosts an online database and search engine called *PolicyBot* containing the complete text of (not just links to) more than 32,000 reports and commentaries from some 300 free-market think tanks and advocacy groups.

Events: Heartland hosted 68 events in 2016, attended by 10,616 people. We have hosted 12 International Conferences on Climate Change since 2008, attended by more than 5,000 people.

Government Relations: We contacted elected officials more than one million times in 2016, with 24,948 total direct personal contacts with elected officials, including 4,963 face-to-face meetings, 5,374 phone calls, 13,970 personal email contacts, and 641 contacts via personal mail.

Public positions: We focus on issues in education, environmental protection, health care, budgets and taxes, and constitutional reform.

Funding: Our 2016 income came from the following sources: foundations 67%; individuals 19%; business 11%; other 3%. Heartland is funded entirely by the tax-deductible contributions of its supporters and receives no funds from any government at any level.

Contact information: 3939 North Wilke Road, Arlington Heights, IL 60004, phone 312/377-4000, email think@heartland.org.

For more information: The “About” page on our website at www.heartland.org contains endorsements of our work, a history, and video prepared for our 25th anniversary in 2009.

On Thu, Mar 23, 2017 at 12:59 PM, Woodward, Cheryl <Woodward.Cheryl@epa.gov> wrote:

Good afternoon,

I will be your point of contact (Cheryl Woodward) for logistics. Send me you list of attendee's (first and last name); bring valid U.S. identification and suggest to have the least amount of personal item. Below are the instructions/directions to your meeting. Please contact if you have any questions or concerns.

Directions: If you come by Metro, the Federal Triangle metro stop is directly below the building entrances. You would leave the metro station and go up all three sets of escalators and then do a small U-Turn to the right heading toward 12th street, the North Lobby entrance is directly and immediately to your left (Glass Doors -EPA Signified on Glass).

If you are coming by taxi/vehicle, you want to be dropped off on 12th NW, between Constitution Ave and Pennsylvania Ave. It is almost exactly half way between the two avenues on 12th street and the Federal Triangle Metro sign can be used as a landmark. From 12th Street, facing the building with the EPA and American flags, walk toward the building (under the flags) and take the glass door on your left hand side with the escalators going down to the metro on your left. This again will be the South Lobby of the William Jefferson Clinton building.

Once inside the building, security will prompt you to scan all items such as bags, coats etc., and then let the guards know that you were instructed to call Cheryl Woodward at 564-1274 or Michelle Hale at 564-1430 to escort you to the meeting with the Administrator. Security will make temporary cards for everyone. Allow for 15 minutes to get through the process.

Sydney,

I got your email from Crystal. She said to shoot you an email about our upcoming trip to DC. We will be bringing the OK Ag Leadership Encounter. It is a group of 12 college Juniors and Seniors in the OSU College of Agriculture. The group spends the year learning about agriculture in Oklahoma and in April we always go to DC to learn Federal policy. We were hoping we could swing by EPA and meet with Administrator Pruitt for a brief period. We are coming to town April 2nd -4th and were hoping we could swing by EPA on Monday April 3 somewhere in the time period of 9am -12 pm. Clearly his schedule is far busier and more important than ours and we will make anytime he is available work. I have copied Kass Pfeiffer on this email as she is organizing the trip on our end. Thanks for your help on this and hopefully it can work out.

Thanks!

Thank you for all your help with this call. Attached is a one-page reference sheet for next week's call with Administrator Pruitt. I inserted the details below – please let me know if I need to change anything, especially the speaking and Q&A time.

Monthly State Policy Network Energy – Environmental Policy Huddle

This monthly call brings together energy and environmental experts from the network of 66 state-based free market think tanks, national think tanks, state legislators, legal experts and state governors' staff. The goal is to share state-level intelligence, resources and develop strategies on multi-state and national issues

Thursday, May 18, 2017 – 4:00 pm est

Speaker call-in number:

1-800-779-3177

Speaker code – 45324

Participant code - 7139036

Purpose of call: Environmental Protection Agency Administrator Scott Pruitt provides an update on

proposed changes to EPA policy and regulations and how they will impact states. Many people on this call were leading the Clean Power Plan push-back in their state and are advocates for devolving decision making to the local level.

Agenda:

Call will start in speaker-only mode (moderated by an operator)

4:00 pm – Welcome, brief background about the monthly call and introduce EPA Administrator Scott Pruitt, Jennifer Butler, State Policy Network

4:03 pm – Administrator Pruitt's remarks (10 minutes)

4:13 pm – Q&A - operator queued -up questions (10 minutes)

4:23 pm – Administrator Pruitt departs and call wrap-up

Main contact: Jennifer Butler

butler@spn.org

(561) 352-0011

Participating organizations:

State Policy Network - State Policy Network supports 66 independent state think tanks that develop practical public policy solutions to help solve some of our country's greatest challenges at the state and national levels.

American Legislative Exchange Council - ALEC is America's largest nonpartisan, voluntary membership organization of state legislators dedicated to the principles of limited government, free markets and federalism. It is comprised of nearly one-quarter of the country's state legislators and stakeholders from across the policy spectrum.

Republican Governors Public Policy Committee - RGPPC serves as the official policy arm of the Republican Governors Association. Bringing together 33 Republican governors from statehouses across the country, the RGPPC is committed to shaping public policy debates at the state and federal levels of government.

Subject: State Policy Network - Speaking request

Attached is the completed form requesting Secretary Pruitt to join our monthly State Energy / Environmental Policy Call. To expand the call to other key parties in the states, I can invite ALEC and RGA to participate. Our three organizations have been on a lot of policy related calls (healthcare and tax reform) together lately.

Background on this call:

We kicked off this call in December of 2015 with the goal of getting as many states as possible to submit requests to EPA for two-year state plan extensions, but after the SCOTUS stay the call transitioned into getting as

many states to stop working on a plan. During session our weekly war room calls quickly became the go-to source for state action and info sharing. We not only have state and national think tank policy experts engaged, but also private industry and attorneys associated with state AG offices. We also deal with RPS mandates, carbon tax and messaging proactive free market solutions. The call is now on a monthly basis and would benefit greatly from receiving a first-hand update on changes we will see at the EPA, plus what support the agency needs during this transition.

Look forward to discussing this request. Thank you for your consideration.

Environmental Protection Agency
Office of the Administrator, 1101A
1200 Pennsylvania Avenue, N.W.
Washington, DC 20460

Dear Administrator Pruitt:

Thank you for everything you've been doing to advance President Trump's agenda.

I was sorry your schedule didn't allow you to speak at our Twelfth International Conference on Climate Change, held March 23-24 in Washington DC. It was a huge success!

I am writing to ask if you could come to Chicago this fall to speak at The Heartland Institute's 33rd Anniversary Benefit Dinner. The event will be on a Wednesday or Thursday evening in September or October. We can be flexible for whatever date best suits you.

The event likely will be held in the evening at The Cotillion, a fine banquet hall located in a town just down the road from our offices in Arlington Heights, Illinois. The venue is used frequently by elected officials and candidates during political seasons and can hold up to 800 people.

Each year, our anniversary dinners attract nearly 500 people – and with you as our honored keynote speaker, we'd surely sell out the hall with nearly a thousand friends and pro-Trump supporters.

I hope you or your scheduler can give me a call soon with a "yes," and any other questions you might have regarding our event. You can reach me at 312/377-4000, or by email at

jbast@heartland.org.

Please know that everyone here at Heartland is pulling for you and the entire Trump administration to be a success. Nothing less than the future of liberty is riding on it.

A handwritten signature in black ink, appearing to read "JBast", with a large, stylized loop on the left side.

Sincerely,

Joseph L. Bast

About The Heartland Institute

The Heartland Institute is a 33-year-old national nonprofit research organization, founded in 1984, dedicated to finding and promoting ideas that empower people.

Mission: Our mission is to discover, develop, and promote free-market solutions to social and economic problems.

Staff: A full-time staff of 39, including 30 working in Arlington Heights, Illinois. Joseph Bast is president and CEO. Dr. Herbert Walberg is chairman of the board.

Policy Advisors: 370 academics and professional economists serve as policy advisors and 250 elected officials pay dues to serve on our Legislative Forum.

Publications: Heartland sends four monthly policy newspapers – *Budget & Tax News*, *Environment & Climate News*, *Health Care News*, and *School Reform News* – to every national and state elected officials in the United States and thousands of civic and business leaders. It also produces books, policy studies, booklets, podcasts, and videos.

Communications: In 2016, we appeared in print and on television or radio 853 times with a combined print circulation of 67.7 million readers. We hosted 15 websites generating more than 1.8 million pages views.

Policy Bot: Heartland hosts an online database and search engine called *PolicyBot* containing the complete text of (not just links to) more than 32,000 reports and commentaries from some 300 free-market think tanks and advocacy groups.

Events: Heartland hosted 68 events in 2016, attended by 10,616 people. We have hosted 12 International Conferences on Climate Change since 2008, attended by more than 5,000 people.

Government Relations: We contacted elected officials more than one million times in 2016, with 24,948 total direct personal contacts with elected officials, including 4,963 face-to-face meetings, 5,374 phone calls, 13,970 personal email contacts, and 641 contacts via personal mail.

Public positions: We focus on issues in education, environmental protection, health care, budgets and taxes, and constitutional reform.

Funding: Our 2016 income came from the following sources: foundations 67%; individuals 19%; business 11%; other 3%. Heartland is funded entirely by the tax-deductible contributions of its supporters and receives no funds from any government at any level.

Contact information: 3939 North Wilke Road, Arlington Heights, IL 60004, phone 312/377-4000, email think@heartland.org.

For more information: The “About” page on our website at www.heartland.org contains endorsements of our work, a history, and video prepared for our 25th anniversary in 2009.

Sydney,

I got your email from Crystal. She said to shoot you an email about our upcoming trip to DC. We will be bringing the OK Ag Leadership Encounter. It is a group of 12 college Juniors and Seniors in the OSU College of Agriculture. The group spends the year learning about agriculture in Oklahoma and in April we always go to DC to learn Federal policy. We were hoping we could swing by EPA and meet with Administrator Pruitt for a brief period. We are coming to town April 2nd -4th and were hoping we could swing by EPA on Monday April 3 somewhere in the time period of 9am -12 pm. Clearly his schedule is far busier and more important than ours and we will make anytime he is available work. I

have copied Kass Pfeiffer on this email as she is organizing the trip on our end.
Thanks for your help on this and hopefully it can work out.

Thanks!

Subject: RE: State Policy Network - Call with Administrator Pruitt

Good morning –

We have 87 people RSVP'ed for today's call – including 43 from RGA representing 26 different states. I expect more RSVP's to come in this morning. Because of the turn-out, if he does have any extra time we would appreciate lengthening the q&a. It will be operator monitored.

Any concerns about us adding a speaker about messaging after the Administrator concludes and is off the phone?

Thanks!

Thank you for all your help with this call. Attached is a one-page reference sheet for next week's call with Administrator Pruitt. I inserted the details below – please let me know if I need to change anything, especially the speaking and Q&A time.

Monthly State Policy Network Energy – Environmental Policy Huddle

This monthly call brings together energy and environmental experts from the network of 66 state-based free market think tanks, national think tanks, state legislators, legal experts and state governors' staff. The goal is to share state-level intelligence, resources and develop strategies on multi-state and national issues

Thursday, May 18, 2017 – 4:00 pm est

Speaker call-in number:

1-800-779-3177

Speaker code – 45324

Participant code - 7139036

Purpose of call: Environmental Protection Agency Administrator Scott Pruitt provides an update on proposed changes to EPA policy and regulations and how they will impact states. Many people on this call were leading the Clean Power Plan push-back in their state and are advocates for devolving decision making to the local level.

Agenda:

Call will start in speaker-only mode (moderated by an operator)

4:00 pm – Welcome, brief background about the monthly call and introduce EPA Administrator Scott Pruitt, Jennifer Butler, State Policy Network

4:03 pm – Administrator Pruitt's remarks (10 minutes)

4:13 pm – Q&A - operator queued -up questions (10 minutes)

4:23 pm – Administrator Pruitt departs and call wrap-up

Main contact: Jennifer Butler

butler@spn.org

(561) 352-0011

Participating organizations:

State Policy Network - State Policy Network supports 66 independent state think tanks that develop practical public policy solutions to help solve some of our country's greatest challenges at the state and national levels.

American Legislative Exchange Council - ALEC is America's largest nonpartisan, voluntary membership organization of state legislators dedicated to the principles of limited government, free markets and federalism. It is comprised of nearly one-quarter of the country's state legislators and stakeholders from across the policy spectrum.

Republican Governors Public Policy Committee - RGPPC serves as the official policy arm of the Republican Governors Association. Bringing together 33 Republican governors from statehouses across the country, the RGPPC is committed to shaping public policy debates at the state and federal levels of government.

It is not a problem – I am sure you all are extremely busy. I can set a call anytime that will be good for the Secretary's schedule. Because so many states are in legislative session, Thursdays and Fridays are best (in the afternoon so folks on the west coast can join us).

Looking at our network's schedule, the next few weeks are pretty open so we can be flexible if there are a few dates / times that work with his schedule.

Thank you!

Subject: State Policy Network - Speaking request

Attached is the completed form requesting Secretary Pruitt to join our monthly State Energy / Environmental Policy Call. To expand the call to other key parties in the states, I can invite ALEC and RGA to participate. Our three organizations have been on a lot of policy related calls (healthcare and tax reform) together lately.

Background on this call:

We kicked off this call in December of 2015 with the goal of getting as many states as possible to submit requests to EPA for two-year state plan extensions, but after the SCOTUS stay the call transitioned into getting as many states to stop working on a plan. During session our weekly war room calls quickly became the go-to source for state action and info sharing. We not only have state and national think tank policy experts engaged, but also private industry and attorneys associated with state AG offices. We also deal with RPS mandates, carbon tax and messaging proactive free market solutions. The call is now on a monthly basis and would benefit greatly from receiving a first-hand update on changes we will see at the EPA, plus what support the agency needs during this transition.

Look forward to discussing this request. Thank you for your consideration.

Honorable Administrator Pruitt,

The Idaho Chapter of the Pacific Northwest Section (PNWIS) of the Air and Waste Management Association (A&WMA) would like you to be the Plenary Speaker for the regional conference to be held in Boise, Idaho this fall. The conference will be November 1-3 at the Riverside Inn in Boise. I am aware that the national A&WMA has invited you to our annual convention in Pittsburgh in June. However, since few of us would be able to travel to that event we would appreciate hearing from you of EPA's

direction to regulators and the regulated community of Region 10. Of course having the EPA Region 10 Administrator, if they are appointed, speak to us on your behalf would also be appreciated.

As background, the mission of A&WMA PNWIS is to assist in the professional development and critical environmental decision-making of our members to benefit society. PNWIS covers Alaska, British Columbia, Idaho, Montana, Oregon, Washington, and Yukon.

Information on A&WMA can be found at their website <http://www.awma.org/> on the "About" page.

Information on PNWIS and the Idaho Chapter can be found at their website <http://www.pnwis.org/> on the "About" page.

The PNWIS conference brings together Environmental Management Professionals, Engineers, Regulatory Professionals, Consultants, Legal Professionals, Young Professionals, Students, and Equipment Manufacturers to learn about and discuss current environmental issues. Also, as background, EPA Region 10 will hold a meeting October 31 on Title V training for State Regulators. EPA Region 10 will also hold a session with State Regulators and the regulated community to discuss Air Permitting issues the morning of November 1.

We hope you or the Region 10 Administrator would be able to speak to us. If you have questions about the upcoming conference contact me at stevecory@q.com or at (208) 608-8533.

Thank you for your consideration,

Steven Cory

Subject: Oklahoma Ag Leadership Encounter visit to EPA

Sydney,

I got your email from Crystal. She said to shoot you an email about our upcoming trip to DC. We will be bringing the OK Ag Leadership Encounter. It is a group of 12 college Juniors and Seniors in the OSU College of Agriculture. The group spends the year learning about agriculture in Oklahoma and in April we always go to DC to learn Federal policy. We were hoping we could swing by EPA and meet with Administrator Pruitt for a brief period. We are coming to town April 2nd -4th and were hoping we could swing by EPA on Monday April 3 somewhere in the time period of 9am -12 pm. Clearly his schedule is far busier and more important than ours and we will make anytime he is available work. I have copied Kass Pfeiffer on this email as she is organizing the trip on our end. Thanks for your help on this and hopefully it can work out.

Thanks!

Subject: RE: State Policy Network - Call with Administrator Pruitt

Good morning –

We have 87 people RSVP'ed for today's call – including 43 from RGA representing 26 different states. I expect more RSVP's to come in this morning. Because of the turn-out, if he does have any extra time we would appreciate lengthening the q&a. It will be operator monitored.

Any concerns about us adding a speaker about messaging after the Administrator concludes and is off the phone?

Thanks!

For tomorrow's call - after Administrator Pruitt has concluded, we wanted to have someone from Protecting America Now (a c4 focused on transforming EPA back to its original intent) give an update on message polling they just did related to many of the policies our groups are advancing. Wanted to see if there is any issue with us covering this topic after the Administrator concludes.

Thank you for all your help with this call. Attached is a one-page reference sheet for next week's

call with Administrator Pruitt. I inserted the details below – please let me know if I need to change anything, especially the speaking and Q&A time.

Monthly State Policy Network Energy – Environmental Policy Huddle

This monthly call brings together energy and environmental experts from the network of 66 state-based free market think tanks, national think tanks, state legislators, legal experts and state governors' staff. The goal is to share state-level intelligence, resources and develop strategies on multi-state and national issues

Thursday, May 18, 2017 – 4:00 pm est

Speaker call-in number:

1-800-779-3177

Speaker code – 45324

Participant code - 7139036

Purpose of call: Environmental Protection Agency Administrator Scott Pruitt provides an update on proposed changes to EPA policy and regulations and how they will impact states. Many people on this call were leading the Clean Power Plan push-back in their state and are advocates for devolving decision making to the local level.

Agenda:

Call will start in speaker-only mode (moderated by an operator)

4:00 pm – Welcome, brief background about the monthly call and introduce EPA Administrator Scott Pruitt, Jennifer Butler, State Policy Network

4:03 pm – Administrator Pruitt's remarks (10 minutes)

4:13 pm – Q&A - operator queued -up questions (10 minutes)

4:23 pm – Administrator Pruitt departs and call wrap-up

Main contact: Jennifer Butler

butler@spn.org

(561) 352-0011

Participating organizations:

State Policy Network - State Policy Network supports 66 independent state think tanks that develop practical public policy solutions to help solve some of our country's greatest challenges at the state and national levels.

American Legislative Exchange Council - ALEC is America's largest nonpartisan, voluntary membership organization of state legislators dedicated to the principles of limited government, free markets and federalism. It is comprised of nearly one-quarter of the country's state legislators and stakeholders from across the policy spectrum.

Republican Governors Public Policy Committee - RGPPC serves as the official policy arm of the Republican Governors Association. Bringing together 33 Republican governors from statehouses across the country, the RGPPC is committed to shaping public policy debates at the state and federal levels of government.

It is not a problem – I am sure you all are extremely busy. I can set a call anytime that will be good for the Secretary's schedule. Because so many states are in legislative session, Thursdays and Fridays are best (in the afternoon so folks on the west coast can join us).

Looking at our network's schedule, the next few weeks are pretty open so we can be flexible if there are a few dates / times that work with his schedule.

Thank you!

Subject: State Policy Network - Speaking request

Attached is the completed form requesting Secretary Pruitt to join our monthly State Energy / Environmental Policy Call. To expand the call to other key parties in the states, I can invite ALEC and RGA to participate. Our three organizations have been on a lot of policy related calls (healthcare and tax reform) together lately.

Background on this call:

We kicked off this call in December of 2015 with the goal of getting as many states as possible to submit requests to EPA for two-year state plan extensions, but after the SCOTUS stay the call transitioned into getting as many states to stop working on a plan. During session our weekly war room calls quickly became the go-to source for state action and info sharing. We not only have state and national think tank policy experts engaged, but also private industry and attorneys associated with state AG offices. We also deal with RPS mandates, carbon tax and messaging proactive free market solutions. The call is now on a monthly basis and would benefit greatly from receiving a first-hand update on changes we will see at the EPA, plus what support the agency needs during this transition.

Look forward to discussing this request. Thank you for your consideration.

Good Morning Michelle,

On behalf of the New England Council, please find the attached invitation for Secretary Pruitt to speak its members at a Federal Policy Briefing, as part of their Annual Spring Event in Washington, D.C., on the afternoon of Wednesday, May 3, 2017.

The briefing will be held at the Willard Intercontinental Hotel from 2:00 – 4:00 PM. There are 4-5 speakers over the course of the afternoon, each speak for approximately 10-15 minutes. There may also be a few questions as well. They are able to accommodate what works best for the Secretary's schedule.

Additional information on the event, as well as background on the New England Council, is included in the attachment. I have also attached a separate list of speakers from the Obama and Bush Administrations as well.

Thank you for your consideration and please let me know if you have any additional questions.

Best,

Laine

Subject: Egg Producers' Meeting Today with Administrator Pruitt

Hi Sydney,

We are all set for today's meeting. No changes in attendees. Thanks for helping on this! The top topic on the producers' minds is the pending reporting requirements under CERCLA and EPCRA - - the result of a DC Circuit Court decision to April. Animal ag reps met earlier this week with Sarah Greenwalt and Amanda Gunasekera on this topic. In addition to their general interest in meeting and thanking the Administrator, they will likely share some first hand thoughts about the implications of these requirements for them and their businesses.

Let me know if you have questions.

Hi Sydney,

That is great news. I will work with the egg producers and get back to you with day/time windows that might work – they will want to be very flexible and make this work for the Administrator's schedule.

I will get back to you later today or tomorrow with the filled-out form.

Best!

Tom

Producers in DC on May 17, 18 or 19, 2017

Thanks so much for your reply Sydney. We certainly understand. As an alternative, would it be possible for 3 to 5 grower leaders in at some point to meet the Administrator over that period? These would be the people responsible for some of the largest egg producing operations in the country with multiple farm sites and more than 50 million laying hens under production.

Best!

Tom Hebert

Good afternoon Mr. Herbert,

Thank you for reaching out to me and thank you for the invitation for Administrator Pruitt to keynote! Unfortunately, we are unable to participate this time due to conflicts on the schedule those days. Please do not hesitate to reach out to us in the future though! Hopeful you have a great rest of your week.

Best,

Sydney

Subject: Invitation to Administrator Pruitt to Offer a Keynote Address to the Nation's Egg Producers in DC on May 17, 18 or 19, 2017

Dear Ms. Hupp,

I hope you are well and settling in nicely at EPA.

Please see attached a letter inviting the Administrator to offer a keynote address to the nation's egg producers at a meeting being held by United Egg Producers (UEP) here in Washington, D.C. on May 17, 18 or 19, 2017. Details are included in the letter.

UEP's farmer members raise hens that produce about 95% of the nation's eggs, and most of that egg production will be accounted for by the 150 or so egg producers in the audience listening to Administrator Pruitt's address should he decide to do this. These producers and UEP have been at the forefront of several US EPA rulemakings and policies that are central to how farmers operate today; Clean Water Act matters involving the Concentrated Animal Feeding Operations (CAFO) rule, WOTUS rule and the Chesapeake Bay TMDL as well as Clean Air Act and CERCLA/EPRCA matters as they relate to ammonia and other air emissions. These are tremendously important issues that relate directly to how egg producers can continue to proudly meet their environmental responsibilities and the growing demand for eggs, and in general make their contribution to the nation's safe, wholesome and abundant food supply.

These farmers would appreciate hearing about Administrator Pruitt's plans for US EPA's environmental programs so they can better understand how they could contribute to the success

of his efforts and what these plans might mean for their farms and businesses.

Please let me know if you have any questions or if the Administrator can accept this invitation.
Thank you in advance for your consideration of this request.

Best!

Tom Hebert

Subject: Small request

Hi Tate, congratulations on the new(ish) position over there! I ran into Mark a few weeks ago and he said you're liking the job, so glad to hear it. It's good to have some Republicans in the EPA ☺

I know things are probably crazy for you, but we sent in a meeting request for Pruitt on behalf of the Uranium Producers of America (UPA) last Monday, and I wondered if you would be able to flag it for the right folks over there, or could connect me to someone I can follow up with? We sent the attached letter to the scheduling email address (Pruitt.scott@epa.gov) but wanted to also follow up with a real person if possible.

Thanks for any assistance, I know scheduling isn't your job description, but really appreciate any help you can provide!

Kelli

Hi Don and John,

Happy Friday to you both!

Todd Becker, our CEO here at Green Plains Inc., had the opportunity to sit down with Administrator Pruitt at the Presidential Inauguration's Cabinet Dinner. As a follow up to their meeting, Todd has written the attached letter to the Administrator and asked that I help get it to him. I would very much appreciate your help in passing this along, as Todd wishes to express his gratitude for the opportunity to meet, as well as follow up on the conversation they had.

Thank you in advance for your help on this!

Best Regards,

Sasha Forsen | Public Relations Manager

Subject: EPA Flag for LPPC Speech
Importance: High

Good afternoon Ms. Hupp,

I have spoken with Nathan Reese who requested I reach out to you directly about getting an EPA flag that we could hang during Administrator Pruitt's remarks to LPPC on Monday, May 22nd. As you may know, we have a walk-through with your advance team (Brady Henderson and Forest McMurray) this coming Friday, May 19th. I have tried to call Brady several times on the number that he gave me but it keeps going straight to voicemail and it doesn't allow me to leave him a message.

Would you please send me his contact information or direct me on how best to secure an EPA flag? It would be great to have it brought to the walk through so we can have it hanging and ready on Monday.

Thank you for your guidance!

Good Morning Michelle,

On behalf of the New England Council, please find the attached invitation for Secretary Pruitt to speak its members at a Federal Policy Briefing, as part of their Annual Spring Event in Washington, D.C., on the afternoon of Wednesday, May 3, 2017.

The briefing will be held at the Willard Intercontinental Hotel from 2:00 – 4:00 PM. There are 4-5 speakers over the course of the afternoon, each speak for approximately 10-15 minutes. There may also be a few questions as well. They are able to accommodate what works best for the Secretary's schedule.

Additional information on the event, as well as background on the New England Council, is included in the attachment. I have also attached a separate list of speakers from the Obama and Bush Administrations as well.

Thank you for your consideration and please let me know if you have any additional questions.

Best,

Laine

Dear Sydney,

As a follow up to Administrator Pruitt's conversation with Mr. Meese, I wanted to provide you with the speaking invitation details for Heritage's 40th Annual Resource Bank Meeting.

Our Resource Bank Meeting brings together about 500 leaders, influencers, and donors from across the conservative movement to talk about powerful ideas, innovative strategies, and effective marketing. This year's meeting will be held May 10-12 at The Broadmoor in Colorado Spring. Our theme is "Rise to the Challenge," and we think that Commissioner Pruitt would be a very inspiring speaker during our Robert H. Kriehle Dinner on Thursday, May 11.

We are happy to cover travel and hotel costs, and I am happy to answer any questions you might have about logistics, other speakers, the topic, and our audience.

Best,

Bridgett Wagner

Event: The Heritage Foundation's 40th Annual Resource Bank Meeting

THE NEW ENGLAND COUNCIL

March 1, 2017

The Honorable Scott Pruitt
Administrator
U.S. Environmental Protection Agency
1200 Pennsylvania Avenue, N.W.
Washington, DC 20460

Dear Administrator Pruitt,

The New England Council, the nation's oldest regional business association, would be honored if you would accept our invitation to speak to our members at a Federal Policy Briefing, part of our Annual Spring Event in Washington, DC, on the afternoon of **Wednesday, May 3, 2017**. The briefing will be held at the Willard Intercontinental Hotel from **2:00 – 4:00 p.m.**

Founded in 1925, The New England Council is a non-partisan alliance of businesses, academic and health institutions, and public and private organizations throughout New England formed to promote economic growth and a high quality of life in the New England region. Our mission is to identify and support federal public policies and articulate the voice of its membership regionally and nationally on important issues facing New England. The Council works to foster positive working relationships between its members and key federal policy makers, including members of Congress and leaders of federal agencies.

Each spring, over 250 New England Council members – including CEOs and other senior executives from **many of New England's largest and most well-**respected businesses, non-profits, and other institutions – **gather in the nation's capital for our** Annual Spring Event. In addition to meetings and events on Capitol Hill, the highlight of our visit is a Federal Policy Briefing featuring Cabinet officials, senior White House staff, and other key federal policy makers. In recent years, we have been honored to welcome several White House Chiefs of Staff, Cabinet Secretaries, and leaders from other federal agencies, including the Office of the U.S. Trade Representative, the Federal Communications Commission, the Export-Import Bank of the U.S., and the U.S. Patent and Trademark Office. Former Administrator Christine Todd-Whitman has also addressed our members at a prior briefing.

The briefing is an excellent opportunity for the new Administration to highlight priorities and initiatives that will impact the business community for a broad audience of leaders from all six New England states. We hope that you will join us to share your vision for the Environmental Protection Agency (EPA) during your tenure as Administrator. I know that our members would greatly appreciate the opportunity to hear you **discuss the EPA's responsibilities and how the Agency** plans to address them going forward. In the event that you are not able to join us, we would gladly welcome one of your top deputies as a speaker. We generally hear from 4-5 speakers over the course of the afternoon, each speaking for 10-15 minutes and taking some questions.

The New England Council

Sydney,

I got your email from Crystal. She said to shoot you an email about our upcoming trip to DC. We will be bringing the OK Ag Leadership Encounter. It is a group of 12 college Juniors and Seniors in the OSU College of Agriculture. The group spends the year learning about agriculture in Oklahoma and in April we always go to DC to learn Federal policy. We were hoping we could swing by EPA and meet with Administrator Pruitt for a brief period. We are coming to town April 2nd -4th and were hoping we could swing by EPA on Monday April 3 somewhere in the time period of 9am -12 pm. Clearly his schedule is far busier and more important than ours and we will make anytime he is available work. I have copied Kass Pfeiffer on this email as she is organizing the trip on our end. Thanks for your help on this and hopefully it can work out.

Thanks!

Subject: Administrators Pruitt Schedule- please help [WARNING: SPF validation failed]

Sydney,

In communicating with Ryan initially and then Michell Hale before you arrived, it appeared flexible for the Administrator to come to Earth Day Texas either Friday the 21st or Saturday the 22nd. I had hard initially that the Administrator would like to be back in Oklahoma over the weekend.

We are hosting a legal summit on the 21st that is Private and runs all day. I have scheduled the Administrator to speak at that lunch. It is a private affair, and I felt it would be a great place for him to speak about Flint or his legal philosophy of states rights vs national protection.

I have him scheduled to speak then Friday at lunch, and this can change. but I would like him to address that group at some point on Friday, could be late in the day if possible.

I would also like to set meetings with C level executives for the administrator and possibly have him at breakfast at Crow holdings on Saturday AM.

My question is how can I help have his visit be positive and effective?

We have worked well with many conservatives, last yer Lt. Gov Patrick came as well as our friend Ken Paxton. Patrick has spoken publically at EDT events as well as privately.

WHAt does the administrator want to do?
We will have various legislators and congressmen here from around the country.
Would he like a private meeting with them?
Congressmen Ken Calvert for example has told us he wants to come and I saw him at the NRCC event on Tuesday.

I need you input. And I know you are swamped.
We need to plan as well.

Please help. Thanks BF

Sydney-

Thank you for reaching out to schedule a conversation between Dan and Administrator Pruitt. Would an initial telephone call be sufficient? I know that he and Dan had an opportunity to visit during the Administrator's tenure in Oklahoma. Please also let me know of any background or advance information on the visit in case Dan would like to invite another member of our team to join.

Also, it was a pleasure to visit with members of your staff, Lincoln Ferguson and Sarah Greenwalt, while we recently visited DC. They were enjoying a lunch break at a local CFA Restaurant. Two great staff members.

Look forward to coordinating with you further.

Good afternoon Mr. Cathy,

Hopeful this email finds you well! Administrator Pruitt asked me to reach out to you and see if you might be willing to get a time set up for the two of you to have a meeting. If there is someone I can work with to help get that facilitated, I would greatly appreciate it.

Have a wonderful day!

Sydney,

Andrew Wheeler was kind enough to share your contact information. We sent an invitation via US mail for Administrator Pruitt to keynote our annual meeting in November. After hearing him on Wednesday of this week at the Faegre Baker Daniels meeting I'm even more keen on getting him to our meeting – his comments were outstanding and a breath of fresh air from EPA.

Attached is a copy of the letter for your reference. We'd love to hear from you as soon as you're able to provide a tentative indication.

Have a great Memorial Day weekend!

Subject: EPA Flag for LPPC Speech

Good afternoon Ms. Hupp,

I have spoken with Nathan Reese who requested I reach out to you directly about getting an EPA flag that we could hang during Administrator Pruitt's remarks to LPPC on Monday, May 22nd. As you may know, we have a walk-through with your advance team (Brady Henderson and Forest McMurray) this coming Friday, May 19th. I have tried to call Brady several times on the number that he gave me but it keeps going straight to voicemail and it doesn't allow me to leave him a message.

Would you please send me his contact information or direct me on how best to secure an EPA flag? It would be great to have it brought to the walk through so we can have it hanging and ready on Monday.

Thank you for your guidance!

Dear Sydney,

As a follow up to Administrator Pruitt's conversation with Mr. Meese, I wanted to provide you with the speaking invitation details for Heritage's 40th Annual Resource Bank Meeting.

Our Resource Bank Meeting brings together about 500 leaders, influencers, and donors from across the conservative movement to talk about powerful ideas, innovative strategies, and effective marketing. This year's meeting will be held May 10-12 at The Broadmoor in Colorado Spring. Our theme is "Rise to the Challenge," and we think that Commissioner Pruitt would be a very inspiring speaker during our Robert H. Kriebel Dinner on Thursday, May 11.

We are happy to cover travel and hotel costs, and I am happy to answer any questions you might have about logistics, other speakers, the topic, and our audience.

Best,

Bridgett Wagner

Event: The Heritage Foundation's 40th Annual Resource Bank Meeting

FROM: United States Environmental Protection Agency
Gabrielle Webster
Chief Executive Officer and President
Boys & Girls Clubs of Greater Washington

DATE: May 17, 2017

SUBJECT: Fundraiser at the Washington Nationals Ballpark

Thank you for your willingness to participate in a fundraiser for the Boys & Girls Clubs of Greater Washington ("BGCGW"). We continue to work with your officer for Ethics at the Environmental Protection Agency, but we have not been able to secure approval from that department at this time.

Given this delay, our organization would like to reschedule this event to a date in the future that is mutually agreeable to you and your staff. By rescheduling this event, we believe your staff will better be better able to prepare you for the event, and BGCGW will have an opportunity to invite potential donors with the ethics approval in hand.

Thank you for your efforts to support the 15,000 youth in Washington, D.C. Our kids are excited to meet you and to honor your commitment to our clubs. Personally, I am honored you would consider our request, and we hope that we can work out a mutually agreeable date with your staff in the near future.

BCIU Invitation to Scott Pruitt.docx
ATT00001.txt

One more invite to consider. I sit on the board of Bciu. A really great organization. I think would be really opportunity for him. We can build the event around his schedule.

Thanks!

March 23, 2017

The Honorable Scott Pruitt
Administrator
U.S. Environmental Protection Agency
1200 Pennsylvania Avenue, NW
Washington, DC 20004

Dear Administrator Pruitt:

On behalf of the Board and Members of the Business Council for International Understanding (BCIU) congratulations on your nomination by President Donald J. Trump and confirmation by the United States Senate to serve as Administrator of the Environmental Protection Agency (EPA). As you assume these important duties on behalf of the nation, I write to offer BCIU's assistance. We would like to host an early engagement with you and our corporate membership. This could be held in either Washington or New York at a date of your choosing.

Our founder, President Dwight D. Eisenhower, believed that American ideals of freedom and private enterprise could benefit the world. BCIU promotes these ideals through our exchanges between business and government leaders around the globe. Over 200 off-the-record exchanges each year allow our members to receive updates from key international decision-makers, share best practices from industry, and discuss key policies which impact business. Since our founding as a White House initiative in 1955, we have played a role in helping to onboard 10 administrations.

As President Reagan wrote in 1981, "Through several of our corporate and government friends, I have become aware of the 'honest broker' functions of BCIU, which brings American Ambassadors, senior administration officials, and foreign statesmen together with business leaders from across the United States. BCIU's broad acquaintance with the business community makes it possible for business and government to consult selectively and repeatedly, exchanging economic realities of continuing value to both."

BCIU was privileged to hold our first program with the new administration on January 19th featuring Mrs. K.T. McFarland, Deputy National Security Advisor as key note speaker. The event was attended by more than 40 Ambassadors and foreign dignitaries and over 100 business executives.

BCIU looks forward to serving as a private sector engagement vehicle for you and other senior EPA officials as you outline new policies affecting multiple industries. Our members place a top priority on health and environmental responsibility in their commercial activities, and BCIU looks forward to working with you in support of these shared objectives.

Thank you for your consideration.

Sincerely,

Peter Tichansky
President & CEO

Sydney, I've attached the form for Tuesday's meeting. I will join Chet for the meeting as well. Please let me know if you need anything else.

For June 15th, do you think it would be possible for the Administrator to join us in our meeting space across the street at the Trump Hotel? If not, that is completely understandable and we'll keep the meeting in EPA HQ. We're just working through some logistical issues on our end.

Thanks!

Geoff

Hi Sydney, I hope things are well with you too! The first meeting is just with Chet Thompson, AFPM's president. We're based in D.C. so his schedule is pretty flexible. I've copied Rebbie Riley, Chet's EA, to help with scheduling.

The second request is for AFPM's executives for the afternoon of June 15th. They'll be flying into town for a series of meetings and would like to visit with Administrator Pruitt if he's available. These are the executives we expect to join.

Larry Ziemba (AFPM Chairman of the Board)

Executive Vice President, Refining, Phillips 66

Joe Gorder (AFPM Vice Chairman)

Chairman, President and CEO, Valero Energy Corporation

Greg Goff (AFPM Past Chairman)

Chairman, President and CEO, Tesoro Corporation

Dennis Seith (AFPM Treasurer)

President and CEO, INEOS

Dan Coombs

Executive Vice President of Global Manufacturing, Projects, Refining & Technology,
LyondellBasell Industries

George Damiris

CEO & President, HollyFrontier Corporation

Gary Heminger

Chairman, President and CEO, Marathon Petroleum Corporation

Dave Lamp

President and COO, Western Refining Company

Jack Lipinski

CEO, CVR Energy

Jim Loving

Sr. VP Refining, Pipelines and Terminals, CHS, Inc.

Jeff Ramsey

President and CEO, Flint Hills Resources

Jeff Webber (Associate Liaison)

President, AltairStrickland, Inc.

Michael Coyle (tentative on attendance)

President, Manufacturing, Chevron U.S.A., Inc.

Tom Nimbley (tentative on attendance)

CEO, PBF Energy, Inc.

Jerry Wascom (tentative on attendance)

President, ExxonMobil Refining & Supply Co.

I'll fill out the form for both meeting requests and send them back as soon as possible.

Thanks!
Geoff

Subject: AFPM Meeting Request

Ryan, I hope things are well. As we discussed last week, I would like to request a meeting for AFPM's president, Chet Thompson, with Administrator Pruitt in early May. Chet would like to reintroduce himself, discuss some of the issues that are top of mind for our refining and petrochemical members, and of course explore any ways AFPM can be helpful to the Administrator. By way of background, Chet was EPA Deputy General Counsel under President G.W. Bush.

Separately, we also have our Executive Committee meeting on June 15th in D.C. If I'm not overstepping, would it be possible to explore a second meeting with Administrator Pruitt and senior executives from our companies for that afternoon?

Thanks,

Geoff Moody

Scott Pruitt

Administrator

Environmental Protection Agency

1200 Pennsylvania Avenue, N.W.
Washington, DC 20460

Dear Mr. Pruitt,

We request the honor of your presence at the 3rd Biennial Oil & Gas Environmental Conference as a keynote speaker. The conference will be held on November 28-29, 2017, at the Royal Sonesta Houston Galleria, 2222 West Loop South, Houston, Texas 77027 with expected attendance of 450.

The Oil & Gas Environmental Conference is focused on new and emerging issues related to environmental performance in the oil and gas industry. This event is intended to bring together recognized experts from relevant and diverse disciplines to provide a broad range of perspectives. The conference will feature a variety of panel discussions and breakout sessions designed to inform attendees of the latest environmental trends, and issues related to the oil & gas industry.

It would be an honor and privilege to have you address environmental professionals in the oil and gas industry at the 2017 Conference.

Please let us know if we can answer any questions you may have about the invitation.

Sincerely,

A handwritten signature in black ink, appearing to read "Cassandra Smith". The signature is fluid and cursive, with the first name "Cassandra" written in a larger, more prominent script than the last name "Smith".

Subject: Re: Meeting with Administrator Pruitt

We'd like to talk about opportunities for regulatory innovation and improvement. We're very active with the rest of the business community and with municipal government on ways EPA programs could become more efficient and closely aligned with statutory goals.

We're hoping we can be a resource for the Administrator, particularly in terms of ideas for ways to meet his goal of facilitating progress in working through the Superfund pipeline, sustaining some essential research and educational functions for RCRA, and improving the roll-out of recently promulgated air standards for municipal landfills. We've been discussion these issues with some EPA staff and think they have real promise. We know how critical the Administrator's support would be for these continued discussions.

Waste Management has been fortunate to work with Administrator Pruitt at one of our innovative advanced biofuel sites at East Oak Landfill in Oklahoma, so we know he's familiar with the company. This would be a policy discussion about some key EPA programs.

If you need more, just let me know!

Thank you so much! I really appreciate the offer.

I realize how busy the Administrator is, so I'm totally flexible depending on his schedule. I'm in town, so I can respond to a time when it looks good on your side.

Any time from Thursday next week on would be good, if there potential openings that look likely.

Thanks again, and I'll look forward to hearing from you.

Good afternoon Sue,

Hope this email finds you well! I am reaching out today to set up a meeting between WM and Administrator Pruitt. Gary Huddleston asked me to work with you directly on finding a time. Is there a certain time frame we are looking at? Looking forward to working with you!

Best,

Sydney

Recycling is a good thing. Please recycle any printed emails.

That's going to be it from our side. Do you need anything else like DOB or address etc?

Also, can you tell me who will be in the meeting from EPA other than Administrator Pruitt?

Hi Sydney,

I'm just following up on our May 24 meeting with Administrator Pruitt. I have the list of attendees (though we may add one more, I'll let you know as soon as possible):

Robert F. Helminiak

SOCMA

Managing Director of Government Relations

Jennifer Abril

SOCMA

President and CEO

Steel Hutchinson

GFS Organic Chemicals

Owner and President

(SOCMA's Previous Chairman)

Beth Bosley

Boron Specialties, LLC

Owner and President

John Foley

KMCO, KMTEx LLC

President and CEO

David Grimme

Baker Hughes

Vice President, Supply Chain

David Doles

Lonza

Senior Vice President, Global Head of Business Unit – Materials Performance & Protection
(SOCMA Chairman)

Please let me know what other information you need.

Regards,

Robert

Hi Sydney,

I'm following up on our conversation from earlier today. I'm excited to meet with the Administrator, May 24 at 2pm. I've filled out and attached the form as per your request.

I don't have the names of my member company participants, but I will get them to you as soon as I confirm their participation. I am anticipating eight total participants.

Please let me know if you need anything else.

Regards,
Robert

Administrator Pruitt,

I hope this finds you well. I am reaching out on behalf of the Society of Chemical Manufacturers & Affiliates (SOCMA). We are a trade association representing the specialty chemicals industry. I have attached a meeting request from SOCMA's CEO, Jennifer Abril.

SOCMA member companies employ more than 100,000 workers across the country and produce some 50,000 products - valued at \$60 billion annually - that make our standard of living possible. From pharmaceuticals to cosmetics, soaps to plastics, and all manner of industrial and construction products, SOCMA members make materials that save lives, make our food supply safe and abundant, and enable the manufacture of literally thousands of other products people use daily.

We hope to introduce you to some of the key players in the specialty chemical industry and explain our high priority issues.

Please contact me if you have any questions.

Regards,
Robert

Alliance Letter to EPA Administrator APR2017.pdf

Dear Ms. Hupp,
I hope this finds you well.

We would like to follow up on our attached letter submitted to the Administrator on April 14. We are now looking into an opportunity to bring together a delegation of CEOs from our member companies to meet with the Administrator for further discussion on the topics contained in the letter.

Please advise as to how we should go about setting up such a meeting.

Thank you in advance for your help.

Respectfully,

The Alliance

for Responsible Atmospheric Policy

April 14, 2017

The Honorable Scott Pruitt
Administrator
US Environmental Protection Agency
Office of the Administrator, Mail Code 1101A
1200 Pennsylvania Avenue, NW
Washington, DC 20460

Administrator Pruitt:

On behalf of the members of the Alliance for Responsible Atmospheric Policy (Alliance), I congratulate you on your confirmation as US EPA Administrator. We wish you success in your role as the EPA Administrator and we look forward to working with you and your staff in the coming months and years.

Organized in 1980, the Alliance is the leading voice of manufacturers, businesses and trade associations who make or use fluorinated gases for the global market. The US fluorocarbon using and producing industries contribute more than \$158 billion annually in goods and services to the US economy and provide employment to more than 700,000 individuals with an industry-wide payroll of more than \$32 billion. Alliance member companies are leading the development of safe, efficient, next-generation technologies and applications that benefit the US economy and consumers. A list of members is attached.

I am writing in support of EPA's activities to implement US obligations under the Montreal Protocol on Substances that Deplete the Ozone Layer (Montreal Protocol), its enabling framework, the Vienna Convention for the Protection of the Ozone Layer and Title VI of the Clean Air Act Amendments of 1990. For more than three decades, industry has worked with EPA to incorporate US competitiveness into vital efforts to protect the stratospheric ozone layer. It is critical to continue and fund this work.

As you are finalizing your FY 2018 budget and program proposals, we ask that you support the continued effective implementation of the global Montreal Protocol, including the technology assistance to developing countries directed through the Protocol's Multilateral Fund.

For several decades, it has been a priority of the US to join with other developed countries to provide funding for the developing country transition away from ozone-depleting compounds and into beneficial technologies, many of which are developed and exported by Alliance member companies. The Multilateral Fund has been both vital and successful in assisting developing countries to make the necessary transition toward beneficial technologies that incorporate US innovation.

In addition, Senate ratification of the Kigali Amendment is a key issue to be addressed when timing is appropriate. This will demonstrate US leadership in driving a timely transition. Without leadership from the US government and industry, other countries may fill the void and promote the introduction of

2111 WILSON BOULEVARD, 8TH FLOOR, ARLINGTON, VIRGINIA, USA 22201
Phone: +1-703-243-0344 • Fax: +1-703-243-2874 • Web: www.alliancepolicy.org

alternative technologies that benefit their own exporting industries, and are not as safe and energy efficient.

The global effort to protect the Earth's ozone layer by phasing out chlorofluorocarbons (CFCs) and hydrochlorofluorocarbons (HCFCs) is one of the signature environmental policy successes of the last 40 years, first initiated by President Ronald Reagan and his administration. Every administration since has supported the Montreal Protocol and the amendments associated with it. At the foundation of the Protocol's success is a long history of effective collaboration among industry, government officials and the environmental community. While it is rare for domestic regulatory initiatives to include economic issues as factors in their deliberative process, they are an established component under the Montreal Protocol, at both the global and domestic policy levels.

Over the last three decades, our collaborative efforts have enabled US industry to lead the global technology transition from CFCs to HCFCs to hydrofluorocarbons (HFCs). Policies to implement the Montreal Protocol and Title VI of the Clean Air Act amendments have led to industry's invention of new compounds and technologies that prevent further atmospheric buildup of ozone-depleting compounds while allowing innovative manufacturers to provide high-performance products that are safe, effective and affordable for air-conditioning, refrigeration, fire suppression, foam insulation, solvents, and medical devices. US industry has been the leader in these sectors, which over the last several decades have been significant contributors to a positive balance of trade, valuable jobs for the American workforce and a high quality of life for American consumers. A more comprehensive list of the benefits from advances in those sectors is attached.

Especially in the refrigeration, air-conditioning, and foam insulation sectors, there has been a concurrent transition to higher-efficiency equipment and products, leading to positive impacts for the US energy landscape and American consumers. These technologies have been at the cutting edge of modern industrial development, and identified by many emerging economies as critical to their economic growth. In fact, US industry sees immense opportunities in these emerging economies for the export and dissemination of new US technology.

Although the transition away from ozone-depleting substance is for the most part complete in developed economies, it is only in its early stages in emerging economies. This is of particular concern with regards to the larger emerging economies, including China and India, where the scale of the pending transition has significant technological, economic and environmental implications.

Now that the transition into HFCs is advanced in developed economies, there is global pressure to move once more, this time into new fluorinated and not-in-kind technologies due to concern in many markets for the potential growth in greenhouse gas emissions from HFCs. This latest effort was the subject of the Kigali Amendment adopted by the parties to the Montreal Protocol last October with significant US and global industry support. The amendment fulfills the need of businesses for a sensible, market-based approach to introducing HFC-alternative technologies.

We recognize that the effort underway to right-size the federal budget is fully in line with the campaign commitment of the new administration to make the US government more efficient. As it relates to the EPA budget, the funds utilized for participation in and implementation of the Montreal Protocol have very efficiently met their environmental objective, while helping to sustain US technological leadership in markets worldwide.

We desire efficient and cost-effective implementation of government regulatory initiatives that allows industry to have a voice in the process. Much work remains to be done, particularly with regard to the continued approval of new technologies, the improvement of refrigerant leak-reduction programs and,

consistent with domestic regulatory requirements, implementation of the global phasedown of existing materials and applications under the Montreal Protocol, all while ensuring continued US industrial leadership and success. We are also prepared to make suggestions on ways to improve the administration of the programs at the domestic and international level to achieve the desired efficiencies.

We appreciate you taking the time to consider our views, and we hope to meet with you in the near future to discuss these important matters.

Thank you.

Respectfully,

The Alliance

for Responsible Atmospheric Policy

Societal Benefits of Alliance Member Products

The role of Alliance members' products in our society goes well beyond their contribution to global and regional economies from a manufacturing and employment perspective. They are sold into a variety of industrial markets and incorporated into many products, providing a tremendous value to downstream industries and consumers. Listed below are some ways in which Alliance members' products and industries have provided significant societal benefits:

- ✓ Air-conditioning has played a key role in increasing worker productivity, enhancing health and reducing heat-related illness over the past half-century by keeping individuals comfortable and healthy in hot climates. In fact, MIT researchers have identified a direct correlation between the introduction of air-conditioning in the 20th century and a greater than 80 percent reduction in deaths due to exposure to very high temperatures (Barreca, Clay, Deschenes, Greenstone and Shapiro, 2012).
- ✓ Metered dose inhalers (MDIs) utilizing fluorinated compounds allow for the safe, effective delivery of critical medicines for the treatment of asthma and chronic obstructive pulmonary disease (COPD), which currently do not have a cure.
- ✓ Refrigeration units preserve and protect food for societies around the world. The growth of this technology will enhance the life of products and ensure that the food is reaching a larger percentage of the population.
- ✓ Blowing agents, which provide for increased thermal insulation in foam products, are helping to increase energy efficiency.
- ✓ Mobile air conditioning has become a necessity for passengers' comfort and safety in some one billion vehicles worldwide.
- ✓ The transport of food, drugs, and other products, which require climate control, is possible due to the use of refrigerants. Climate control assures that goods arrive without deterioration and do not endanger public health.
- ✓ The safe application of many materials is enabled through the use of aerosols, which are efficient and easy to use.
- ✓ Our industries provide solutions for novel applications in the solvent and fire extinguisher markets where safety is of critical importance.
- ✓ Our industries have available technologies for the safe, clean destruction or conversion of fluorinated compounds that have reached the end of their life.

Subject: [External] : RE: Meeting w/ International Paper

My name is Cheryl Woodward and I will assist you in the logistics for your meeting at EPA on Thursday, May 18th at 10:30 am. The instructions/directions to EPA is below and if you have any questions please contact me. Look forward to seeing you all.

Directions: If you come by Metro, the Federal Triangle metro stop is directly below the building entrances. You would leave the metro station and go up all three sets of escalators from the train otherwise two escalators then do a small U-Turn to the right heading toward 12th street, the South Lobby entrance is directly and immediately to your right (Glass Doors -EPA Signified on Glass).

EPA address is 1200 Pennsylvania Avenue, NW. If you are coming by taxi/vehicle, you want to be dropped off on 12th NW, which is between 12th and Constitution Avenues. It is almost exactly half way between the two avenues on 12th street with Federal Triangle Metro sign and Trump Hotel Towers side entrance can be used as a landmark. From 12th Street, facing the building with the EPA and American flags, walk toward the building (under the flags) and take the glass door on your left hand side with the escalators going down to the metro on your left. This again will be the **South Lobby of the William Jefferson Clinton building**.

Once inside the building, security will prompt you to scan all items such as bags, coats etc., and then let the guards know that you were instructed to call Cheryl Woodward at 564-1274 or Michelle Hale at 564-1430 to escort you to the meeting with the Administrator. Security will make temporary cards for everyone. Allow for 15 minutes to get through the process.

Dear Administrator Pruitt,

Attached is a formal request from Robert Walther, Vice President at POET LLC, to request a meeting on behalf of POET CEO and founder Jeff Broin for March 29, 2017 or the afternoon of March 30, 2017, at your convenience.

Jeff Broin is the Chairman and CEO of POET, the largest producer of biofuels worldwide. Mr. Broin has been heavily involved in biofuels advocacy and promotion on both the federal and state levels for more than 25 years. The purpose of this meeting request is to discuss Midwestern rural economic development issues including the Renewable Fuel Standard (RFS) and proposals that have been submitted to the EPA and the Administration to modify that program.

Please let me know if you need additional information or have questions.

Thank you for your consideration of this request.

Subject: RE: Contact with Administrator Pruitt

Hi Sydney, I hope your summer has gone well! We had spoken earlier this spring about a letter from Michigan Farm Bureau to Administrator Pruitt and I appreciated your help with that. Would you be willing to lend us your assistance again? MFB President Carl Bednarski would like to invite the Administrator to visit Michigan. We are a key state in a number of issues that are a high priority for the Administrator:

- ☐ ☐ ☐ ☐ ☐ ☐ Waters of the US – withdrawing the 2015 rule and rewriting a new rule
- ☐ ☐ ☐ ☐ ☐ ☐ Wetlands issues – both related to WOTUS and to Michigan’s recent challenges with approval for its delegated authority
- ☐ ☐ ☐ ☐ ☐ ☐ Addressing harmful algae blooms in the Western Lake Erie basin – efforts by agriculture and the need for support of voluntary conservation efforts rather than further regulation
- ☐ ☐ ☐ ☐ ☐ ☐ Additionally, we have significant concerns about another issue EPA has been dealing with in the Courts surrounding the requirement for many livestock farms to report air emission releases under CERCLA and EPCRA, and would like the Administrator to have an opportunity to speak with farmers about the topic.

There are a number of ways we might be able to arrange a visit. If the Administrator has time this fall, he would have an excellent opportunity to see these issues on the ground and speak with farmers dealing with them every day, as well as being able to visit a local Farm Bureau event. If his availability is instead open later in the year, our annual State Farm Bureau meeting hosts more than 1000 visitors and provides opportunities for both small round-table discussions and larger session or banquet speaking opportunities. Could you look at the Administrator’s schedule to see if he might be available for a visit on any of the following dates?

- ☐ ☐ ☐ ☐ ☐ ☐ Sep. 12: farm visits and Kent County Farm Bureau Annual meeting
- ☐ ☐ ☐ ☐ ☐ ☐ Sep. 19: farm visits and Cass County Farm Bureau Annual meeting
- ☐ ☐ ☐ ☐ ☐ ☐ Sep. 21: farm visits and Ottawa County Farm Bureau Annual meeting

- Oct. 17: farm visits and St. Joseph County Farm Bureau Annual meeting
- Nov. 2: farm visits and Berrien County Farm Bureau Annual meeting
- Nov. 6: farm visits and Van Buren County Farm Bureau Annual meeting
- Nov. 28-30: MFB State Annual Meeting, Grand Rapids, MI – round table discussions and speaking to a large gathering of Farm Bureau members.

Thank you so much for your help! Please let me know your thoughts and if you have any questions. If the Administrator is interested in a visit to Michigan and none of those dates work for his schedule, please let me know and we would be more than happy to make other arrangements for his visit to be impactful.

Hi Sydney, I received your contact information from my colleagues at American Farm Bureau Federation and left you a voicemail. I am following up with an email in hopes you can help me with the best email address to reach Administrator Pruitt, so we can send him a letter from Michigan Farm Bureau and the Michigan Chamber of Commerce. The letter regards EPA's review of Michigan's delegated authority for managing Part 404 of the Clean Water Act. Administrator Pruitt has met with staff from our state's Department of Environmental Quality,

who have alerted him to the concern Michigan agencies and organizations have with the EPA's review, and he has asked for those concerns to be sent to him.

Could you let me know which email Administrator Pruitt would prefer for us to reach him with this letter? Thank you for your help! Please feel free to contact me with any questions.

Sent: Thur 3/23/2017 2:33:28 PM
Subject: Invitation to Address ISO/RTO Annual Joint Board Conference

Sydney,

The ISO/RTO Council (IRC), which collectively manages the electric grid and wholesale electric markets for two-thirds of the U.S., is having its annual joint board conference meeting in Washington, DC May 25. The meeting will be attended by the CEOs, executives and board members for all nine ISO/RTOs in North America.

Since Nick Brown, SPP's President and CEO, is chairing the IRC this year, we are responsible for planning the program. Nick recently hosted a call with all the other ISO/RTO CEOs and they discussed the agenda for the upcoming conference. They were in agreement that they would like to have Administrator Pruitt address the group and asked me to extend this invitation to him.

We have the FERC Commissioners confirmed and hope to have Secretary Perry address the group as well. We were hoping Administrator Pruitt would agree to address the group sometime between 12 pm and 3:30 pm on May 25. The event will be held at The Willard InterContinental Hotel, 1401 Pennsylvania Ave NW, Washington, DC.

If I can provide you with additional information, please let me know.

Thanks for your consideration.

Warmest Regards,

Mike Ross

Sydney: Below and attached please find the info on the American Foundry Society Fly-in as you requested last week.

I may call you about those items I sent you last week to follow up as well.

As always, please let me know if you have any questions.

Respectfully, A.J. Ferate

Please see attached our agenda for the Fly-In in June. Should Administrator Pruitt be available Tuesday morning June 20, we would slot the “Changes at EPA on Regulations - What Does it Mean for the Metalcasting Industry?” in at either 10:15 am or 11:00 am in place of one of those panels. If the Administrator cannot join us – we would be delighted to have Samantha for the 7:30 am Breakfast Session keynote slot on June 21. You can see from the agenda what the other topics are of interest to our members and the caliber of speakers we have lined up so far.

As we have discussed, the American Foundry Society represents the U.S. metalcasting industry – the sixth-largest industry sector in America and the second largest supplier of castings in the world, after China. Metal castings are integral to virtually all U.S. manufacturing activities – especially national defense, energy and infrastructure. In the U.S., castings are used to produce 90% of all manufactured durable goods and nearly all manufacturing machinery.

The American metalcasting industry provides employment for over 200,000 men and women directly and supports thousands of other jobs indirectly. Our energy-intensive, trade-exposed industry supports a payroll of more than \$9 billion and sales of more than \$30.3 billion annually. Metalcasting plants are found in every state, and the industry is made of predominately small businesses, with 80% of domestic metalcasters having fewer than 100 employees.

Foundries are the mainstay of national defense. All sectors of the U.S. military are reliant on metal castings for jet fighters, ships, tanks, trucks, weapon systems and other vital operations. In fact, the U.S. Department of Defense has established formal programs to convert fabricated components to single-piece castings, improving our military’s ability to cost-effectively produce such equipment in the least amount of time.

Metalcasting is one of the most energy-intensive industries in the U.S. Approximately 55% of its energy costs are consumed in melting. Mold making, core making, heat treatment, and post-cast operations also use significant energy. As such, the sector has been particularly hard hit by the regulatory overreach from EPA over the last eight years.

The American Foundry Society (AFS) is the major trade and technical association for the North American metalcasting industry. The association has more than 8,000 members representing over 2,000 metalcasting firms, their suppliers and customers. We will have about 150 owners, CEOs and executives in Washington for the Fly-In over those two days. Energy and enthusiasm among the attendees will be very high with the new Administration in place in Washington.

Thanks again for your help Stuart.

Best.

Subject: RE: POET Meeting Request for Administrator Scott Pruitt

Please email me (Woodward.cheryl@epa.gov) your list of attendee's as soon as you have them, even if you are unsure. I will submit the names to Security to ensure a smooth security check through. If you have someone added at the last minute don't be concern they are welcome to attend. See the instructions/directions below.

Directions: If you come by Metro, the Federal Triangle metro stop is directly below the building entrances. You would leave the metro station and go up all three sets of escalators and then do a small U-Turn to the right heading toward 12th street, the North Lobby entrance is directly and immediately to your left (Glass Doors -EPA Signified on Glass).

If you are coming by taxi, you want to be dropped off on 12th NW, between Constitution Ave and Pennsylvania Ave. It is almost exactly half way between the two avenues on 12th street and the Federal Triangle Metro sign can be used as a landmark. From 12th Street, facing the building with the EPA and American flags, walk toward the building (under the flags) and take the glass door on your left hand side with the escalators going down to the metro on your left. This again will be the South Lobby of the William Jefferson Clinton building.

Once inside the building, security will prompt you to scan all items such as bags, coats etc., and then let the guards know that you were instructed to call Cheryl Woodward at 564-1274 or Michelle Hale at 564-1430 to escort you to the meeting with the Administrator. Security will make temporary cards for everyone. Allow for 15 minutes to get through the process

Hi Sydney,

I just wanted to confirm the location of next week's meeting and if there are any security measures we need to take, i.e. RSVP guest names and information? I am gathering all attendee's information as we speak.

Thank you.

Hi Sydney – thanks for the call back. I'm trying your email one more time, fingers crossed!

Thanks for speaking with me regarding setting up a meeting March 30th at 2PM with POET, CEO Jeff Broin, and Administrator Pruitt. Attached is our formal request with all the information regarding talking points.

On our end, POET is delighted about a meeting with Administrator Pruitt and can confirm that 2PM 3/30 works for them.

I will confirm the list of attendees as soon as I can.

Thank you,

Meghan E. Smith

Good morning Michelle,

I had sent the request below to Administrator Pruitt but wanted to share it with you directly as I'm sure he receives an abundance of emails. Attached is a formal request from Robert Walther, Vice President at POET LLC, to request a meeting on behalf of POET CEO and founder Jeff Broin for March 29, 2017 or the afternoon of March 30, 2017, at the availability of Administrator Pruitt.

Thank you for your consideration on this request.

Meghan E. Smith

Subject: POET Meeting Request for Administrator Scott Pruitt

Dear Administrator Pruitt,

Attached is a formal request from Robert Walther, Vice President at POET LLC, to request a meeting on behalf of POET CEO and founder Jeff Broin for March 29, 2017 or the afternoon of March 30, 2017, at your convenience.

Jeff Broin is the Chairman and CEO of POET, the largest producer of biofuels worldwide. Mr. Broin has been heavily involved in biofuels advocacy and promotion on both the federal and state levels for more than 25 years. The purpose of this meeting request is to discuss Midwestern rural economic development issues including the Renewable Fuel Standard (RFS) and proposals that have been submitted to the EPA and the Administration to modify that program.

Please let me know if you need additional information or have questions.

Thank you for your consideration of this request.

Subject: Re: AFS - GA FLY-IN AGENDA

The Vinyl Institute fly-in will occur tomorrow, the 17th and will have an attendance of about 75-85 attendees at the National Press Club. The current speaking slot is 3:15-3:45, but if Mandy cannot make that specific time work I think we can move some things around. While PVC MACT is the primary issue for the group I believe that there would be interest in hearing Mandy's thoughts on the new approach of EPA and any plans in the works.

Thank you!

Sydney: Below and attached please find the info on the American Foundry Society Fly-in as you requested last week.

I may call you about those items I sent you last week to follow up as well.

As always, please let me know if you have any questions.

Respectfully, A.J. Ferate

Please see attached our agenda for the Fly-In in June. Should Administrator Pruitt be available Tuesday morning June 20, we would slot the “Changes at EPA on Regulations - What Does it Mean for the Metalcasting Industry?” in at either 10:15 am or 11:00 am in place of one of those panels. If the Administrator cannot join us – we would be delighted to have Samantha for the 7:30 am Breakfast Session keynote slot on June 21. You can see from the agenda what the other topics are of interest to our members and the caliber of speakers we have lined up so far.

As we have discussed, the American Foundry Society represents the U.S. metalcasting industry – the sixth-largest industry sector in America and the second largest supplier of castings in the world, after China. Metal castings are integral to virtually all U.S. manufacturing activities – especially national defense, energy and infrastructure. In the U.S., castings are used to produce 90% of all manufactured durable goods and nearly all manufacturing machinery.

The American metalcasting industry provides employment for over 200,000 men and women directly and supports thousands of other jobs indirectly. Our energy-intensive, trade-exposed industry supports a payroll of more than \$9 billion and sales of more than \$30.3 billion annually. Metalcasting plants are found in every state, and the industry is made of predominately small businesses, with 80% of domestic metalcasters having fewer than 100 employees.

Foundries are the mainstay of national defense. All sectors of the U.S. military are reliant on metal castings for jet fighters, ships, tanks, trucks, weapon systems and other vital operations. In fact, the U.S. Department of Defense has established formal programs to convert fabricated components to single-piece castings, improving our military’s ability to cost-effectively produce such equipment in the least amount of time.

Metalcasting is one of the most energy-intensive industries in the U.S. Approximately 55% of its energy costs are consumed in melting. Mold making, core making, heat treatment, and post-cast operations also use significant energy. As such, the sector has been particularly hard hit by the regulatory overreach from EPA over the last eight years.

The American Foundry Society (AFS) is the major trade and technical association for the North American metalcasting industry. The association has more than 8,000 members representing over 2,000 metalcasting firms, their suppliers and customers. We will have about 150 owners, CEOs and executives in Washington for the Fly-In over those two days. Energy and enthusiasm among the attendees will be very high with the new Administration in place in Washington.

Thanks again for your help Stuart.

Best.

Dear All,

Hope you are all enjoying a somewhat quiet August. Just wanted to touch base with you again about rescheduling Director Pruitt's event at Hoover DC. Adam White suggested having the Director as an [Opening Arguments](#) guest in November 2017. As we discussed before, we can make this more of an invite only event and closed to the general public. Let us know some dates that might work for the Director in November.

All the best,
Paige

Hi guys,

Wondering if you guys had interest in rescheduling this event before the August break. Otherwise we could look for September dates.

Warm regards,

Paige

Subject: Hoover Institution Rescheduling

Dear All,

I wanted to touch base about rescheduling a Hoover DC event with Director Pruitt. If you have some available dates and time please send them along. Once we have a set date I would like to schedule a conference call in order to work out event details and logistics so that this time we have a successful event.

Many thanks and we look forward to hosting Director Pruitt.

Best,

Paige

Subject: RE: State Policy Network - Speaking request

For tomorrow's call - after Administrator Pruitt has concluded, we wanted to have someone from Protecting America Now (a c4 focused on transforming EPA back to its original intent) give an update on message polling they just did related to many of the policies our groups are advancing. Wanted to see if there is any issue with us covering this topic after the Administrator concludes.

Thank you for all your help with this call. Attached is a one-page reference sheet for next week's call with Administrator Pruitt. I inserted the details below – please let me know if I need to change anything, especially the speaking and Q&A time.

Monthly State Policy Network Energy – Environmental Policy Huddle

This monthly call brings together energy and environmental experts from the network of 66 state-based free market think tanks, national think tanks, state legislators, legal experts and state governors' staff. The goal is to share state-level intelligence, resources and develop strategies on multi-state and national issues

Thursday, May 18, 2017 – 4:00 pm est

Speaker call-in number:

1-800-779-3177

Speaker code – 45324

Participant code - 7139036

Purpose of call: Environmental Protection Agency Administrator Scott Pruitt provides an update on proposed changes to EPA policy and regulations and how they will impact states. Many people on this call were leading the Clean Power Plan push-back in their state and are advocates for devolving decision making to the local level.

Agenda:

Call will start in speaker-only mode (moderated by an operator)

4:00 pm – Welcome, brief background about the monthly call and introduce EPA Administrator Scott Pruitt, Jennifer Butler, State Policy Network

4:03 pm – Administrator Pruitt's remarks (10 minutes)

4:13 pm – Q&A - operator queued -up questions (10 minutes)

4:23 pm – Administrator Pruitt departs and call wrap-up

Main contact: Jennifer Butler

butler@spn.org

(561) 352-0011

Participating organizations:

State Policy Network - State Policy Network supports 66 independent state think tanks that develop practical public policy solutions to help solve some of our country's greatest challenges at the state and national levels.

American Legislative Exchange Council - ALEC is America's largest nonpartisan, voluntary membership organization of state legislators dedicated to the principles of limited government, free markets and federalism. It is comprised of nearly one-quarter of the country's state legislators and stakeholders from across the policy spectrum.

Republican Governors Public Policy Committee - RGPPC serves as the official policy arm of the Republican Governors Association. Bringing together 33 Republican governors from statehouses across the country, the RGPPC is committed to shaping public policy debates at the state and federal levels of government.

It is not a problem – I am sure you all are extremely busy. I can set a call anytime that will be good for the Secretary's schedule. Because so many states are in legislative session, Thursdays and Fridays are best (in the afternoon so folks on the west coast can join us).

Looking at our network's schedule, the next few weeks are pretty open so we can be flexible if there are a few dates / times that work with his schedule.

Thank you!

Subject: State Policy Network - Speaking request

Attached is the completed form requesting Secretary Pruitt to join our monthly State Energy / Environmental Policy Call. To expand the call to other key parties in the states, I can invite ALEC and RGA to participate. Our three organizations have been on a lot of policy related calls (healthcare and tax reform) together lately.

Background on this call:

We kicked off this call in December of 2015 with the goal of getting as many states as possible to submit requests to EPA for two-year state plan extensions, but after the SCOTUS stay the call transitioned into getting as many states to stop working on a plan. During session our weekly war room calls quickly became the go-to source for state action and info sharing. We not only have state and national think tank policy experts engaged, but also private industry and attorneys associated with state AG offices. We also deal with RPS mandates, carbon tax and messaging proactive free market solutions. The call is now on a monthly basis

and would benefit greatly from receiving a first-hand update on changes we will see at the EPA, plus what support the agency needs during this transition.

Look forward to discussing this request. Thank you for your consideration.

We'd like to talk about opportunities for regulatory innovation and improvement. We're very active with the rest of the business community and with municipal government on ways EPA programs could become more efficient and closely aligned with statutory goals.

We're hoping we can be a resource for the Administrator, particularly in terms of ideas for ways to meet his goal of facilitating progress in working through the Superfund pipeline, sustaining some essential research and educational functions for RCRA, and improving the roll-out of recently promulgated air standards for municipal landfills.

We've been discussion these issues with some EPA staff and think they have real promise. We know how critical the Administrator's support would be for these continued discussions.

Waste Management has been fortunate to work with Administrator Pruitt at one of our innovative advanced biofuel sites at East Oak Landfill in Oklahoma, so we know he's familiar with the company. This would be a policy discussion about some key EPA programs.

If you need more, just let me know!

Subject: Necessary and urgent

Scott,

I hope you are doing well and can spare a few minutes to read my email. It's urgent.

I know you'd agree with me that it's critical we bring back sound conservative principles in America. We've drifted so far from being the strong, secure, respected country that we once were, it's no wonder that Trump's promises to "make America great again" resonate so forcefully with Americans.

The return to conservative principles is not only necessary—it's urgent. Members of our Board of Trustees understands this and are taking action to bring it about.

They've pledged an incredible amount—\$1 million —of their own money as a matching challenge because they believe so strongly in the work that Heritage is doing but this matching opportunity ends soon.

You have until August 15 to have every dollar you give to The Heritage Foundation matched
>>

The amount of this challenge is unprecedented, and is a testament to just how strongly members of the Board feel about effecting change, and just how desperately our nation needs it.

Please give a generous gift today so that we can take full advantage of the \$1 million pledge. If we don't meet the full amount of the challenge, we lose out on the matching funds offered by the Board.

You can make your donation securely here: <https://secured.heritage.org/boardchallenge>

Thanks so much for your support.

Sincerely,

Christie Fogarty

Purpose of the Meeting: To request reversal of punitive provisions of the Renewable Fuel Standard which damage small businesses through government overreach, specifically, requiring replacement RINs and penalties for companies who have provided an affirmative defense (done no wrong).

Background on the Meeting: We have been involved with the EPA since 2007 in the RINS area and worked to help establish the Quality Assurance Programs. In doing so we have been exposed to some of the RIN fraud cases with damages as follows:

	Replacement RINs	RIN Value	Penalties	Total
Actual Damages	17.9	\$ 12.7	\$ 0.3	\$ 12.9
Pending Liability	19.8	17.6	-	17.6
Total Damages	37.8	\$ 30.3	\$ 0.3	\$ 30.6

Murex sold RINs we thought were valid to major oil companies. We conducted extensive due diligence (affirmative defense) but were fooled by criminals. When the EPA declared the RINs invalid, the oil companies had to supply replacement RINs and in some cases were assessed penalties. Murex's contracts with customers required Murex to make whole the oil companies, resulting in huge losses and a great injustice where honest people are punished for no apparent reason.

Role of the Administrator: To reverse the replacement RIN and penalty provisions of the Renewable Fuels Standard for companies providing an affirmative defense. The oil companies would receive replacement RINs and penalties back and Murex would recover RINs and penalties through release agreements.

Subject: How to understand Donald Trump

Scott,

Our current president is unlike any other who came before him.

The way he thinks and acts stems from his past experiences and successes as a businessman and celebrity, not as a politician. So it should come as no surprise that he doesn't act like a politician, and to be honest, he ruffles a lot of politicians' feathers — on both sides of the aisle — because they just don't understand him.

If we want to help President Trump move forward in promoting conservative policy, we must take time to understand the way he makes decisions, as well as his political agenda and how he deals with the forces that oppose him, such as the media and the establishment.

Newt Gingrich has written a book with some terrific insights into the nature of our 45th president. It's called *Understanding Trump*, and I'd like to send it to you as an appreciation gift for a donation of \$100 or more to The Heritage Foundation today.

And don't forget that for a limited time, your donation will be matched, dollar-for-dollar, by members of our Board of Trustees, who have promised to give up to \$1 million in matching funds for the donations we receive before August 15.

So please give generously in order to take advantage of the matching gift opportunity, and when you give \$100 or more, you'll receive a copy of *Understanding Trump* by Newt Gingrich.

<https://secure.heritage.org/boardchallenge>

Thanks for all you do as part of the Heritage team.

Best regards,

Ed Feulner
President

Thank you, Sydney!

One question – do you have an inkling of the timeline when you'll start looking at 4th quarter travel? (and I only ask because I know my CEO will ask me! I'm sure you're juggling a million schedules!)

Best,

LM.

Hi Sydney,

Thanks for your patience – we actually have two options for the November Annual Conference in Chicago, IL. Hopefully one of these works for his schedule!

The two dates/times we have for our Annual Conference are:

Wednesday, November 8, 2017

Opening General Session

3.00pm – 4.30 pm (*presentation time roughly 3.20pm – we start the session with some associate business*)

OR

Friday, November 10, 2017

Business Meeting and General Session

9.00am – Noon (*presentation time approximately 10.30/10.45am depending on how quickly the session flows*)

Please let me know if something is unclear. If I need to redo the speaker form, just let me know. Always feel free to call me if you have questions. 703.375.0483.

Thank you!

Best,

Liz.

Hi Sydney,

Thank you so much for the update! We are in the middle of our big Spring conference but I will get those details to you as soon as I can. Apologies for that delay, but I will check in with you once we are through this conference!

Thanks again!

Best,

Liz

Hello,

The Society of Independent Gasoline Marketers of America (SIGMA) would like to invite Scott Pruitt to speak at our Summer Legislative Conference. I have attached the speaker request form for Scott Pruitt for the event on July 18, 2017, following up on a personal invitation from Charles Michael Thornbrugh from the QuikTrip Corporation in Tulsa, Oklahoma, and member of SIGMA's Board of Directors, and our CEO Ryan McNutt. Please let me know if we can provide any further information.

Thank you.

Best,

Liz

Subject: Re: march 25th USOGA Pruitt

Hi Sydney-

The formal request is from the U.S. Oil and Gas Association. They are holding their executive board meeting on May 25 and they would like to request for Scott Pruitt to be their special speaker. They have not set a time for that day, because they want to be nibble with the Administrator's schedule. They are simply asking for 30 minutes of his time: 10-15 minute update on what he is doing at the EPA and then take a couple questions. They expect the attendance to be no more than 40, since it's their executive board, and it will be closed to the press.

The U.S. Oil and Gas Association, while maybe small in presence in DC, has very robust state chapters. The state chapters are the ones primarily representing our nation's most active oil and natural gas drillers, and these state chapter presidents will be attending the executive board meeting.

If you need any further information, please don't hesitate to let me know.

Thank you!
